DISTRICT CENSUS HANDBOOK

Part - A & B

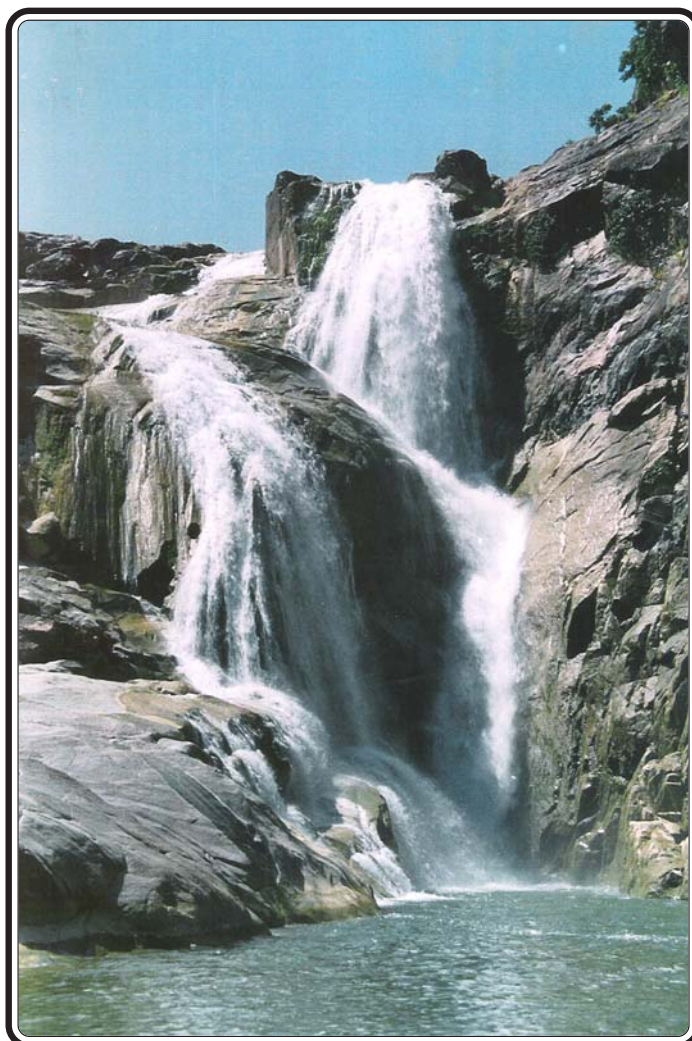

## ADILABAD

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE  
PRIMARY CENSUS ABSTRACT

Director of Census Operations, ANDHRA PRADESH

## Kuntala Waterfalls

The Motif selected for Adilabad Handbook is “Kuntala Waterfalls” which is one of the picturesque falls situated in Adilabad district. A small river Kaddam originated from the Buthai forests flows through Kaddam Mandal passes through Neredigonda forms a waterfall at Kuntala village and finally merges into river Godavari. The name of Kuntala is one of the names of (Sa) Kuntala, the main character of playlet ‘Abhijnanasakuntalam’ of Kalidasa, who was once said to have lived beside the river.

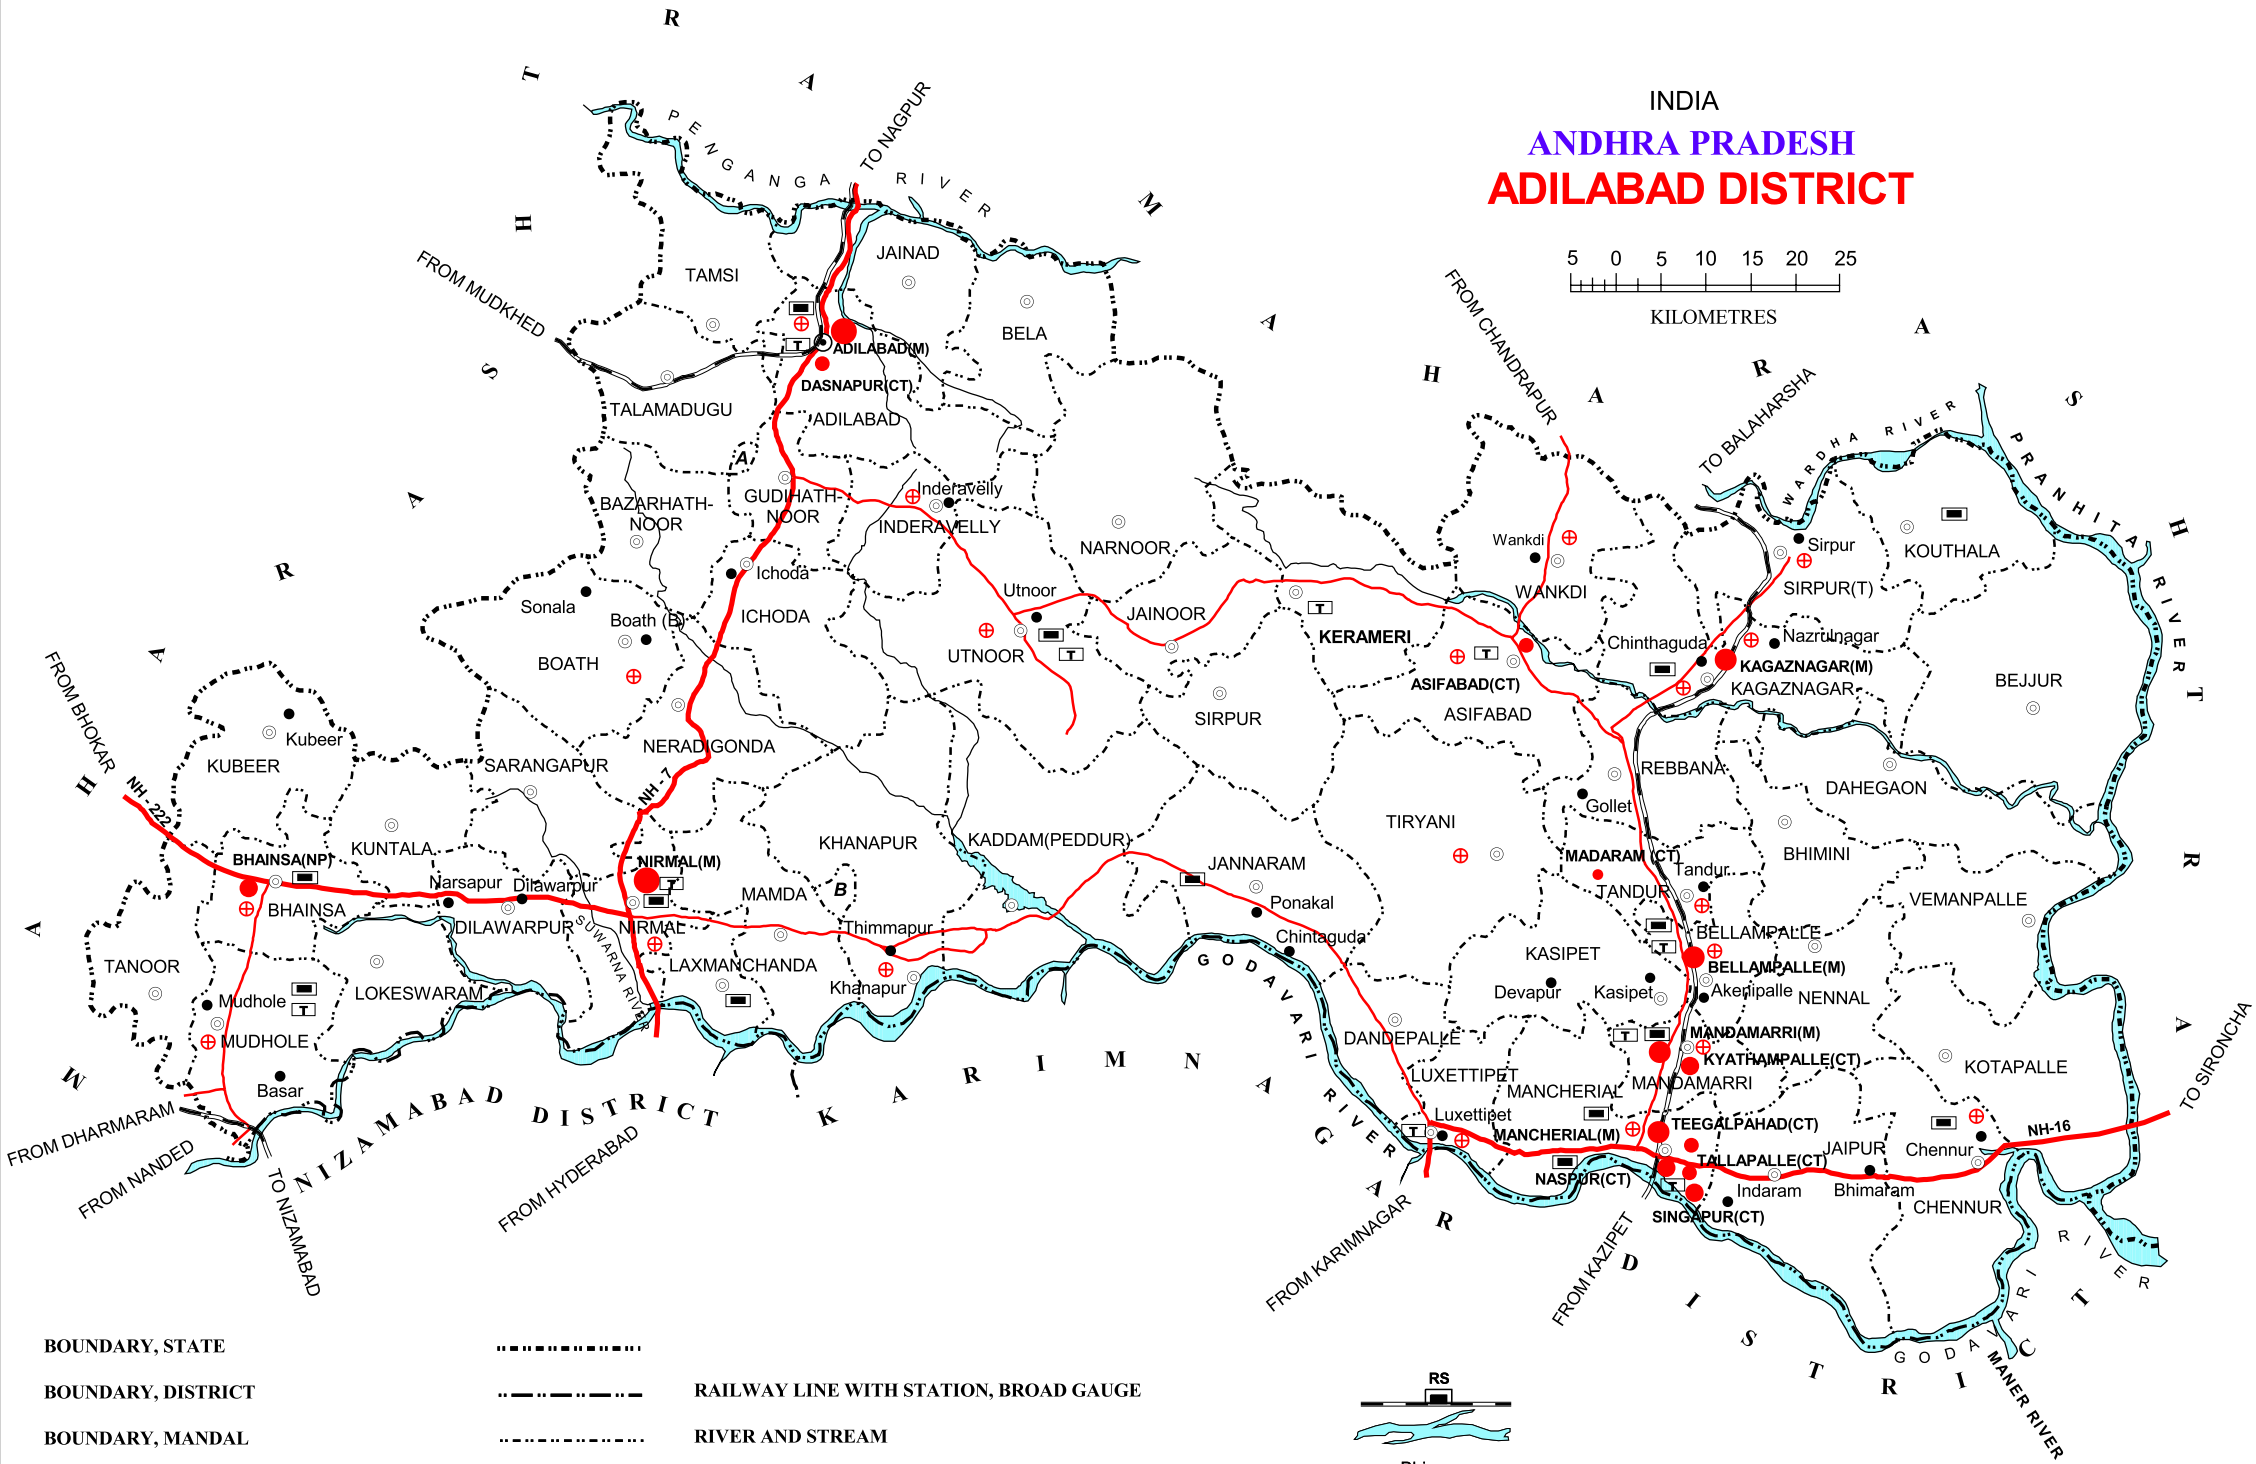

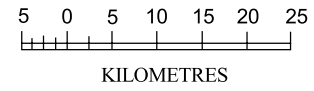

This is the biggest waterfall in Andhra Pradesh which beautifully jumps from a height of 40 meters from Sahyadri Hill. This is a picnic spot and is 11 Kms. East of Adilabad-Nirmal Road and can be reached by cross-country road. Recently the concerned authorities have sent a proposal to the Government for establishing a Hydro-Electric project at the said waterfall.

## Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

**D.K.Sikri**  
Registrar General &  
Census Commissioner, India.

## Preface

The District Census Hand Book (DCHB) containing Primary Census Abstract and data on “amenities” for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Hand Book is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Hand Book is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Hand Books has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidance, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in "Acknowledgements". I am grateful to all of them.

I hope that the data users will find this publication very useful.

## District Highlights – 2001 Census

1. Adilabad District stands **5<sup>th</sup>** in terms of area size and ranks **21<sup>st</sup>** in terms of population in the state.
2. Adilabad district stands **12<sup>th</sup>** rank in terms of urbanisation with a total Urban population **660,017** forming **26.5** percentage to the total district population.
3. The sex ratio of the district is **989** against **980** in 1991 Census showing upward trend.
4. The density of the district is **154** against **129** in 1991 Census, showing increase over the decade.
5. **Chennur** village, PLC No. **00170400** is most populated with a population of **23,901** and **Chopidi** village, PLC No. **00103100** is the least populated with a population of **6** in the district.
6. **Mancherial** mandal is most populated with a population of **182,846** and **Vemanpalle** Mandal is the least populated with a population of **18,233** in the district.
7. **Adilabad** Municipality is most populated with a population of **109,529** and **Bhainsa** Municipality is the least populated with a population of **41,331** in the district.
8. Out of 100 workers **61.0** are engaged in Agriculture sector, **8.9** in Household industry and **30.2** in other economic activities. Thus showing the predominance **Agriculture** Sector.
9. Out of 100 Male workers in the district **55.1** are engaged in **Agriculture** sector.
10. Out of 100 Female workers in the district **69.3** are engaged in **Agriculture** sector.
11. There is a decrease in the proportion of main workers of the district in the decade ( **41.7** percent in 1991 to **36.7** percent in 2001).
12. There is a decrease in the proportion of Male main workers of the district in the decade ( **52.5** percent in 1991 to **46.3** percent in 2001).
13. There is a decrease in the proportion of Female main workers of the district in the decade (**30.7** percent in 1991 to **26.9** percent in 2001)
14. The Adilabad district is famous for **Coal Mines, Limestone and Nirmal Crafts**.
15. **Mandamarri** Mandal has the lowest number of inhabited villages ( **9** ) and the highest number of inhabited villages ( **53** ) are found in **Narnoor** Mandal .
16. **Jannaram** mandal has largest area **6,699.4** hectares under irrigation, followed by **Dandepalle** mandal with **6,622.1** hectares in the district. The mandal with lowest area **4.44** hectares under irrigation is **Jainoor** Mandal.
17. **Waipet** village bearing PLC No.**00025300** has the largest area (**7,808** hectares) and **Old Pochampad** village bearing PLC No.**00141600** has the smallest area ( **27** hectares) among the villages of the district.
18. Female work participation rate is **37.4** that of the Males in the district is **52.8**

## (i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought out for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was restarted in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was initiated during the 1951 census pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with

improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel, planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

### Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources and administrative set-up during the past decade, few appendixes etc..

### Part A–Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance( receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in slums and an appendix showing towns with out growths and their population. The reference period for the above statements is 1998-99 and the data is covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

**Part B–Primary Census Abstract :**

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers, etc., are presented in these Abstracts.

## (ii) History and Administrative Set-up of the District

### (i) Brief History of the District :

Adilabad district, prior to 1905, was a sub-district by name Sirpur-Tandur and extended over an area of 5029 square miles. It then consisted of only three taluks viz., Edlabad(Adilabad), Rajura and Sirpur besides a few jagir villages. In 1905 the erstwhile Hyderabad Government effected a general reconstitution of the divisions and districts in Hyderabad State during which Sirpur-Tandur sub-district gained two taluks viz., Narsapur and Nirmal from Nizamabad(Indur) district and two taluks viz., Chinnur and Lakshettipet from Karimnagar(Elgandla) district and the sub-district was upgraded into an independent district known as Adilabad district. The northern portions of Narsapur and Nirmal Taluks and a part of Edlabad (Adilabad) Taluk were clubbed and constituted into a new taluk called Kinwat. The remaining portion of Narsapur was merged with Nirmal taluk. In between Sirpur and Lakshettipet taluks a new taluk by name Jangoan was created by grouping together villages from both the taluks. This taluk was later renamed as Asifabad taluk. A new paigah taluk of Yelgadap was also constituted later. During the following decade of 1911-1921, the taluks were again reorganized so as to allow the formation of the new taluks of Utnur and Boath. During the decade 1941-1951 Yelgadap-paigah taluk was renamed as Khanapur Independent Sub-Taluk.

In November, 1956, when the Reorganisation of States was made and Andhra Pradesh was formed, a major portion of this district along with the other eight districts of Telangana became part of Andhra Pradesh. The predominantly Marathi speaking taluks of Rajura and Kinwat and Islapur circle of Boath taluk were transferred to Maharashtra State while this district gained Mudhole taluk except Dharmabad

circle i.e., Mudhol, Kubeer and Bhainsa circles from Nanded district. These three circles were constituted into Mudhol taluk. The district did not undergo any major territorial change in its jurisdiction after November, 1956. Very little is known about the early history of Adilabad district before it became part of Hyderabad State. A brief early history of Deccan of which Adilabad district formed part is, however, given below.

### Early Hindu Period :

In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273-231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta they soon possessed an empire reaching Nasik. This dynasty seems to have come to an end in the third century A.D. but the reasons for the collapse are little known. The Pallavas who ruled South of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D. and founded an empire spreading east and west across the Peninsula with their capital at Badanis. Pulakesin II (608-642 A.D), ruled practically the major portion of South India from the Narmada river and even came into contact with Harshavardhana of Kanauj. Throughout their period of supremacy, the Chalukyas were at war with the Pallavas. In the middle of the eighth century, the

Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. From about 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, inspite of fierce struggles with the Cholas and Hoyasala of Dwarasamudra. The Chalukya power fell by about 1189 A.D. yielding place to the Hoyasalas and Yadavas, the later of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

### **Muhammadan Period :**

Alla-ud-din khilji led the first Muhammadan expedition into the Deccan, in 1294 against the Yadava ruler of Deogiri and forced him to submission. In 1296 he assassinated his own uncle and seized the throne, and sent an expedition to Deogiri. His first expedition was dispatched in 1303 against the Kakatiya kings of Warangal, who had established themselves there since the middle of 12<sup>th</sup> century. This having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tribute. Muhammad-bin-Tughlak later conducted a campaign against Warangal and finally broke the Kakatiya power in 1323. In 1310, Mallik Kafur was sent against the Hoyasala Raja of Dwarasumdra (Halebid in Mysore). In 1318 when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne of Delhi in 1325 the Muhammadans were masters of the Deccan from North to South; the chief Rajas of Telangana acknowledged their sway and paid tributes. He changed the name of Devagiri to Daultabad and made it his capital. A few years later, the imperial Governors of the Deccan revolted resulting in the establishment of the Bahamani dynasty. Zafar Khan, who styled himself as Alla-ud-Din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulberga, he made the latter place his capital and commenced to rule from 1347 A.D. The Bahamani kingdom extended from Berar in the North of the Deccan to the left bank of Tungabhadra in the South and from Dabal on the West coast to the Telangana tracts in the East.

After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahamani kingdom, after the down fall of the Bahamani dynasty, had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daultabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565, he marched along with the other Deccan kings against the Rajah of Vijayanagar and in the memorable battle near Rakshsi Tangadi, the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Sultan Quli Qutub-ul-Mulk, a Turk of noble family who was Governor of the Golconda province under the Bahmanis took advantage of the distracted State of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his establishing the Qutub Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them but after defeating the invaders they fell out among themselves enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcome at Golconda by Abdullaha Qutub Shah. In 1635 A.D. Shah Jahan who had by then become the Emperor, sent a 'farmaan' to Golconda which was well received. Mir Jumla, the king's Minister appealed to Aurangzeb for help against his master in 1655 A.D. and this afforded a pretext for Aurangzeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A.D. and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D. Aurangzeb turned his attention to Golconda which was taken over in the following year. Tana Shah was made a prisoner and died in 1704 A.D. and with him the Qutub Shahi line ended. This dynasty was followed by Asaf Jahi dynasty to which the former Nizam belongs. The Asaf Jahi dynasty was founded by Asaf Jah, a distinguished General of Aurangzeb, a Turkman by descent. After a long service under the Delhi Emperor, he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D. with the title of Nizam-ul-Mulk, which has since become the hereditary title of the family. The Mughal

Empire at this period was on the verge of decline owing to internal dissensions and attacks from within. Amidst the general confusion Asaf Jah had little difficulty in asserting his Independence against the degenerated and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were creating harassment in the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D. when Mubariz Khan was totally defeated and put to death. This battle established the Independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Adilabad district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf jah, Nazir Jung his second son, and Muzaffar Jung, his grandson by one of his daughters, strove for the succession. At this time the English and the French were contending supremacy in the East and each of the claimants secured the support of one of these powers; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was proclaimed the sovereign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-Din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first, now appeared as a claimant, supported by the Marathas, but his sudden death put a stop to further struggle. The English and the French were now contesting power and influence in the Deccan; but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D. the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in times of war, and received six lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and treaty of alliance was concluded among the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the peshwas from the treaty. In 1800 a fresh treaty was concluded between the Nizam and the British by which the Nizam ceded all the territories which had accrued to him under the treaties of 1792 and 1799, i.e. Cuddapah, Kurnool, Anantapur and Bellary districts known as the ceded districts of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829, his son Nasir-ud-Doula succeeded to the throne. Nasir-ud-Doula died in May, 1857 and he was succeeded by his son Afjal-ud-Doula. In 1869 on the death of Afjal-ud-Doula, his son Mir Mahbub Ali Khan Bahdur became the ruler. As he was only three years old then, a regency was constituted for the administration of the kingdom, with Salar Jung I as regent and Nawab Shams-ul-Umara as co-regent, the British resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half brother Nawab Vikar-ul-Umara was appointed co-administrator but he too died in 1881, Sir Salar Jung remained the sole administrator and regent till his death (in 1883). In 1884, Mir Mahbub Ali Khan having attained majority, was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911 Mir Osman Ali Khan ascended the throne.

In 1947 when the country attained independence, the princely States were given the choice either to

remain independent or to join the Indian Union. The Nizam's Dominions became part of the Indian Union in 1948, as a part B State. In 1956, during the Reorganisation of States, the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Adilabad, Nizamabad, Karimnagar, Medak, Hyderabad, Mahbubnagar, Nalgonda, Warangal and Khammam known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Mysore State (renamed as Karnataka state) while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani and Nanded and a portion of Bidar which is predominantly Marathi speaking area was transferred to Maharashtra State. These changes were effected on 1<sup>st</sup> November, 1956.

## (ii) Administrative Set-up

### (a) Region of the State where the district is located :

This district is located at West-Northern of the State falling in Telangana region. In 1985, the then existing 11 taluks were reorganized into 52 mandals corresponding to the revenue mandals, Mandal Parishads were also formed which are co-terminus with the revenue mandals except statutory towns which are not included in the jurisdiction of the Mandal Parishads.

### (b) Total number of Revenue Divisions and Mandals:

This district has 52 mandals organized into 5 revenue divisions. The distribution of 52 revenue mandals among the 5 revenue divisions is shown hereunder:

**1. Adilabad Division :** Adilabad, Talamadugu, Tamsi, Jainad, Bela, Boath, Bazarhathnoor, Ichoda, Gudihathnoor and Neradigonda.

**2. Utnoor Division :** Utnoor, Inderavelly, Narnoor, Jainoor, Sirpur(U), Tiryani, Kerameri and Wankdi.

**3. Nirmal Division :** Lokeswaram, Kuntala, Sarangapur, Nirmal, Dilawarpur, Mamda,

Laxmanchanda, Kubeer, Bhainsa, Mudhole, Tanoor, Khanapur and Kaddam

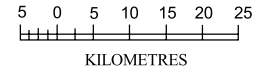

**4. Mancheria Division :** Jannaram, Dandepalle, Luxettipet, Mancheria, Mandamarri, Kasipet, Chennur, Kotapalle, Vemanpalle, Nennal, Jaipur and Bellampalle.

**5. Asifabad Division :** Asifabad, Rebbana, Tandur, Sirpur(T), Kouthala, Bejjur, Dahegaon, Bhimini and Kagaznagar.

### (c) Total number of Villages/Towns :

There were 1748 Villages in 1991 Census, of which 19 Villages were fully included in Urban areas, 1729 villages falling in Rural areas. The villages fully included in towns or formed as OG's to towns were not included in the list of villages while allotting permanent location code numbers in 2001 Census. The number of villages in the district is 1729. Though, there is no change in number of rural villages between 1991 Census and 2001 Census, some changes have been taken place after 1991 Census. Due to declassification of two Census towns, Luxettipet and Sirpur of 1991 Census as rural areas and new formation of one village Pipri in Mudhole Mandal and three villages Kanjar, Polapalle(K) and Polapalle(B) in Laxmanchanda Mandal, Six villages have been increased. At the same time six villages viz., Dasnapur in Adilabad Mandal, Madaram in Tandur Mandal and Teegalpahad, Naspur, Thallapalle and Singapur of Mancheria have become urban areas. Hence, these six villages have been deleted from the list of revenue villages for 2001 Census. There are 15 towns (7 statutory and 8 Census towns) during 2001 Census as against 11 towns during 1991 Census. Out of 11 towns of 1991 Census, 2 Census towns have been declassified and attained rural status due to strict application of criteria for treating a place as town. Six new Census towns have been created for 2001 Census. Mandamarri which was non statutory town has been classified as municipal town. Two urban agglomerations have been formed out of 7 statutory towns for the first time during 2001 Census.

