PRIMARY CENSUS ABSTRACT (PCA)**

**Directorate of Census Operations
UTTAR PRADESH**

CONCEPTS AND DEFINITIONS

Census concepts

Building: A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca houses: Houses, the walls and roof of which are made of permanent materials. The material of walls can be anyone from the following, namely, Stones(duly packed with lime or cement mortar), G.I/metal/asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

Kutcha houses: Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, Unburnt bricks, bamboos, mud ,grass ,reeds, thatch, plastic /polythene, loosed packed stone, etc. Such houses are treated as Kutcha house.

Dwelling Room: A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of atleast 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House: A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non-residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

Village: The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area: The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz; Statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

(a) Statutory Towns: All places with a municipality, corporation, cantonment board or notified town area committee, etc are known as statutory towns.

(b) Census towns: All other places satisfying the following three criteria simultaneously are treated as Census Towns.

i) A minimum population of 5,000;

ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 persq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitute of OGs which are the parts of UAs.

Urban Agglomeration: An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc; may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the existing town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban

agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG): The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc and physically contiguous with the core town of the UA.

City: Towns with population of 100,000 and above are called cities.

Household: A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional Household: A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggars homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household : Households who do not live in buildings or census houses but live in the open or roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribes:-

The list of SCs and STs applicable in the State is given here under:-

| List of Scheduled Castes : – Census 2011 | | | |
|---|--|----------------|---|
| Sr. No. | Name of Scheduled Castes | Sr. No. | Name of Scheduled Castes |

| 65 | Shilpkar | 14 | Chero (in the district of Sonbhadra and Varanasi) |
| 66 | Turaiha | 15 | Bhuiya, Bhuinya(in the district of Sonbhadra) |

Language and Mother tongue: As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother

tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate: A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate: Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level: The highest level of education a person has completed.

Work: Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation maybe physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker: A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Mainworker'.

Marginal worker: A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker: A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator: For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like- tea, coffee, rubber, coconut and betel

nuts(areca). The workers engaged in Plantation crops are recorded under "other workers".

Agricultural labourer: A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker: Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker: A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. Infact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work participation rate: Percentage of Workers (Main + Marginal) to total population.

Population density: Population density is the number of persons inhabited per square kilometer of the area.

Age: Age is measured in terms of the completed number of years.

Sex Ratio: Number of females per 1,000 males in a population.

Non-Census Concepts

Civic status of urban units: Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of U.A./town: Size-class of U.A./Town is based on the population size of the U.A./City/Town.

U.A.s/Towns with 100,000 and above population are classified as Class I U.A.s/Towns. Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area: The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city : The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in terms of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cutoff point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Megacities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 million and above population have been treated as Mega cities and the same criteria of population has been adopted in 2011 census.

MOTIF

Bela Bhawani Temple

Bela Pratapgarh, popularly known as Pratapgarh is the headquarters town of the district. It lies on Allahabad-Faizabad main road at a distance of 40 kms from Allahabad. It is well connected with Faizabad, Jaunpur, Rae Bareli and Sultanpur. The town Bela Pratapgarh gets its name from Bela Bhawani Temple situated on the banks of the river Sai which flows to the north & east of the town. It is believed that Shri Rama once crossed the river before dawn and offered his prayers to Goddess on its bank. Later, as the legend goes, a temple known as Bela was founded at this spot. Baba Bhikhari Das, the great Hindi poet of the 18th century was born here and composed his famous "Kavya-nirnaya" here in 1802. The particular area was annexed as cantonment for the Oudh auxiliary force and was made headquarter of the district, after first freedom struggle was suppressed by the British. Around the temple, one Dharmshala, sub-post office and a few small pottery units are located. Local people offer prayers to the district on Tuesday & Saturday. During the months of October and April/May Navratri Pujas are organized with enthusiasm.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management

Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns,(ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Smt. Neena Sharma, (IAS), Director of Census Operations, Uttar Pradesh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C. Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.