**INDIA**  
**ANDHRA PRADESH**  
**ADILABAD DISTRICT**  
**ADMINISTRATIVE DIVISIONS**

--- BOUNDARY, STATE  
 - - - BOUNDARY, DISTRICT  
 - - - BOUNDARY, MANDAL  
 ○ / ● HEADQUARTERS: DISTRICT / MANDAL

A - Portion of Adilabad Mandal  
 B - Portion of Kaddam(Peddur) Mandal

## **(vi) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district**

Adilabad district has derived its name from Adilabad, its headquarters town which was named after the rule of Bijapur, Ali-Adil Shah. Under the State reorganization Act of 1956 Adilabad district lost the predominantly Marathi speaking taluks of Rajura and Kinwat and the Islapur circle of Boath taluk to Maharashtra state but gained Mudhole taluk.

Though the district has not produced major historical figures, however some people of the district fought bravely with Razakars and sacrificed their wealth and lives for the cause. Many social workers contributed their might and wealth for upliftment of this economically backward district. Like other districts of the state agriculture is main occupation of the people, where jowar and cotton are predominant crops. This district is endowed with much natural resources, has ample scope for the industries like paper, synthetic fibers, Cement, Coal and spinning mills. The coal production is an important resource of economic development of the district. The area irrigated is rather limited although the major rivers like Godavari, Penganga,

Pranahitha and the Wardha flow along the border of the district.

The Toy Industry of Nirmal commands a reputation extending beyond the frontiers of India. The toys bear such alone resemblance to their natural counter parts and some times, it is difficult to distinguish the real from the artificial. The light wood found in the surrounding forests is used for making these beautiful Toys.

This district is famous for Kuntala water falls as a picnic spot and Basara Saraswathi temple which is one of the rarest temples as a pilgrimage centre. Sree Ram Sagar Project constructed across the river Godavari in between Nizamabad and Adilabad districts is also one of the important picnic spots.

Though Telugu is local language, Marathi is also spoken by people especially at the places adjacent to Maharashtra state. People of this district are living harmoniously with peace and love.

#### **(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade**

During the decade 1991-2001 no significant social and cultural events have occurred in the district, except administrative changes have taken place in the district during the decade. Two Census towns Luxettipet and Sirpur degraded and attained rural status and six villages i.e. 1. Dasnapur, 2. Madaram, 3. Teegalpahad, 4. Naspur, 5. Thallapalle and 6. Singapur have been upgraded to the level of "Census Towns".

As regards significant activities, the prevention of Child Labour, Social Security Schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the Chairmanship of the District Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on Vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The social security schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on

the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's participation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all
2. Family planning programmes
3. Usage of Bio-gas plants / Smokeless chullas to prevent air pollution
4. Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the medical board, RTC passes, railway passes, registration in employment exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

### (iii) Physical Features of the District

#### **Location and Size :**

Adilabad district lies between 77.46<sup>o</sup> and 80.01<sup>o</sup> of the Eastern longitudes and 18.40<sup>o</sup> and 19.56<sup>o</sup> of the Northern latitudes. The district is bounded on the North by Yeotmal and Chanda districts of Maharashtra State, on the East by Chanda district of Maharashtra State, on the South by Nizamabad and Karimnagar districts and on the West by Nanded district of Maharashtra State. Adilabad district is known with its headquarters town Adilabad, which was named after the ruler of Beejapur Ali-Adil-Sha. It is well connected by both road and railways. The Geographical area of the district is 16,105 sq.kms. and has population of 2,488,003 persons as per 2001 Census. The density of Population is 154 persons per sq.km. Among 23 districts in the State, Adilabad ranks 5<sup>th</sup> in terms of area and 21<sup>st</sup> rank in terms of population. The district has broad width than length. The length at Eastern and Western parts is more and has come down gradually towards center region.

#### **Physiography :**

Physiographically, the district has an average height of 150-300 metres is noticed in the northern, north-eastern and eastern parts, while that of 300-600 metres in the rest part. The area occupied by the Satmala hill range traversing from north-west to south-east in the middle of the district is, however, considerably higher i.e. 600-1200 metres. General slope of the district tends the east.

#### **Drainage :**

The most important river that drains the district is the river Godavari. The Penganga, the Wardha, the Pranahita, the Kadam and the Peddavagu, which are tributaries of the Godavari. Besides these, there are also rivers like Satnala, the Swarnavagu and the Suddavagu which drains the district. Godavari which is the largest river in peninsular India rises in the

Western Ghats at Triambakeshwar near Nasik in Maharashtra State and enters this district near Basar in Mudhole Mandal. This river forms the southern boundary of the district separating the district from Nizamabad and Karimnagar districts and skirts the southern border of Chennur, Luxettipet, Khanapur, Nirmal, Mudhole, Lokeswaram, Dilwarpur, Laxmanchanda, Kaddam, Dandepalle, Mancherial and Jaipur mandals. River Penganga form part of the northern boundary of the district falls into river Wardha, which in turn joins the Pranahita. Wardha and Pranahita from northern and eastern boundaries of the district skirting east-Kouthala, Bejjur, Vemanpalle and Kotapalle mandals. All the three rivers join Godavari in Kotapalle mandal. The Kadam river takes its origin at Bothai village in Boath mandal and flow through Neradigonda, enters at Paspula and finally falls into Godavari. The peddavagu flows across the Kerameri, Wankdi, Asifabad, Kagaznagar, Bejjur and Dahegaon and joins Pranahita. Swarnavagu flows through Sarangapur and Nirmal and finally joins Godavari.

#### **Hills :**

The Sahyadriparvat or Satmala range traverse the district from the north west to south east for about 281.5 kms. In this range the Mahabubghat is the highest peak. In eastern side there are some minor hills which are not having much importance.

#### **Climate :**

The climate of the district is characterised by hot summer and dry except during the south-west monsoon season. As per climate conditions of the district, the year may be divided into four seasons. The hot season is from March to May. From March onwards the temperature continues to rise and May is generally the hottest month in the year. The period from June to September constitute the south west monsoon season, while October and November form the post monsoon season. The cold season is from December to February.

**Table (a)****Month-wise Maximum and Minimum temperature during the year 1996**

	Jan	Feb	March	April	May	June	July	Aug	Sep	Oct	Nov	Dec
Maximum	33.9	36.0	42.1	43.4	44.2	42.9	38.2	31.3	34.6	31.3	28.8	29.6
Minimum	14.7	16.7	15.7	21.4	27.7	24.6	24.0	22.6	23.0	14.3	12.1	8.3

The mean daily maximum temperature about 42°C and a mean daily minimum 28°C is experienced during the summer. The days are intensively very hot and on individual days the temperature may go up to about 46°C. With advance of south-west monsoon by about middle of June there is an appreciable drop in temperature. By October the day temperature begins to increase slightly, but the night temperature steadily decrease. After November both day and night temperature decrease rapidly. Winds are light to moderate with some strengthening in the period from May to August. During the post monsoon and cold season, winds blow mostly from the East or North-east. By March, south-Westerlies and Westerlies start blowing and continue during the rest of summer. The south west monsoon season winds are occur mostly from directions of south west and north west.

**Rain fall :**

The rain fall in the district, in general increases from the south west towards the north east. About 85% of annual rainfall is received during the south west monsoon season. July is considered as peak rainy month. Thunder storms occur mainly during summer. Dust raising winds blow during summer afternoons. Storms and depressions which originate in the Bay of Bengal during the monsoon and the post monsoon seasons move west-wards and effects the weather over the district causing widespread heavy rains with strong winds. During the south west monsoon season the sky is heavily clouded to over cast. There is rapid decrease of cloudiness during the post monsoon season.

The following table gives the season-wise rain fall in the district for the year 1999-2000:

The table reveals that Adilabad district has received 893 mm rainfall during south west monsoon season. The total rainfall during the year was 1,048 mm as against 1,046 mm normal rainfall.

**Table(b)****Season-wise rain fall during 1999-2000**

Season	Rainfall (in mm)
1. South West monsoon (June to September)	893
2. North East monsoon (October to December)	80
3. Winter period (January to February)	11
4. Hot weather period (March to May)	64
Total (June to May)	1,048
Normal Rain Fall	1,046

**Soils :**

Red loamy soils derived from the granites occur in the district. Shales, Limestone and to some extent sand stones of the Penganga and Sullavai series which yield fine red or grey dusty to loamy soils are also occur in the district. Coarser and redish soils are present over the Barakars and Kamthis while those on the Talchirs are fine and sandy. The thickness of the soils on the Gondwanas is deeper extending upto 5 metres. The thickness of soil on the formation rarely exceeds 1.5 metres. The traps on weathering give rise to deep brown to red soil or to black cotton soils.

**Flora and Fauna :**

Adilabad district is well known for fuel timber as it is for fossil fuel. The eastern portions of the district has got rich deposit. The abundant coal seams and the unequalled animal fossil finds in Luxettipet, Chennur, Asifabad and Sirpur erstwhile taluks, throw some light on the climate and vegetation of this region. The entire district is covered by the southern tropical dry deciduous forests. The tropical dry deciduous forests has been stable for centuries and is the climatic climax type of forest for the region which enjoys an annual rain fall of 105 cms.

Source: 1. DCHB of 1991 Census Adilabad  
2. Statistical Abstract of Andhra Pradesh

Since teak is the best timber available and all aspects of forest management are directed to improve the quantity and quality of teak, the dry deciduous forests of Adilabad are classified for the convenience of forest management into teak forest and mixed forest.

The forest area of the district is 6,895.17 sq.kms. and forms nearly 43% of the total area of the district. Except in Mudhole erstwhile taluk on the west, the forest is well distributed and the total population get all its requirements of the timber and fodder from the forests. The forest on steep hill slopes are maintained for the protection of the soil and no vegetation is normally exploited. The accessible forest in the plains as well as gentle slopes are under intensive management and are exploited systematically under different silvicultural systems suitable for the locality. The important silvicultural systems of forest management followed are selection-cum improvement, Coppice with reserve and clear felling. Conversion of natural forests into teak, Eucalyptus and Bamboo plantations is achieved under last mentioned system.

The forest has generally two storeys or tiers of vegetations. The top storey consists mostly of teak, nallamaddi, bijasal, chirmanu, Ippa, jitregi, musti etc., and lower storey consists of Usiri, Maredu, Modugu, Sarapappu, Bamboo etc.

The species-wise area planted during the year 1998-1999 is as follows:

**Table(c)****Species wise area planted during the year 1998-1999.**

Species	Area in Hectares
Teak	7,326
Bamboo	5,320
Eucalyptus	3,002
Others	74,067

**Table(d)****Forest Revenue during 1998-1999**

Product	Revenue (Rs. in lakhs)
Timber	558
Fire wood	8
Bamboo	22
Beedi leaves	367
Others	26

Source: Statistical Abstract of Andhra Pradesh, 2000

Adilabad forest has been rich of several species of wild animals from time immemorial. In spite of ruthless destruction of wild life, the fauna of the district is still rich and they are tigers, leopards, bears, hyenas, wolves, and wild dogs. In the jungles on the plains, nilgai or blue bull, sambar and spotted deer are seen in large number. Among birds those that occur commonly are peafowl(Nemali), peacock, jungle fowl, pigeon, parrot, myna, etc.

**Agriculture :****Cropping Pattern :**

The variation in soil types, the rainfall is the main reason for the difference in cropping pattern of the western and eastern parts of the district. The principal crops of the district are cotton, jowar, paddy, pulses, soyabeans and maize. Food crops accounts for 61.99% and remaining nonfood crops accounts for 38.01%. Cotton and Soyabeans cultivation makes the district to occupy a distinct place in the state. The following data provided the land put for different purposes for year 1999-2000.

**Table(e)****Land utilization particulars**

Sl.No.	Category	Area in Hectares
1	Forest	689,517
2	Barren and Uncultivable	43,919
3	Land put to Non-agricultural use	60,674
4	Culturable waste	15,484
5	Permanent pastures and other Grazing lands	14,228
6	Land under miscellaneous trees, crops and groves not included in the net area sown	9,315
7	Current fallows	152,241
8	Other fallow land	93,953
9	Net area sown	514,050
Total Geographical area		1,620,381

Note : i. The district Geographical area is supplied by Surveyer General.

ii. Total area figures supplied by Directorate of Economics and Statistics

The below statement gives the information on area under principal crops, out turn and yield for the year 1999-2000. It is seen the jowar has been raised largely than other crops. Adilabad is second major cotton and jowar growing district in Andhra Pradesh after Guntur and Mahbubnagar districts respectively.