Preface

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics (village-wise and town-wise) of the district along with the status of availability of assets, amenities, infrastructural facilities, etc of Households.

The District Census Handbooks (DCHBs) are brought out in two parts giving village and town wise data for each district. The Part –A of DCHB will contain non census data of Village and Town Directories which is under process. This Data could be available to the Data user as soon as possible.

The Part-B provides census data for rural areas up to the village level and for urban areas up to the ward level for each town or city in the shape of Primary Census Abstracts. DCHB Part–B is called as “Primary Census Abstract (PCA) of Census 2011” for each Village and Town along with Housing amenities data. Data sets presented herein relate to Population, Child population in the age-group of 0-6 years, Scheduled Caste/Scheduled Tribe population, Literacy and Work status. The data sets relating to Work status presents data based on duration of work (main and marginal) as well as the broad category of work (Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers). The gender composition and the residential status of each set of data have also been presented. The data at C.D. Block (Vikas Khand) wise rural/urban and village level are being presented in this volume. The primary Census Abstract on Schedule Castes and Schedule Tribes at CD Block (Vikas Khand)/Tahsil/Town level are also being presented in the volume.

The information contained in PCA was ready by April 2013. This data was collected through a specially designed schedule based on the ICR technology to facilitate scanning. There were 29 questions in the Population Enumeration schedule, asked from each and every individual, these are intended to collect personal information related to religion, SC/ST, disability, literacy, work status, migration and fertility.

Census 2011 field operations were conducted synchronously all over the country in two phases spread over a period of nearly one year. The first phase was the House-listing and housing census and the second phase was the Population Enumeration. The census of India 2011 is the 7th after Independence were conducted during 9 to 28 February 2011, with a revisional round from 1st March to 5th March 2011 with reference dates 00.00 hours of the 1st day of March 2011.

The tag line, "Our Census our future", aptly sums up the essence of the Census of India. Census data will be utilized not only by the policy makers, the planners and administrators but also by the corporate sector for formulating strategies at macro as well as micro levels. Despite taking all precautions, there exist some inaccuracies which is naturally inhalants in any field survey so the data should be seen in that context.

I am grateful to the Chief Secretary, Government of Uttar Pradesh and Principal Secretary and his team of General Administration Department

Government of Uttar Pradesh in facilitating the required administrative support by getting directions issued to the district authorities and issuance of all the necessary notifications for creating a framework required for effective conduct of this colossal task in the biggest state of the country in terms of population.

I am thankful to the Commissioner (Rural Development), all the District Magistrates, Additional District Magistrates (F/R), DPRO, DESTO, Tahsildars and Executive Officers of Uttar Pradesh Government along with their subordinate staff need to be especially thanked and commended for their full cooperation and strict execution of issued instructions by ensuring time-lines and regular compliance.

I extend my sincere gratitude to Dr.C. Chandramouli, Registrar General and Census Commissioner, India for his valuable guidance, insights and constant support despite heavy preoccupations at every stage of this publication. I am also thankful to Shri Deepak Rastogi, Additional Registrar General for their guidance and support.

I am also thankful to Dr. Pratibha Kumari, Assistant Registrar General, Social Studies and her team for guidance and co-ordination and great support. I acknowledge the support & co-operations of Shri Shri A.K. Arora, Joint Director (EDP) and his team for processing of data without their untiring efforts and supports we could not have completed the district census handbook within time.

The Director of Census Operations, Uttar Pradesh, Smt. Neena Sharma, IAS, under her guidance, the entire operations were carried out deserves all credit for its success, but she was repatriated to the State Government for taking up some other important assignments before this volume could be made available for the in-house printing.

The preparation of District Census Hand Book Part B is done under the supervision and guidance of Shri Mohammad Ahmad, Deputy Director, and Dr. S.S. Sharma, Assistant Director of Census Operations. I heartily acknowledge and appreciate their hard work to make this publication successful. The dedicated works of DCH Section of Directorate deserve all praise for their perseverance and dedication in preparation of DCHB Part-B. The members of staff in the Map Section did commendable job under guidance of Sri Dashrath Singh Deputy Director (Map) and Sri Mukesh Kumar Reserch Officer (Map) and their team of map section in bringing out various District and C.D Block level maps of the publication.

I am also thankful to Shri A.M. Ansari, Joint Director (EDP/DCH) and Shri A.K. Rai Assistant Director for providing valuable suggestions. The names of officers/officials associated with this project are given in the acknowledgment. I thank all of them for their unstinted support and co-operation.

Lucknow

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking,

recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

District Pratapgarh was created in 1858 with its headquarter at Bela which was later on known as Bela Pratapgarh. The name Bela Pratapgarh has been derived from the temple of Bela Bhowani, situated on the bank of river Sai. Pratap Singh a local Raja who flourished between 1628-1682 fix his headquarter at Rampur near the old town of Agra, the said king built a 'Garh' (Fort) and called it Pratapgarh after his own name, subsequently the area around the fort was popularized and known as Pratapgarh.

The early history of the district dates back to the fact that the reign was already inhabited in pre historic age. The archaeological exploration, excavations under taken by state archaeological department and Tata Fundamental Research Institute Bombay at Sarai Nahar in tahsil Kunda have found human skeltons along with animal's bones and small stone implements probably of Neolithic age. These findings pertain to around 8000 B.C. the ruins of the numerous buildings; monuments show that this tract did enjoy settled life and civilization since the early times. The ruins of the ancient fort at Hindaur in Pratapgarh tahsil ascribe that it was founded by Handavi, a demon of Mahabharat age. The present area of Bihar where ruins still remain is probably of an ancient Buddhist monastery which gave its name Biha to this town, Historian Cunningham made an excavation at village Gaura in 1876, he had found the ruins of a small richly carved temple of Surya, shows the date of the temple older than 8 or 9 century. It appears that Surya Vansh dynasty of Kshatriyas founded by Manu, who ruled over Madhyadesh, was the first to establish an organized govt. over this area. Ikshavaku, the eldest son of Manu was the first ruler and he succeeded by his son Vikushi who was also a very powerful king. District Pratapgarh was part of Kosala kingdom during Ramayan period; Ram divided his kingdom among his sons and nephews. Kush the elder got the throne of Ayodhya; Pratatgarh was included in his dominion. In the times of Mahabharat 'Diraghayajna'a powerful and religious minded monarch ruled over Ayodhya and neighbouring area. He was subdued by BhimSen, a Pandava. In the 6th century B.C. the area of present district was ruled by powerful king Mahakosala. In the middle of the 4th century B.C. The entire territory of Kosala including this district was

annexed to Maghadh Empire. The district came under Maurya empire during (322-297 B.C.). This dynasty lasted for 137 years and Ashoka was the famous king of this dynasty. Sungas, Sakas and Kushans followed afterwards Gupta's annexed Kosala kingdom. Chandragupta Vikramaditya and his successors ruled over Avadh upto 510 A.D. in which the district included towards the beginning of the sixth century this reign was passed into the hands of Maukhari kings of Kannauj. During 9th century, the Gurjara-Pratihara monarchs of Kannauj dominated the district. During the days of Kannauj kingdom some part of the district was occupied by Bhars.