**Table(f)**  
**Area under Principal Crop during the year 1999 - 2000**

SL.No.	Name of theCrop	Area(in Hectare)	Out turn(in Tonnes)	Yield Per Hectare (in kgs)
1	Paddy	77,368	189,067	2,444
2	Jowar	133,217	97,454	732
3	Bajra	644	377	585
4	Maize	30,524	84,027	2,753
5	Wheat	3,964	2,656	670
6	Bengal Gram	3,041	2,007	660
7	Red Gram	38,677	11,255	291
8	Green Gram	23,297	7,248	311
9	Horse gram	2,298	894	389
10	Black Gram	19,020	9,779	514
11	Cow Gram	306	89	291
12	Ground nut	4,516	5,135	1,137
13	Castor	1,787	399	223
14	Lime seed	3,890	210	54
15	Sesamum	15,863	2,184	138
16	Safflower	458	233	509
17	Sun flower	1,795	730	407
18	Cotton	164,289	206,811	214
19	Sugar Cane	316	2,185	6,915
20	Chillies	8,980	7,549	841
21	Turmeric	6,548	21,045	3,214

*Source: Statistical Abstract, Andhra Pradesh, Directorate of Economics & Statistics.*

### **Irrigation :**

The area irrigated in the district is rather low although some major rivers like, the Godavari, the Penganga, the Pranahita and the Wardha flow along the borders. There is only one major irrigation project, Kadam project located in Kaddam(Peddur) mandal with a registered ayacut area of 26,235 hectares covering 135 villages of which 16,967 hectares could be irrigated upto 1998-1999. Swarna in Sarangapur mandal, Sadarmat in Khanapur mandal, Dommara vagu in Mandamarri mandal, Sathnala in Bela mandal, Vattivagu in Asifabad mandal, N.T.R. Project in Tiryani mandal are some of the medium irrigation projects which irrigate about 11,762 hectares. In addition to these there are more than 1,757 minor irrigation projects in the district in the form of tanks maintained by P.W.D. and Panchyatraj Department. These tanks are mainly rainfed and the total ayacut area under these tanks is 26,626 hectares. The total irrigated area in the district accounts for 20.6% of the total cropped area, which is below the state average of 43.11%.

Net area of 541,050 hectares was sown in the district. Of which 77,024 hectares were irrigated with different sources and 19,555 hectares irrigated more than once. The Area irrigated by source is given below for the year 1999-2000.

**Table(g)**  
**Area irrigated by source 1999-2000**

Sl.No.	Irrigated by source	Area (in hectares)
1	Canals	23,600
2	Tanks	19,967
3	Tubewells	16,678
4	Other wells	14,700
5	Other sources	2,079
	Total	77,024
6	Area irrigated more than once	19,555
	Gross Irrigated area	96,579

*Source : Statistical Abstract, Andhra Pradesh, Directorate of Economics & Statistics.*

The major crops which were irrigated during the year 1999-2000 are furnished below:

**Table(h)**  
**Area of different crops irrigated during the year 1999-2000**

Sl.No.	Name of the Crop	Area irrigated (in Hectares)
1	Paddy	60,122
2	Wheat	3,082
3	Jowar	55
4	Bajra	644
5	Maize	12,266
6	Bengal Gram	45
7	Green Gram	29
8	Chilies	1,549
9	Turmeric	6,548
10	Sugar cane	371
11	Groundnut	4,008
12	Cotton	1,189

*Source : Statistical Abstract, Andhra Pradesh, Directorate of Economics & Statistics.*

According to survey conducted in 1993, the district possessed 85,758 wooden ploughs and 4413 iron ploughs. For irrigation purpose 1,690 diesel engines and 16,314 electrical pumps and 232 tractors were accounted.

#### **Natural Wealth :**

Among the districts of Andhra Pradesh, besides forest production, Adilabad ranks front in every revenue from minerals. It is well endowed with rich reserve of Coal, Iron-ore, lime stone and clay.

Coal is available in the mandals of 1.Bellampalle, 2.Tandur, 3.Rebbana, 4.Kasipet, 5.Mandamarri, 6.Mancherial, 7.Jaipur and 8. Chennur. Total production of coal is 57.096 lakhs tonnes in terms of Rs.50,843 lakhs. Total revenue from all minerals is works out to Rs.5,139.46 lakhs.

#### **Coal :**

All the workable coal seams are confined to the Barcer stage of the lower Gondwanas, the coal fields include the Asifabad, Tandur(Bellampalle), Chennur earstwhile taluks and north Godavari fields, these deposits are actively exploited by the Singareni

Collieries Company limited. The Tandur and Kanara fields covering an area of 181 sq. kms. located about 2.40 km. to the north-east of Bellampalle Railway station on Kazipet-Balharsha line. The north Godavari field occupying an area of 75 sq.kms. is located about 6.40 kms. south west of Tandur coal field. The proved reserves of coal in these two fields as estimated by Singareni Collieries is given below:

**Table(i)**  
**Particulars of Reserve of Coal**

Area	Reserve of Coal in million tonnes		
	300m.depth	450m.depth	600m.depth
1. Tandur	100	175	200
2. North Godavari	140	140	170
Total	240	315	370

This coal division of the Geological Survey of India has been prospecting by drilling to estimate the additional reserves of Coal outside the leased areas in the vicinities. In Bellampalle 880,000 tonnes in Ramakrishnapuram 1,412,000 tonnes and Mandamarri 1,642,000 tonnes of Indigeneous coal was produced during 1999-2000

#### **Iron-ore :**

Extensive deposits of low grade iron-ore consisting of magnetite and hematite occur in Dharwariah schists near Chittial and Kalleda in Kaddam mandal, Rebbanapalle in Luxettipet mandal and near Birsaipt in Uttoor mandal.

In addition to these, there are several minor occurrence in the Dharwariah schists near Dasturabad, Raidubba, Parapalli, Maddipadaga and Somwarpet of Khanapur mandal and Mayapur, Velmal, Ananathpet, Ponkal and Mamda in erstwhile Nirmal Taluk.

Hematite nodules occurring in Kamthis near Sankaram in Chennur mandal were used in the part by the local smelters for the extraction of Iron. Hematite nodular Iron stones associated with the Chikiala, beds of the upper Gondwanas occur near Chinechala, Agarguram, Loha, Pangerigutta, Jhandhaguda and Pochammagutta in erstwhile Sirpur taluk and these supported the Iron industry in the part.

Lateritic Iron-ore derived from Deccan Traps occur near Servai and Kotari in Uttoor erstwhile taluk.

These are too aluminous to be used as Iron-ore and too rich in Iron to be used as aluminum-ore.

### Lime Stones :

There are fairly extensive deposits of cement grade lime stones belonging to the Penganga series. The main deposits are those of the Rayali Reserve Forest are in erstwhile Luxettipet taluk and those occurring to the north of Asifabad and Adilabad. The former has a reserve of 600 million tonnes of cement grade lime stone and these are actively worked by the Associated Cement Companies Limited for their cement factory at Mancherial. Recent work of the Geological Survey of India has indicated a reserve of 50 million tonnes of flux grade lime stone in the Asifabad area. The lime stones in the district are used by the local people for lime. Good quality lime stone occurs of the confluence of the Kadam and Sikkumamma rivers in erstwhile Utnoor taluk. There are fairly extensive reserves of lime stone belonging to the Penganga and Sullavais which have to be prospected in detail. Minor bands of lime stone occur in upper Gondwanas of Chennur and Sirpur erstwhile taluks also, but these are impure and cannot be used economically.

The deposits at Adilabad, Asifabad and Luxettipet are actively exploited by Cement Corporation of India, Someswara Cements, Annapurna Cements and Orient Cements for their cement factories at Adilabad, Asifabad and Devapur respectively. During 1998-99 the production of lime stone was 2,044,000 tonnes and its value was Rs. 16,80,05,000/-.

### Clay :

Extensive deposits of pure white clay associated with Kota Maleri beds of upper Gondwanas occur at about 1.60 kms. south of Pachagaon and Rallapeta of Asifabad erstwhile taluk. The reserves of clay in this deposits are estimated at 18 million tonnes. Minor deposits of clay occur in Kattarala and Butternal of Asifabad erstwhile taluk and Kothapalle in Chennur erstwhile taluk. The deposits near Rallapeta are being used for the Manufacture of Potteries, Chinaware, Stone ware, bricks and Sanitary ware.

### Manganese-ore :

There is minor occurrence of Manganese-ore about 4.80 kms. north of Adilabad. The ore occurs

in lime stone over a length of 900 metres and width about a metre. The percentage of Manganese content varies from 20 to 40. These deposits are exploited by Aditya Minerals. The production during 1998-99 was 4,273 tonnes and its value was Rs. 42,73,000/-.

### Construction Material :

The granites and Gneisses of Achaeans, massive sand stones and lime stones of Puranas and the massive traps in the district provide ample building and construction material. The Chocolate colour lime stone located north of Adilabad can take good polish and can be used as decorative stones.

### Animal Husbandry :

The Adilabad district has 1,410,826 Livestock population and 38,069 dogs. The poultry strength has accounted for 649,129 in the district during the year 1999.

The distribution of livestock as per 1999(provisional) is as follows:

**Table (j)**  
**Distribution of Livestock, 1999(provisional)**

Sl.No.	Live stock	Total Number
1	Cattle	753,800
2	Buffalows	208,823
3	Sheep	180,926
4	Goats	251,739
5	Horses and Ponies	99
6	Pigs	14,929
7	Other live stock	510
8	Dogs	38,069
9	Poultry	649,129

*Source: Statistical Abstract, Andhra Pradesh, Directorate of Economics & Statistics.*

The following Veterinary institutions are functioning in the district to protect the livestock against various categories of infectious diseases (1999-2000).

**Table(k)**  
**Veterinary Institutions, 1999-2000**

Sl.No.	Name of the Vateriaary Institution	Number
1	Veterinary polyclinic	1
2	Veterinary hospital	10
3	Live stock supervisory units	75

**Table(k) (Concl..)**  
**Veterinary Institutions, 1999-2000**

Sl.No.	Name of the Vateriaary Institution	Number
4	Rural live stock units	63
5	Artificial Insemination centers	101
<b>Number of technical persons working in the above institutions 1999-2000</b>		
1	Deputy Director	1
2	Assistant Director	18
3	Veterinary Assistant Surgeon	81
4	Para Veterinary staff	133

The development activities carriedout by the several institutions during the year 1999-2000 is furnished in the statement given below.

**Table (l)**  
**Development activities carriedout - 1999-2000**

Sl.No.	Particulars	Amount (in lakhs)
1	Artificial Insemination	10.14
2	Calves Born	1,703.00
3	Cases Treated	14.89
4	Castrations	0.60
5	Vaccinations	15.95
6	Expenditure for bringing area under Fodder Development	12,982.50

### Fisheries :

The district has got 505 kms. river length with fishing activity and reservoirs at Kaddam and Swarna villages. The total fish production during 1998-99 is 10.72 tonnes. About 21 hectares of land was converted into fish tanks/ponds up to 1998-99. During 1998-99 about 300 houses have been constructed for fishermen in the district. The fishing tackles available in the district are shown below.

**Table(o)**  
**Large and Medium scale Industries**

Sl.No.	Name of the Industry	Installed Capacity	Investment (Rs.in lakhs.)
<b>Mineral Based:</b>			
1	M/S Singareni Collieries Co.Ltd, Bellampalle	5000000 T.P.A	1675.00
2	M/S Coal Chemical Complex, Ramakrishnapuram	900 T..P.D	1225.00
3	The Associated Cement Co.Ltd, Mancherial	500 T..P.D	635.00
4	M/S Cement Corporation of India, Adilabad	40000 T.P.A.	400.00
5	M/S Orient Cement, Devapur	900000	9000.00

**Table(m)**  
**Number of fishing tackles**

Sl.No.	Name of Tackle	Number
1	Dragnet	3,305
2	Gil nets	596
3	Trawl nets	511
4	Cast nets	5,560
5	Others	1,180
Total		11,152

The table given below shows different species and its production for the year 1995-96.

**Table(n)**  
**Fish Production in tonnes during the year 1995-1996**

Sl.No.	Name of the Species	Production (in Tonnes)
1	Barbus	80
2	Carps	3,500
3	Cat Fish	600
4	Murrells	800
5	Miscellaneous	110

### Industries:

Unlike some other districts in Telangana region, Adilabad, which is endowed with such natural resources, has ample scope for the establishment of industries like paper, synthetic fibers, cement, coal and spinning mills, all in the large scale sector. There are twelve large scale industries functioning at present in the district. Besides these, 795 small scale industries are also functioning in the district. There are industrial estates at Adilabad, Nirmal and Mancherial with working units three, four and six respectively.

As stated already this district is famous for cotton production. There are 123 cotton spinning mills, 3 spinning and weaving industries. Some of the large and medium scale industries are listed below:

**Table(o) (Concld..)**  
**Large and Medium scale Industries**

Sl.No.	Name of the Industry	Installed Capacity	Investment Rs.In lakhs.
6	The Someswara Cement & Chemicals Ltd,Asifabad	250 T.P.D.	191.00

A famous toys industry is located in Nirmal. Main reason for locating this industry at Nirmal is due to availability of light but strong wood suitable for toys in the nearby forests. This industry possess exquisite technic of decoration, which is applied in a large scale in manufacturing Nirmal paints. They command a good market both at home and abroad.

### Electricity and Power :

As per the available data, all the villages in the district are electrified. The district has got 28 electrical sub-stations.

**Table(u)**

<b>Length of different transmission lines as on 31.10.1999</b>		
Sl.No.	Category	Total Length (in kms.)
1	2	3
1	L.T. Lines	16190.88
2	11 KV Lines	6405.80
3	33 KV Lines	845.69
4	132 KV Lines	314.39

About 37.34 crore units through low tension and 41.07 crore units through high tension power was consumed by 2.15 lakhs low tension services and 64 high tension services during the year 1996-97. The category wise details are furnished below:

**Table (v)**  
**Distribution of Power supply**

Sl.No.	Category	Power sold(in units)	Number of services	Connected load (in KWs)
<b><u>Low Tension</u></b>				
1	Domestic	68,507,514	148,553	44,698.20
2	Non-Domestic	11,582,002	12,903	4,289.40

**Transportation :**

The total length of the roads in Adilabad district is 7,248kms. The national highway No.7 is passing through this district. The different type of roads available in the district is furnished below:

1.National Highway-	...	208 kms.
2.P.W.D.(R&B) Road-	...	1,995 kms.
3.Panchyat Raj Road-	...	5,045 kms.
Total	...	7,248 kms.

Three railway lines viz., Nizamabad-Nanded, Kazipet-Balaharsha and Mudkhed-Adilabad with 16 Railway stations are existing in this district. Total length of these three Railway lines is 105 kms.

In this transport sector APSRTC is playing an important role in transporting people and goods. There are 6 bus depots with 517 buses in this district. Besides this, other mode of vehicles, which under toll transportation also existing in the district as shown in number here under:

**Table (w)****Number of motor vehicles of different class and categories as on 31.3.2001.**

## (vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June,2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of transport like bicycle, scooter/motor cycle, car/jeep/van and availing of banking services by the household

are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time Image-based data capturing technology through scanners and computer network has been introduced with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22)and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/ household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census For the people, who are attending educational institutions, a separate code has been provided to

record the Vocational institute, other institute and literacy centre in addition to school/college.

Criteria for enumeration of persons in a particular household:

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th February,2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

**Location Code Number:** The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North- West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data i.e., Village and Town Directory information is also being computerized, the allotment of permanent location

code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC.No.001231400 it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have undergone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

## Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence,etc. Usually a structure will

have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

### **Permanent houses**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

### **Semi-permanent houses**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

### **Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

### **Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not

considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

### **Census house**

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound

there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts

are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

### **Village**

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

### **Rural - Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

- i) A minimum population of 5,000;
- ii) At least 75 per cent of the male working population engaged in non agricultural pursuits ; and
- iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above,

a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

### City

Towns with population of 1,00,000 and above are called cities.

### Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents

(i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

### Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

### Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

### Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway

platforms, etc., are treated as Houseless Households.

### **Scheduled Caste and Scheduled Tribe**

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

#### **List of Scheduled Castes in Andhra Pradesh**

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala

5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar

**Language and Mother tongue**

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the

\* The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.

person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

### Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

### Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

### Educational level

The highest level of education a person has completed

### Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is

one year preceding the date of enumeration.

### Main worker

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

### Marginal worker

A person who worked for less than six months of the reference period ( i.e. in the last one year preceding the date of enumeration ) in any economic activity is termed as 'Marginal worker' .

### Non worker

A person who has not worked at all in any economically productive activity during the reference period ( i.e. last one year preceding the date of enumeration ) is termed as 'Non worker'.

### Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

**Agricultural labourer**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

**Household industry worker**

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

**Other worker**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

**Work participation rate**

Percentage of workers (main + marginal) to total population

**Population density**

Population density is the number of persons inhabited per square kilometre of the area.

**Age**

Age is measured in terms of the completed number of years

**Sex -ratio**

Number of females per 1000 males in a population.

## (viii) Non Census Concepts

### Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

### System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sykh pattern drain, etc., in these towns.

### Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed.

This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

### Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

### Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

### Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

**Natural growth rate**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR)**

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

**Age specific marital fertility rate (ASMFR)**

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women .

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

**General fertility rate (GFR)**

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

**General marital fertility rate (GMFR)**

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

**Total fertility rate (TFR)**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age

span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \left( \frac{ASFR_{15-19} + ASFR_{20-24} + ASFR_{25-29} + ASFR_{30-34} + ASFR_{35-39} + ASFR_{40-44} + ASFR_{45-49}}{7} \right)}{1000}$$

**Total marital fertility rate (TMFR)**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \left( \frac{ASMFR_{15-19} + ASMFR_{20-24} + ASMFR_{25-29} + ASMFR_{30-34} + ASMFR_{35-39} + ASMFR_{40-44} + ASMFR_{45-49}}{7} \right)}{1000}$$

**Age-specific mortality rate (ASMR)**

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

**q1**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2**

Probability of dying between birth and age 2.

**q5**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

**Infant mortality rate (IMR)**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

**Neo-natal mortality rate (NMR)**

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

**Early neo-natal mortality rate**

$$\text{ENMR} = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

**Late neo-natal mortality rate**

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

**Post neo-natal mortality rate (PNMR)**

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

**Peri-natal mortality rate (PMR)**

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Still birth rate(SBR)**

$$\text{SBR} = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Maternal mortality rate(MMR)**

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

**Eligible couple (Couples per 1000 population)**

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

**Child woman ratio (0-4)**

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

**Child woman ratio (5-9)**

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

**Migration**

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in

the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

#### **Internal and International migration :**

The migrational movements are of three types

(i) Migration within the state itself with its components

(a) Migration within the district of enumeration (intra district migration)

(b) Migration from one district of state to another district of state (inter district migration),

(ii) Migration from one state to another State of the country ( inter-state migration),

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

#### **Rural - Urban components of migration:**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

#### **Civic status of urban units**

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

#### **Size class of UA / town**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs./towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

**Slum area**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

**Mega city**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in

term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

## **Analytical Note**

### **(ix) 2001 Census findings – Population and its distribution**

#### **(a) Distribution of Population in**

##### **Rural-Urban areas :**

According to 2001 Census the total population of Adilabad district stands at 2488003 with 1250958 males and 1237045 females. The district stands at 21<sup>st</sup> rank as far as population is concerned in the state. Out of the total population of the district 1827986 persons constituting 73.47% are residing in rural areas and the remaining 660017 persons(26.53%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization is 26.53% for Adilabad district, corresponding to state figure of 27.30%. Average number of towns for 100 inhabited villages in the district is less 1% (0.94%).

Adilabad district has 1729 villages in 52 mandals of which 1586 are inhabited villages. The average number of inhabited villages per mandal is 31. Mancherial mandal is the largest mandal in terms of population accounting 7.3% of the district population. In terms of number of villages, Asifabad mandal leads with 60 villages, wherein 9 are un-inhabited villages. Large number i.e. 53 inhabited villages are found in Narnoor mandal. Mandamarri mandal has least i.e. 9

inhabited villages. The least population i.e. 18,223 has been recorded in Vemanpalle mandal.

The urban population is distributed among 15 urban units of which 7 are statutory towns. The average size of an urban centre in the district works out to 44001 persons. Adilabad Municipality has largest population (109529) whereas Madaram is the smallest town with a population of (6691). There is no town in the district which has less than 5000 population.

#### **(b) Size class and status of towns, population Growth, density and sex ratio, work participation rate and Literacy rate in the District.**

##### **Size Class and Status of towns :**

During every Census the number of Census towns and statutory towns changes due to addition of new Statutory towns declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc. For the purpose of analysis of varied demographic characteristics, urban areas have been divided into six classes by size of population. Of the 15 towns in the district, Adilabad is categorized as class I town while there are 5 class II, 4 class III,

4 class IV and one in class V. Not a single town is categorized as class VI.

### **Population growth :**

The population of district was 2082479 as per 1991 Census and has gone upto 2488003 persons in 2001 adding 405524 persons during the decade 1991-2001. The growth rate revealed by the district(19.47%) is more than the state growth of 14.59% during the decade. Adilabad district ranks 3<sup>rd</sup> in growth rate among 23 districts in the state.

Rural - Urban growth rates shows wide variations. The rural growth rate is recorded as 14.18 while urban growth rate is 37.05. As regards growth rate in rural population, the district occupies 12<sup>th</sup> position and in respect of urban growth rate it occupies 2<sup>nd</sup> place in the state.

### **Density :**

The overall density of population in the district is 154 persons per sq.km and is below the state average of 277. Among urban areas Adilabad town recorded highest 6,638 persons per sq.km followed by 6,504 persons in Kyathampalle Census town. Least density i.e. 358 persons per sq.km. has been reported in Madaram town.

### **Sex Ratio :**

Adilabad district has recorded 989 females per 1000 males while it was 980 in 1991 Census. It is higher than state average sex ratio of 978. The district occupied 7<sup>th</sup> rank in respect of sex ratio among 23 districts. Lokeswaram mandal has the highest sex ratio of 1090. While Sirpur(T) and Utnoor mandals have lowest sex ratio of 950 each. Among urban units Dasnapur Census Town has reported highest sex ratio of 1016 and Teegalpahad Census Town reported lowest sex ratio of 919.

### **Work Participation rate:**

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Adilabad district is 45.1%. Again the percentage of main workers stands at 36.7%. The total workers participation rate separately for males and females in the rural areas is 55.3% and 46.5% respectively. The corresponding figures of work participation among males and females for urban areas are 46.1% and

11.7% respectively. In respect of workers, the comparison between 2001 and 1991 censuses shows that there is slight increase in the working population over the 1991. The female workers participation has slightly gone up from 35.57 in 1991 Census to 37.41 at 2001 Census.

### **Literacy rate:**

While calculating the effective literacy rate, children in 0-6 age group have been excluded. The district returned 1112189 literates forming 52.7% of the population of the district. Separating for urban and rural areas the literacy rate works out to 46.3% and 69.9% respectively. Again within the urban areas male and female literate rates works out to 79.3% and 60.2%. For the rural population the male and female literacy rates work out to 59.6% and 33.0%.

### **(c) Scheduled Castes and Scheduled Tribes of earlier Censuses:**

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some of the castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the sub-heading on 'Census concepts'.

### **Scheduled Castes population in the district as per 1991 Census :**

As per 1991 census, there were 385,942 Scheduled Castes population comprising 195,172 males and 190,770 females. This works out to 18.53%

to the total population of the district. Of the total population of Scheduled Castes, 80.80% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 28.47% growth rate during the decade 1981-91. It was 21.54% in rural areas which is less than the growth rate of total district. Growth rate in Urban areas was 68.99% which is abnormally more than the district and rural areas.

The sex ratio of Scheduled Castes population

(977) was lower in comparison to that of the general population in the district(980). The sex ratio in rural area of the district was lower than total district sex ratio among Scheduled Castes population. In urban areas it was 959. Literacy rate among Scheduled Castes 24.26% which was lower than the district total population (32.96%). In urban areas their literacy rate was 42.77%. Proportion of main workers among Scheduled Castes was 43.66 percent and the Marginal workers was 3.27 percent. In rural areas workers population was 47.51 percent and in urban areas their percentage was 27.47.

Source : District Census Handbook, Adilabad, 1991

**The Scheduled Tribes population in the district as per 1991 Census :**

As per 1991 Census, there were 354902 Scheduled Tribes population comprising 179869 males and 175033 females. This works out 17.04% to the total population of the district. Of the total population of the Scheduled Tribes 96.93% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 30.06% growth rate during the decade 1981-91. The growth rate 28.23% has been recorded in the rural areas of the district. In urban areas it was 136.26%. The sex ratio in the district was 973, while in rural areas it was 976 and in urban areas 880. As regards the Literacy rate among the tribes, it was 17.67% , while in rural areas it was 16.62%. However in urban areas it was higher (49.99%) than rural areas as well as the district total. It shows that half of the urban Tribes are literates.

**Statement (v)****Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991**

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation : 1981 1991	272,886 354,902 (30.06)	268,277 344,013 (28.23)	4,609 10,889 (136.26)
2	Sex ratio	973	976	880
3	Percentage of Literacy	17.67	16.62	49.99
4	Percentage of			
	i. Main Workers	48.92	49.66	25.50
	ii. Marginal Workers	2.96	3.04	0.49
	iii. Non-workers	48.12	47.30	74.01

It is seen from the following statement that the Scheduled Tribes population growth rate is less during the decade 1961-71, when it is compared with 1971-81 and 1981-91, while it has recorded abnormal increase i.e. 151.19% during the decade

1971-81. This abnormal increase was due to inclusion of some of the tribes in the list of Scheduled Tribes during the decade. However the variation between 1981-91 was less when compared with the State variation.

**Statement (vi)**

**Statement showing the decadal variation in Scheduled Tribes population in Adilabad district in comparison to Andhra Pradesh State between 1961-1991 Censuses**

This table gives the details of decadal growth rates in the mandals of the district. The district has registered 19.5% growth during the decade, which is more than the state average growth rate of 14.6. The rural and urban growth rates are recorded as 14.2 and 37.1 respectively.

The district percentage of urban population works

out to 26.5. Out of 52 mandals only 9 mandals have urban units. Among these 9 mandals, Mandamarri mandal reported higher percentage of 88.3 urban population, followed by Mancherial mandal in the 83.5%. Except Tandur mandal, where 19.7 growth rate is recorded, remaining 8 mandals have reported more urban population than the district average urban population.

*Note : Percentages in brackets*

*\* Excludes Census Towns and OGs*

The above table shows that this district has 1,586 inhabited villages. Out of 52 mandals, the highest number of 53 inhabited villages are in Narnoor mandal, followed by 51 villages in Asifabad mandal, 46 villages in Jainad mandal, 44 villages in Kerameri mandal etc. The least number i.e., 9 villages in Mandamarri and 12 villages in Bellampalle mandals are existing. Of the total inhabited villages, 158 (10.0%) villages are having less than 200 population; 364 (23%) villages are having between 200 – 499 persons, the highest number of villages 450 (28.4%) are in the population range of 500-999. Nineteen villages (1.2%) are having population range of 5000 -9999. 7 villages (0.4%) have more than

10,000 population, which are mostly mandal headquarters.