In the medieval period, it is said that the area was ruled by Manikchand and Kara and then by his elder brother Jayachandra of Gahada vala dynasty. In 1192 Shihbuddin Ghori invaded the earlier ruler and established. The capital at Kara in which Pratapgarh was included. Ala-ud-din Masaud dominated the area of the present district till 1246 when he was succeeded by Nasir-ud-Mahmud (1244-1265). According to tradition about 1258, Lakhan Sen, a Sombanshi Rajput from Allahabad established himself at Parcho Siddh (near Pratapgarh) and subsequently occupied the pargana of Pratapgarh. In 1394 Khwaja Jahan, Mohammad Tughlaq's vazir was entrusted with the administration of the country from Kannauj to Bihar. In 1479 Sultan Bahlul Lodhi followed by Sikandar Lodhi ruled the area till 1517, Manikpur was a place of great importance in the reign of Sher Shah Suri and after his death the district passed under the subjugation of Muhammad Adil Shah. In 1567 Khan Zaman over rule all the area of Avadh including the district when Akbar founded Allahabad and made it headquarters of province, a reconstitution of the old administrative division was carried out and the present area of Manikpur, Rajpur & Bihar were included in it. In 1580 Akbar appointed Asad Khan Turkman to the charge of Manikpur and in 1605 he was succeeded by his son Jahangir (1605-1628). In 1628 Sombarshi Rajput of Lunar dynasty Raja Pratap Singh moved his headquarter to Rampur from Tejgarh (now Pratapgarh) as made a fort in the memory of his late father Raja Tej Singh Chhatradhari Singh son of Jai Singh holded Pratapgarh estate independently till 1722 when Sadat Khan Burhar-ul-Mulk was appointed governor of the province of Avadh by emperor Mohommad Shah. In the year 1759 Pratapgarh estate was

annexed to the dominions of the nawabs sometimes later Siraja-ud-daula handed over Pratapgarh estate to Hindupat.

In the later history of district for more than half a century, is simply a record of continuous fighting between the officials of Avadh government and local Rajput chief. In 1856, Wazid-Ali-Shah(1847-1856) was deposed and his territories including the area now covered by present district were annexed to East India Company. The district of Pratapgarh was then created with headquarter at Bela. The revolt against British government gradually got momentum and early in June 1920, 200 kishans including Pt. Jawaharlal Lal Nehru marched to Allahabad to draw the attention of prominent leaders regarding their woebegone condition. The Non-co-operation Movement launched by Mahatma Gandhi in 1920 also started side by side in the district. During the civil disobedience movement of 1930. The Pratapgarh played an important part the quiet India movement of August 9,1942 received wide support of the people in the district. By this time the British was realized that they could no longer here to keep rule and untimely on August 15,1947 the district along with the country shows off the foreign yoke.

Administrative Setup

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary, and Local self-government. District Magistrate is In-charge of revenue & administration. He is assisted by Additional District Magistrate (Finance and Revenue) i.e., ADM (F&R). At the tahsil level Sub Divisional Magistrate is In-charge, who is now redesignated as Up-Jila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Kanongos's circles respectively. For each revenue village, Lekhpal is In-charge.

Chief Development Officer (C.D.O) and District Development Officer (D.D.O) are In-charge for development activities in the district. They also assist District Magistrate for implementation and monitoring of various development schemes in the district. Project Director is also deployed to assist D.M and C.D.O. in formations & supervision of different development programmes in the district. For development of rural area, district is further divided into Development Block well known as Vikas Khand (also known as Office of Kshetra Panchayats). Block Development Officers (B.D.O) look after development works at Blocks level. For his assistance Assistant Development Officer and at village level Village Development Officers have been deployed.

Under the police set-up Senior Superintendent of Police (S.S.P) and Superintendent of Police (S.P) are In-charge of their respective district. Additional Superintendent of Police (A.S.P) is also deployed to assist S.S.P/S.P in their respective area. Deputy Superintendent of Police (D.S.P)/ Circle Officer (C.O) look-after the law and order of the area allotted to them. Police Inspectors and Sub-Inspectors are In-charges of their respective Thanas/Police stations depending upon the population and area.

The Judicial administration of the District is headed by District and Session Judge. In addition to him there are several Additional District Judge, Civil Judge, Chief Judicial Magistrate and Munsif Magistrate and others judiciary officer are also posted to look after legal matters.