Of 52 mandals, 9 mandals do not have the villages having less than 200 population. More than 25% inhabited villages in Kerameri, Tiryani and Asifabad mandals have less than 200 population, 44.8% of inhabited villages in Vemanpalle mandal are having the population between 200-499 persons. Like wise 61.5% inhabited villages of Sirpur(T) mandal fall in population size range 500-999 persons. In Jannaram, Dilawarpur, Kasipet and Jaipur mandals are having 2 villages each with 5,000 above and below 10,000 persons. As already stated, 7 villages where the population has more than 10,000 reported one each in seven mandals.

**TABLE 3**  
**NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

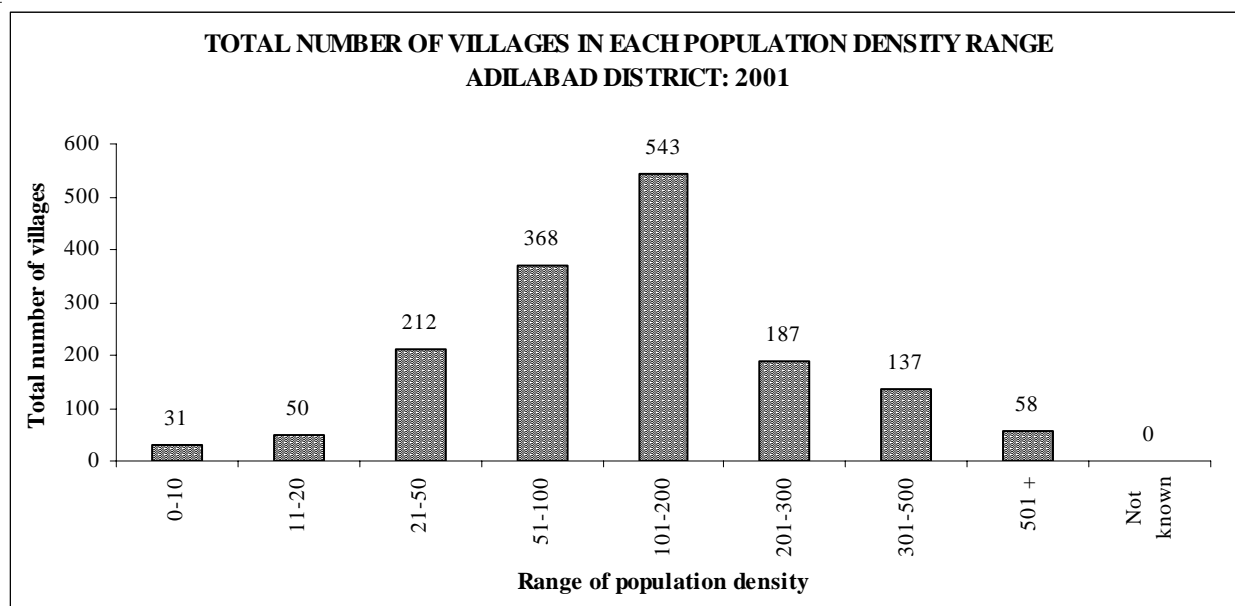

Name of Town	
1	
<b>(a) New</b>	
(i) Statutory Town	-Nil-
(ii) Census Town	1. Dasnapur 2. Madaram 3. Teegalpahad 4. Naspur 5. Thallapalle 6. Singapur
<b>(b) Denotified</b>	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	1. Mandamarri
<b>(c) Declassified</b>	1. Luxettipet 2. Sirpur
<b>(d) Wholly merged with other town(s)</b>	-Nil-

*Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria*

The above table shows, of 11 urban areas in 1991 Census, two census towns Luxettipet and Sirpur attained rural status due to strict implementation of demographic criteria in 2001 Census. Mandamarri Census town of 1991 has been notified as statutory town in 2001 Census. Besides the above changes, 6 new Census towns have been declared for 2001 Census. They are Dasnapur, Madaram, Teegalpahad, Naspur, Thallapalle and Singapur.

**TABLE 4**  
**DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001**

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	31	2.0	3,063	0.2
11-20	50	3.1	12,740	0.7
21-50	212	13.4	90,753	5.0
51-100	368	23.2	273,385	15.0
101-200	543	34.2	622,802	34.0
201-300	187	11.8	315,427	17.2
301-500	137	8.6	289,943	15.9
501 +	58	3.7	219,873	12.0
Not known	-	-	-	-
<b>District Total:</b>	<b>1,586</b>	<b>100.0</b>	<b>1,827,986</b>	<b>100.0</b>
<b>Population Density (Rural) of the district:</b>		<b>129.6</b>		

The above table shows there are 31 villages with 3,063 population where density of population recorded below 11 persons per square kilometre. The average population size of these villages works out around 100 persons per village. The highest number of villages

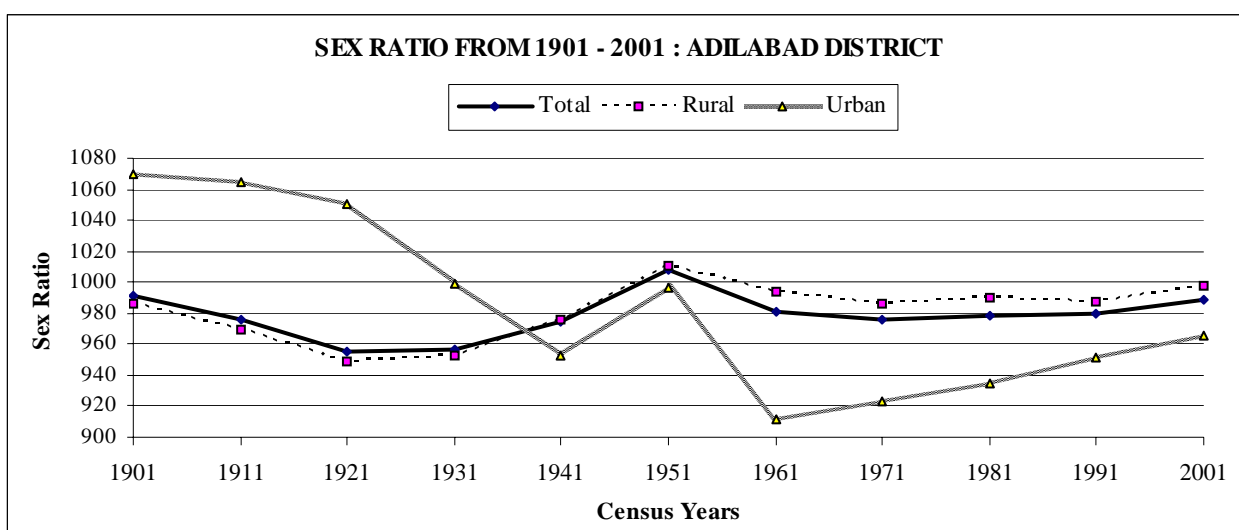

i.e., 543 forming 34.2% with 622,802 persons are in 101 – 200 range of population density. Of total district rural population, 12% are living in 58 villages where density of population is more than 501+ persons per sq.km.

**TABLE 5  
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001**

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	991	986	1,070
1911	992	991	1,000	976	970	1,064
1921	993	994	936	955	949	1,051
1931	987	989	966	956	953	999
1941	980	981	975	974	976	953
1951	986	985	987	1,008	1,010	997
1961	981	988	951	981	994	911
1971	977	983	949	976	986	923
1981	975	984	948	979	990	935
1991	972	977	959	980	988	952
2001	978	983	965	989	998	965

The above table reveals, in the census count during 1901, 1951, 1981 and 1991 the district sex ratio was more than state average sex ratio. Similarly during 2001 census also the district has reported high sex ratio of 989 over the State Sex Ratio of 978. In 1961 Census the district sex ratio was equal to the State

Sex Ratio of 981. Mostly sex ratio in rural areas was higher than the urban areas except in 1901, 1911, 1921 and 1931 Censuses. 1941 Census onwards sex ratio in urban areas declined and large variation between rural and urban was noticed in 1961 Census i.e., 994 and 911 respectively.

<b>Sex ratio for the District :</b>		<b>989</b>	<b>998</b>	<b>965</b>

As per the above table during 2001 Census, there were 989 females per 1000 males in the district, almost half of the mandals (25) in the district reported less sex ratio than the district. The least sex ratio 950 is seen in Sirpur (T) and Utnoor mandals. More females than males are reported in 17 mandals and equal number of females to males are reported in

Gudihathnoor and Dandepalle mandals. The highest number of females 1090 per 1000 males are in Lokeswaram mandal. In 9 mandals where urban areas are existing, the sex ratio in rural areas is more than the total average sex ratio of the respective mandals except in Bellampalle and Mancherial mandals, where urban sex ratio is higher than rural as well as total.

**Sex Ratio for District (Rural) Total: 998**

\* Excludes Census Towns and OGs

The above table shows the sex ratio in rural areas is 998, which is higher than the district sex ratio. In 20 mandal Parishads females are more than males while in Gudihathnoor and Dandepalle they are equal

to males. Highest females proportion is formed in Lokeswaram and lowest in Sirpur(T) and Utnoor mandal parishads.

**TABLE 8**  
**SEX RATIO OF RURAL POPULATION BY RANGES, 2001**

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	9	0.57	5,865	0.32
700-749	6	0.38	6,423	0.35

<b>District Total:</b>		<b>Total</b>	<b>376,768</b>	<b>191,994</b>	<b>184,774</b>	<b>962</b>
		<b>Rural</b>	<b>289,683</b>	<b>147,079</b>	<b>142,604</b>	<b>970</b>
		<b>Urban</b>	<b>87,085</b>	<b>44,915</b>	<b>42,170</b>	<b>939</b>

This table shows the sex ratio of population in the age group of 0-6 is 962 in total, 970 in rural and 939 in the urban areas of the district as against 989, 998 and 965 respectively of total population of the district. It reveals that sex ratio in rural and total district is almost nearer in the age group 0-6, but it is below with 939 in the urban areas of the district. Similar to total

population, sex ratio of urban areas in the age group of 0-6 also is less than district average sex ratio. Female children are equal in number to male children in Inderavelly mandal and Kagaznagar mandal rural areas. But in Bejjur, Sirpur, Dahegaon, Vemanpalle and Tandur mandals female children are more than male children in age group of 0-6 in the district.

This table shows the number and percentage of Scheduled Castes and Scheduled Tribes population in the mandals recorded during 2001 census. Out of district total population of 2488003, the SCs and STs constituted 18.5 and 16.7 percent respectively. In rural areas of the district the SCs accounted 19.3% whereas in urban areas it is 16.4%. In respect of STs, they accounted 21.7% in rural and 3% in urban areas of the total population. Their percentage is more in rural areas than urban.

In Kotapalle mandal the highest number of SCs recorded with 41.2% totally under rural areas, followed

by Nennel mandal 38.0%, Jaipur mandal with 34.3% and Dahegaon mandal with 29.8%. The lowest percentage of SCs recorded in the mandals Sirpur, Bela and Jainoor with 2.1, 5.5 and 7.4 respectively.

In Sirpur mandal the highest number of STs recorded with 88% of the total population entirely under the rural areas followed by Tiryani mandal with 72.6% and Narnoor mandal with 67.5%. The lowest percentage of STs recorded in the mandals of Bhainsa, Luxettipet and Nirmal with 2.1, 2.3 and 3.4 respectively.

\* Excludes Census Towns and OGs

The sex ratio among the SCs and STs is given in this table at Mandal Parishad level. The sex ratio of SC and ST in rural areas of Adilabad district is 994 and 988 respectively while it is 989 in respect of total population. It shows that sex ratio among total, SC and ST population is almost in the same range i.e., 988-994. The lowest sex ratio 849 among SCs is reported in Sirpur (T) Mandal Parishad and 875 among STs in Mancherial Mandal Parishad. The highest sex ratio 1163 among SCs is in Dilawarpur Mandal Parishad

and 1103 among STs in Luxettipet Mandal Parishad. Among SCs females are more than males in 19 Mandal Parishads. In Sirpur Mandal Parishad females are equal in number with males. As regards ST population is concerned females are more in 17 Mandal Parishads. In 29 Mandal Parishads sex ratio of SCs is lower than district average sex ratio (SC). Like wise in same number (29) of Mandal Parishads sex ratio of S.Ts. is lower than district average sex ratio (ST).

District and mandal-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas with sex breakup are given in this table. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 52.7 percent in the district.

This proportion in rural area is 46.3 per cent against 69.9 per cent in urban areas. In the district the literacy rates of males (65 per cent) is much higher than that of females (40.3 per cent). Among the mandals, Adilabad mandal tops with 67.5 per cent literates followed by Bellampalle mandal (65.7 per cent). Bejjur mandal with 31.9 per cent literates stands at the lowest in the district.

The gap between male and female literacy is very high which comes to 24.7 per cent in the district, as a whole. The situation at mandal level is not much different.

Note : Towns arranged in alphabetical order

The above table depicts number and percentage of scheduled caste literates and illiterates by sex in towns as per 2001 census. There are 58,285 (61.6%) literates and among them males 34,132 (71.6%) and females 24,153(51.5) in the urban part of the district among scheduled castes. The gap in male-females

literacy rate is 20.0. Asifabad (CT) occupied top place with literacy rate 73.8 and Bhainsa (NP) at bottom with 39.1 literacy rate. The gap between male-female literacy rate is highest in Nirmal (M) with 27.9. Similarly Singapur (CT) has less (14.0%) male-female literacy gap among scheduled castes.

\* Excludes Census Towns and OGs

This table explains the number and percentage of scheduled tribe literates and illiterates by sex in Mandal Parishads recorded in 2001 census. There are 124,225 (38.6%) literates and among them males 83,326 (51.5%) and females 40,899 (25.6%) in the Mandal Parishads of the district among scheduled tribes. The gap in male-female literacy rate is 25.9 in the rural areas of the district. This shows the females literacy rate is far lagging behind the male literacy rate.

Bazarhathnoor Mandal Parishad occupied top place with 52.7 per cent literacy rate and Kagaznagar Mandal Parishad at bottom with 19.7 literacy rate among scheduled tribes. The gap between male-female literacy rate is highest in Mudhole Mandal Parishad with 38.5%. Similarly Luxettipet Mandal Parishad reflects lower with 2.1% male-female literacy gap among scheduled tribes, where literacy rate of males and females is 51.5 and 49.4 respectively.

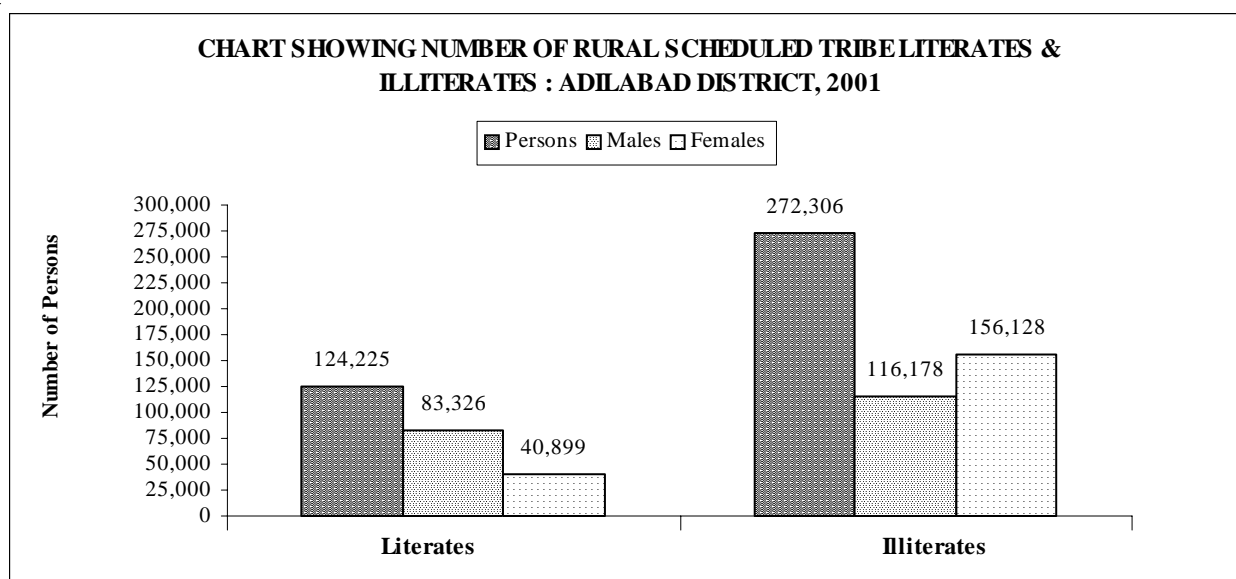

TABLE 29

## DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

61-70	55	4.3	18,151	4.6
71-80	19	1.5	9,240	2.3
81-90	9	0.7	2,250	0.6
91-99	1	0.1	191	-
100	13	1.0	67	-
<b>District Total:</b>	<b>1,292</b>	<b>100.0</b>	<b>396,531</b>	<b>100.0</b>

Literacy rate for District (Rural):

38.6

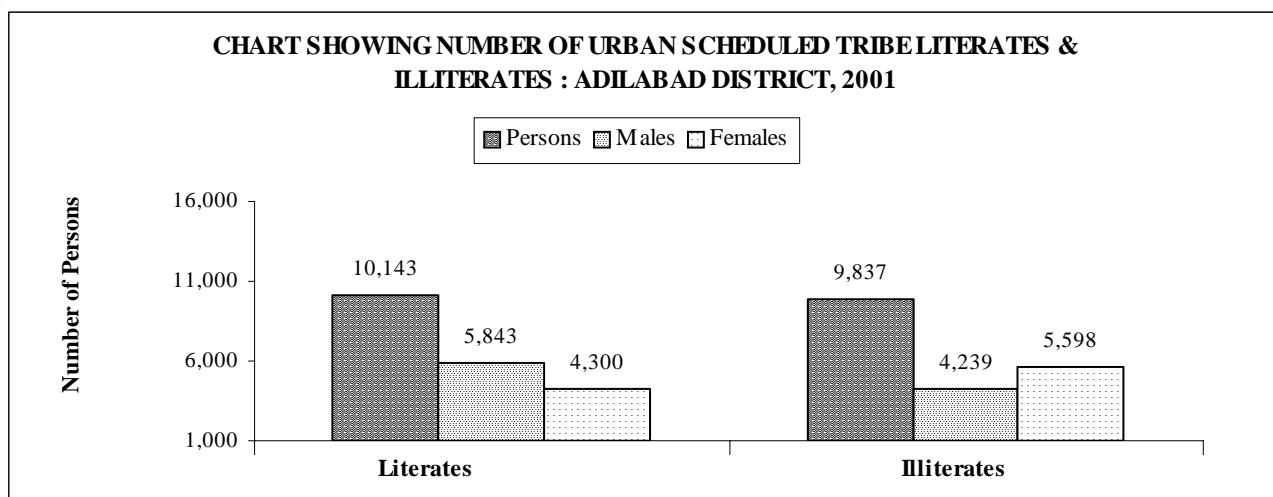

The above table shows the distribution of villages by range of literacy rate for scheduled tribes population returned during 2001 census. The inhabited villages numbering 1,292 with 396,531 scheduled tribes population were divided in twelve ranges of literacy rate i.e. 0,1-10, 11-20 likewise up to 91-99 and 100. The highest number of villages i.e. 303 with 105,972 scheduled tribes with percentage distribution of population of 26.7 has fallen in the literacy rate range 31-40 followed by 294 villages with 84,652 scheduled

tribes with a percentage distribution of population of 21.3 fallen in the range of literacy rate 21-30. Thirty three inhabited villages with 630 scheduled tribes fallen in zero range of literacy rate and 13 villages with 67 scheduled tribes attained full literacy rate in the range of 100. Only one village with 191 scheduled tribes has fallen in the literacy rate range 91-99. From this table it is noticed that the district literacy rate for rural areas has recorded 38.6.

Note : Towns arranged in alphabetical order

The above table explains the number and percentage of scheduled tribe literates and illiterates by sex in towns as per 2001 census. There are 10,143 (60.1%) literates and among them males 5,843 (69.0%) and females 4,300(51.2%) in the towns of the district among scheduled tribes. The gap in male-female literacy rate is 17.8 in the urban areas of the district. Asifabad(CT) occupied top place with 87.9

per cent literacy rate and Bhainsa (NP) at bottom with 25.3 literacy rate among scheduled tribes. The gap between male-female literacy rate is highest in Madaram (CT) with 33.3%. Asifabad (CT) at bottom with 2% male-female literacy gap among scheduled tribes. This shows a healthy trend among male and female literates in Asifabad (CT) with 89.1 and 87.1 literacy rate.

The above table gives the number and percentage of main workers, marginal workers and non-workers by sex at mandal level in the district as per 2001 Census. The proportion of the total workers works out 45.1 percent of the total population in the district. The total workers are comprised of 36.7 per cent of main workers and 8.5 percent of marginal workers and the remaining 54.9 percent are non-workers.

Among the main workers, males' participation rate in the district is 46.3 percent whereas in females it is 26.9 percent. Male and female marginal workers account for 6.5 and 10.5 per cent respectively. The percentage of female marginal workers is higher than the male marginal workers. The same trend is prevailed in almost all mandals of the district. The non-workers accounted as 54.9% to total population, among males it is 47.2% and for females 62.6%.

\* Excludes Census Towns and OGS

The above table shows Mandal Parishad-wise number and percentage of main workers, marginal workers and non-workers by sex for rural population of the district as per 2001 census. Of the 1,827,986 total rural population of the district, 40.6 per cent has been categorised as main workers and the marginal workers constitute 10.3 percent and the remaining 49.1 percent fall in the category of non-workers. The sex-wise break up at the district level shows that 48 per cent males and 33.3 per cent females are in the category of main workers. Male and female marginal workers account for 7.3 and 13.3 percent

respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at Mandal Parishad level.

The percentage of total rural workers of the district comes to 50.9. At the Mandal Parishad level, Laxmanchanda has highest proportion of total workers forming 60.7 percent of the total population. It is closely followed by Lokeswaram with 60.1 per cent, Kuntala (60 percent), Dilawarpur (59.8 percent), Mamda (59.7 percent) and Sarangapur (58.9 percent). The lowest percentage of 35.1 percent is recorded in Kasipet Mandal Parishad.

<sup>^</sup> The names of constituents of UA are given separately

This Table gives number and percentage of main workers, marginal workers, and non-workers by sex in Urban Agglomerations / Towns recorded in the district of Adilabad during 2001 census. Of the 660,017 total urban population of the district, 25.7 per cent has been categorised as main workers and 3.5 per cent as marginal workers. The remaining 70.8 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 41.8 per cent males and 9 per cent females are in the category of main workers.

Male and female marginal workers account for 4.2 and 2.7 per cent respectively. Similar trend is visible at town/urban agglomeration level.

The percentage of total urban workers of the district comes to 29.2 per cent. Nirmal (M) recorded highest proportion of total workers forming 38.5 per cent of the total population. It is closely followed by Bhainsa (NP) with 36.5 per cent. The lowest percentage of 22.6 per cent is recorded in Singapur (CT).

*Note : Percentage of Workers to total workers are given in brackets*

This Table gives the details of distribution of workers by sex in four categories of economic activity in mandals of the district as recorded in 2001 census. It can be seen that the economy of the district is primarily dependant on agriculture due to the fact that cultivators constitute 30.4 percent of the total workers ( main + marginal) and remaining 30.6 percent of total workers are engaged as agricultural labourers. Household industry workers constitute 8.9

percent and other workers 30.2 percent in the district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence of population on agriculture sector absorbing large number of workers. The percentage of female cultivators is 27.1 which is lower as compared to 32.7 per cent of male cultivators in the district.

*Note : Percentage of Workers to total workers are given in brackets*

\* Excludes Census Towns and OGs

This table presents Mandal Parishad-wise distribution of workers by sex in four categories of economic activity as per 2001 census. In the rural areas of the district total workers constitute (main + marginal) 50.9 percent of total population. Among these workers, cultivators constitute 36.4 percent, 36.0 percent agricultural labourers, 9.1 percent household industry workers and 18.5 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural

population despite the fact that it is not commercially viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 9.1 per cent workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (29.3 percent) is lesser than males (42.4 percent) in the rural areas of the district.

+ Towns arranged in alphabetical order

^ The names of constituents of UA are given separately

Note : Percentage of Workers to total workers are given in brackets

This table shows the distribution of workers by sex in four categories of economic activity of Urban Agglomerations / Towns. In the urban areas of the district total workers form(main + marginal) 29.2 percent of total population. Among these workers, cultivators constitute 1.3 per cent, 4.5 percent agricultural labourers, 7.6 percent household industry workers and 86.6 per cent other workers in the district. The other workers plays a major role in

providing employment to the working force of urban population. Household industries also could not make much progress in urban areas as reflected in the data and these household industries employ only 7.6 per cent workers of the total working force. Therefore surplus working force has to depend on other working activities. Among cultivators, the percentage of females (1.8 percent) is higher than males (1.2 percent) in the urban areas of the district.

Note : Percentages are given in brackets.

\*\* Excludes Census Towns and OGS

\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

The above Table deals with the Mandal Parishad-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,586 inhabited villages in the district 1,527 villages or 96.3 percent have been provided with the education facilities of one type or the other. Similarly 976 villages in the district constituting 61.5 percent have medical facilities of one type or the other. Improved drinking water facility is available in 1,514 or 95.5 percent villages. As regards post office facility which includes facilities

like telegraph office and post & telegraph, 482 villages constituting 30.4 percent of villages have been provided with post office facility within the village. 219 or 13.8 percent villages have been provided with telephone facility, 819 or 51.6 percent with transport facility, 105 or 6.6 percent villages with bank facility and 269 or 17.0 percent with agricultural credit societies. Similarly there are 978 or 61.7 percent villages which have been linked with the pucca road. Total 1,585 or 99.9 percent of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at Mandal Parishads is visible in majority of Mandal Parishads.

\*\* Excludes Census Towns and OGs

This table depicts the number and percent of rural population served by different kind of amenities. Out of total rural population of 1,827,986 persons in the district, 1,820,806 or 99.6 percent have educational facility of one type or the other. Similarly 1,445,219 or 79.1 percent population has medical facilities while 1,796,818 or 98.3 percent have got improved drinking water facility. Post office facilities are available to 1,099,178 or 60.1 percent population. Telephone facility is available to 620,040 or 33.9 percent.

Transport communications facility is available to 1,315,087 or 71.9 percent. Bank facility is available to 386,405 or 21.1 percent. 621,601 or 34.0 percent have been provided with the facility of agricultural credit societies. 1,412,730 or 77.3 percent have been provided with the facility of approach by pucca road. Power supply is available to 1,827,582 or 100.0 percent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at Mandal Parishad level.