Besides these administrative officers a number of other district level officers are also posted at District headquarters. Other District Level of Offices are District Informatics Officer (NIC), Field Publicity Officer and Income Tax Officer, Sr. Treasury Officer, District Supply Officer, District Agriculture Officer,

District Economics & Statistical Officer, District Savings Officer, District Sports Officer, District Employment Officer, Trade tax Officer, Entertainment Tax Officer, District Prosecution Officer, District Excise Officer, General Manager District Industry Centre, Plant Protection Officer, District Panchayat Raj Officer, District Programme Officer, Basic Shiksha Adhikari, District Inspector of Schools, Sp. Land acquisition Officer, District Social Welfare Officer, Minority Welfare Officer, Project Manager (U.P.L.D.C.), Asstt. Regional Transport Officer, Asstt. District Election Officer, and District Soldier welfare Officer are also deployed for monitoring and execution of various development activities in there district.

The Nucleus of the district body for self government is consisted of Mayor & Nagar Ayukat at Nagar Nigam level and Executive Officer (E.O) & Chairman of their respective Nagar Palika Parishad/ Nagar Panchayats. Similarly at Jila Parishad level Jila Panchayats Chairman & Apar Mukhya Adhikari (AMA) work as a public representative. Pramukh of Kshetra Samiti/Panchayat & B.D.O in Vikas Khand level, Gram Pradhan & Panchayat secretary in his Gram Panchayats comes under Local self-government. Other members of different local bodies also represent their respective area at ward and village level.

To provide efficient administration the district is administratively divided into 05 tahsils namely Lalganj, Kunda, Pratapgrah Patti and Raniganj (newly created after 2001 Census). For implementation and monitoring of development scheme the district is divided into 17 Development Blocks namely Kalakankar, Babaganj, Kunda, Vihar, Sangipur, Lalganj Ajhara, Lakshamanpur, Sandawa Chandrika, Pratapgarh (Sadar), Mandhata, Magraura, Patti, Aspur Deosara, Shivgarh, Gaura, Rampur Sangramgarh and Baba Belkharnath (newly created after 2001 Census). Total area of the district is 3717.0 Sq. Km. The rural area covers 3669.1Sq. Km. and urban recorded 47.9 Sq. Km. There are 1105 Gram Panchayats and 2217 Revenue villages with 2183 inhabited villages and 34 uninhabited villages in the district. In urban area there are 07 Statutory Towns and 02 Census Town. Statutory Towns comprises of 01 Nagar Palika Parishad and 06 Nagar Panchayats.

Jurisdictional Changes (2001-2011)

One new Tahsil Raniganj has been newly created after 2001 Census by transferring the villages of Tahsil Pratapgarh and Tahsil Patti. One new Development Block Baba Belkharnath has also been notified after 2001 Census. The state Government administration has reported following jurisdictional changes have been taken place during the decade:-

| District/Tahsil 2011 | Territory added at District/Tahsil level | Name of District/Tahsil from which area is subtracted | Territory reduced at District/Tahsil level |
|---------------------------------|---|---|---|
| 1 | 2 | 3 | 4 |
| Tahsil Raniganj (Newly created) | (i) 35 Villages added from Tahsil Pratapgarh to Tahsil Raniganj (ii) 268 Villages added from Tahsil Patti to Tahsil Raniganj | Tahsil Pratapgarh | 35 Villages of Tahsil Pratapgarh transferred to newly created Tahsil Raniganj |
| ----- | ----- | Tahsil Patti | 268 Villages of Tahsil Patti transferred to newly created Tahsil Raniganj |

District Highlights – 2011 Census

- District Pratapgarh ranks 30th in terms of population in the state.
- The percentage share of urban population in the district is 5.5 as against 22.3 of the population in urban areas of the state.
- Pratapgarh district has population density of 863 persons per sq.km. which is more than the state average 829 persons per sq. km.
- Pratapgarh district ranks 4th in terms of sex ratio (998) which is higher than the state average (912) females for thousand males.
- Pratapgarh district ranks 31st in literacy with 70.1 percent which is higher than the state average 67.7 percent.
- There are only 34 uninhabited villages out of total 2,217 villages in the district.
- Decadal growth rate of the district 17.5 is lower to the state average of 20.2 percent.
- Patti tahsil has the highest number of inhabited villages 549 while Raniganj tahsil has the lowest number (302) of inhabited villages.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFOA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

District Primary Census Abstract