The above table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. 64 villages do not have primary school in their villages and out of these villages, children of 47 villages have to travel less than 5 kms. for schooling. Out of 1,586 inhabited villages as many as 1,156 are deprived of middle school and 1,577 of degree college facilities. Of these 489 avail the facility of middle school at a distance of less than 5 kms., 389 at a distance 5-10 kms. and the remaining 278 at a distance of 10+ kms. In respect of degree college 57 avail this facility at a distance of less than 5 kms., 186 between 5 to 10 kms. and rest 1,334 villages at a distance of 10+ kms.

Similarly there are 1,573 villages in the district which have been deprived of Hospital facility and

1,524 villages which are deprived of PHC facilities. Of these, 100 villages have the facility of Hospital available within 5 kms. while in respect of 248 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 1,225 villages have this facility at a distance of 10+ kms. As regards PHC 228 villages avail this facility at a distance of less than 5 kms., 417 at a distance of 5-10 kms. and the remaining 879 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 1,103 villages do not have this facility in the village itself. Of these majority i.e. 570 have this facility at a distance of less than 5 kms., another 313 villages avail it at a distance of 5-10 kms. In the remaining 220 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1,366 villages in

the district which are not having the telephone facility. Of these, 156 villages avail this facility at a distance of less than 5 kms., 324 at a distance of 5-10 kms. and remaining 886 have to traverse a distance of 10+ kms.

In respect of Bus services it is noticed that 782 villages do not have facility. Among these villages, 330 villages avail this facility at a distance of less than 5 kms., 224 at a distance between 5-10 kms. and 228 at a distance of 10+ kms.

In the entire district, 1,483 villages are deprived of Commercial Bank facilities & 1,571 of Co-

operative Bank. Of these 1,483 villages which are deprived of Commercial Banks, 299 villages avail this facility at a distance of less than 5 kms., 512 between 5-10 kms. and the remaining 672 at a distance of 10+ kms. Regarding Co-operative Banks out of 1,571 villages 105 villages avail this facility at a distance of less than 5 kms., 275 at a distance of 5-10 kms. and remaining 1,191 at a distance of 10+ kms. 1,316 villages do not have agricultural credit societies. This facility to 332 villages is available at a distance of less than 5 kms., 394 at a distance of 5-10 kms. and the remaining 590 at a distance of 10+ kms.

# Post office includes Post office, Telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

The above table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,586 inhabited villages in the district, there are 22 villages which have nearest towns at a distance of 5 kms. Of these only 21 villages forming 95.5 percent of these total villages, are having the educational facility of one type or the other and 12 villages constituting 54.5 percent, have the medical facilities within the village, 11 villages forming 50.0 percent each have the facility of post

office and telephone within the village. 16 villages constituting 72.7 percent have been linked by transport service. 2 villages comprising 9.1 percent have been provided bank facilities and agricultural credit societies. 20 villages comprising 90.9 percent have been provided with pucca road.

Similarly 279 inhabited villages are at a distance range of 5-15 kms. from the nearest statutory town having educational facility in 98.6% villages, medical facility in 55.9%, post office in 35.1%, telephone in

25.8%, transport and communication 67.4%, Banks 10%, agricultural credit societies 17.6% and pucca road facility for 75.3% villages.

Maximum number of villages i.e. 989 villages fall in the distance range of 16-50 kms. from the statutory town. Out of these villages, 95.9% possess educational facilities, 57.9% medical, 29.4% post office, 11.6% telephone, 49.5% transport and communication, 6.1% banking, 16.9% agricultural credit societies and 59.5% of villages have pucca approachable roads.

295 villages are at a distance range of 51+kms. In this 95.9% villages possess educational, 79.7% medical, 27.8% post office, 7.1% telephone, 42.4% transport and communication, 5.1% banking, 17.3% agricultural credit societies and 54.2% villages have pucca roads.

Only one village lie at an unspecified distance to the statutory town having no amenity.

Of the 1586 villages, 1527 villages forming 96.3 percent of these total villages, are having the educational facility of one type or the other and 976 villages constituting 61.5 percent have the medical facilities within the village, 482 villages forming 30.4 percent have the facility of post office within the village and 219 or 13.8 percent have the facility of telephone. 819 villages constituting 51.6 percent have been linked by transport service. 105 villages comprising 6.6 percent have been provided bank facilities, while 269 villages constituting only 17.0 percent have been provided by agricultural credit societies. 978 villages comprising 61.7 percent have been provided with pucca road.

# Post office includes Post office, Telegraph office and Post and telegraph office.

\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the distribution of villages by population range and amenities available therein as recorded in 2001 census. In Adilabad district out of total 1,586 inhabited villages, 1,527 villages (96.3 percent) have education facility, 976 (61.5 percent) have medical facility, 1,514 (95.5 percent) have improved drinking water facility. 482 villages (30.4 percent) have post office facility and 219 (13.8 percent) have telephone facility. 819 villages (51.6 percent) have been linked by bus service and 105 (6.6 percent) have Bank facility. 269 villages (17.0 percent) have been served with the agricultural credit

societies, 978 villages (61.7 percent) have pucca approachable road and almost all villages (99.9 percent) possess electricity for all purposes.

As many as 522 villages have below 500 population. 450 villages have fallen in the population range 500-999 and 382 villages in the range of 1000-1999. In the population range of 2000-4999 the number of villages fallen are 206. A study of amenities available for these smaller villages reveal that they possess lesser amenities and they have to depend on nearby towns to avail the facilities.

*Note : Cultivable area = irrigated area + unirrigated area*

The above table presents Mandal Parishad-wise distribution of villages according to land use as per 2001 census. It also gives details of total area and cultivable area in the inhabited villages of the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There

are total 1,586 inhabited villages in the district covering a total area of 1,410,298 hectares. Of this, 44.8 percent is cultivable and 12 percent of total cultivable area has got the irrigation facility. The area figures for the villages have been collected from the revenue records maintained by the State Government.

Source : Census of India 2001, H-series; "Tables on houses, household amenities and assets"

The data presented in the table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 census the total number of households in the district is 518,594 consisting of 387,003 rural and 131,591 urban households. 100,838 households belong to Scheduled Castes and 93,165 to Scheduled Tribes. 439,473 households are living in their own houses and among them 89,262 SCs and 87,050 STs are owing the houses. Of these households, the largest number of households (209,727) have occupied single room accommodation and is followed by double roomed accommodation numbering 145,057 households. Next position is claimed by households (41,091) occupying three roomed accommodation and 3+ roomed accommodation by 29360 households. While 14238

households are without any exclusive room.

62,935 households living in rented accommodation in the district. The largest number of 22,083 households are living in double roomed accommodation, followed by 21,652 households in single roomed accommodation. Households with three rooms and three plus are small in numbers. The tenure status under "others" numbering to 16,186 of total households are distributed in single roomed accommodation numbering 3,352; 3,754 double roomed, 4,795 in three roomed accommodation and 3,897 households in 3+ roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while the urban areas show reverse picture.

1	2	3	4	5	6	7	8	9	10	11	12	13	14
50	Mancherial	31,899 (80.8)	3,937 (10.0)	3,625 (9.2)	40 (0.1)	3,975 (56.8)	1,022 (14.6)	2,003 (28.6)	-	27,924 (85.9)	2,915 (9.0)	1,622 (5.0)	40 (0.1)
51	Jaipur	6,205 (58.6)	2,515 (23.8)	1,867 (17.6)	4 -	6,205 (58.6)	2,515 (23.8)	1,867 (17.6)	4 -	-	-	-	-
52	Chennur	6,777 (60.6)	3,644 (32.6)	751 (6.7)	3 -	6,777 (60.6)	3,644 (32.6)	751 (6.7)	3 -	-	-	-	-

The data presented in the above table reveals that 53 percent of households of the district are living in houses made of pucca materials, residences of 39.9 percent households are of semi-permanent nature and houses of only 7 percent households are made of temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 46.1 percent,

45.8 percent in semi-permanent and only 8.1 per cent in temporary houses.

The district percentage in urban areas indicates that majority of households i.e. 73.4 per cent are living in houses constructed with pucca materials whereas 22.6 percent in semi-permanent structures and the percentage of households living in temporary houses is 3.9 i.e. constructed with kutcha materials.

**TABLE 50(Concl..)**  
**PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY,  
 BATHROOM, TOILET AND DRAINAGE FACILITY - 2001**

Sl. No	District / Mandal name	Total/ Rural/ Urban	No. of households	Number and percentage of households having				
				Improved drinking water	Electricity	Bathroom	Toilet	Drainage
1	2	3	4	5	6	7	8	9
52	Chennur	Total	11,175	5,087 (45.5)	5,374 (48.1)	3,443 (30.8)	2,555 (22.9)	4,304 (38.5)
		Rural	11,175	5,087 (45.5)	5,374 (48.1)	3,443 (30.8)	2,555 (22.9)	4,304 (38.5)
		Urban	-	-	-	-	-	-

The above table indicates that 51.7 percent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/tube-well. 55.4 percent households have provision of electricity to their houses. The bathroom facility is available to only 33.3 percent households within their premises. As regards rural areas, 19.5 percent households are having bathroom facility, whereas this proportion in urban areas comes to

74.%. 45.1 percent rural households have facility of electricity against 85.6 percent in urban areas. Toilet and drainage facilities in the district are available to 23.8 percent and 45.8 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost conform to the district pattern analysed.

Source : Census of India 2001, H-series; "Tables on houses, household amenities and assets"

The percentage distribution of households by type of fuel used for cooking purposes is given in the table. There are nine types of fuels used for which data have been presented in this table. It is observed that wood is the most predominant fuel used for cooking by 72.1 percent households in the district. In rural areas use of wood for cooking is high while in urban areas it is less due to availability of L.P.G. The next cooking fuel is gas which is used by 19.0 percent households in the district. This proportion in urban and rural areas is 47.1 and 9.4 percent respectively.

In rural areas use of gas for cooking is very low as compared to urban areas at mandal level. There are 1 percent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 2.7 percent while in rural areas its proportion is only 0.4 percent as a whole. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel.

*Source : Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The above table presents data for total, rural and urban areas at district/mandal level about households availing banking services and in possession of assets such radio/transistor, television, telephone, bicycle, scooter, car etc. There are 518,594 households in the district and among them, 177,822 households have been availing banking services. 66,177 households have Radio/Transistor. Television is possessed by 133,172 households. Telephone is available in 29,824 households.

Bicycle is used as a major means of transportation and is available in 143,352 households. Scooter, Motor cycle and Moped are used by 34,979 households. Whereas 3,329 households are in possession of Car, Jeep and Van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

### (v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

There are many tourist and religious places in the district. Details of such places are given in the following statement:

#### Places of Religious And Historical Importance :

Sl.No	Name of the Mandal	Name of the Town/Village	Description
1	Mudhole	Basar	Basar is a village which is situated on the banks of the Godavari river at a distance of one and a half kilometres from the Basar railway station of the Secunderabad-Manmad line of the South Central Railway. It is at a distance of 14 kms. from Mudhole. This place has one of the two temples dedicated to Sarswathi in the whole of India; the other being in Kashmir. The celebration during Mahasivaratri in February-March and Devi Navarathrulu (September-October) attract a large number of pilgrims from all parts of Telengana and Marathwada.
2	Bellampalle	Bellampalle	This town is situated on the Mancherial-Asifabad road. This place attained importance owing to the existence of Coal mines. The most important places of worship here are the Jangam Mahadeva mutt and the Church of South India.
3	Chennur	Chennur	Chennur village lies at a distance of 38 kms. from the Mancherial Railway station. It is noted for hard stick industry and carpentry. The temples of Siva, Jagannadha and Pochamma are the places of worship for the Hindus.
4	Adilabad	Jainad	Jainad village is at a distance of 21 kms. from Adilabad. A prakrit stone inscription with 20 slokas in this temple mentions that it was built by a Pallava chief. The temple has all the features of the Jain style of temple architecture. Therefore, the village obtained the name Jainad. The Lakshminarayanawami Brahmotsavam celebrated from Karthika Suddha Astami to Bahula Saptami attracts a large number of devotees.

Sl.No	Name of the Mandal	Name of the Town/Village	Description
5	Kaddam(Peddur)	Kaddam(Peddur) Dam site	The Kaddam project known as the Godavari north canal project, is situated at Peddur village and is at a distance of 19 kms. from Khanapur. The main dam site is about 6 kms. from the confluence of the Godavari and Kaddam rivers and the dam has been constructed across the Kaddam which is a main tributary of the Godavari. The site of the dam amidst picturesque surroundings is a pleasant spot.
6	Inderavelly	Keslapur(Buzurg)	Keslapur is situated at a distance of 25 kms. from Utnur and about 32 kms. from Adilabad. The famous Nagoba temple, with a stone image of Seshanag(Serpent God) attracts a large number of devotees. During the month of Pushya(December-January) all people irrespective of Caste and creed, visit the Keslapur Jatara, the famous fair held at Keslapur in the name of Nagoba, the snake God. People from all parts of the district and also Gonds and other tribes from neighbouring Maharashtra State take part in large numbers.
7	Neradigonda	Kuntala	This village is situated on the banks of the Kaddam river at a distance of 12 kms. from the Hyderabad-Nagpur national highway. It is at this village that the river Kaddam falls from a height of about 45 metres and enters Khanapur. The waterfalls known as the Kuntala waterfalls is the highest in Andhra Pradesh and affords a picturesque scenery. Near the waterfalls, there is a Sivalingam known as the Someswaraswami which has to be reached through an opening in the rock.
8	Mandamarri	Mandamarri	It is a town situated at a distance of 12 kms. from Mancherial, this place is known for its coal mining activity. The coal mines here are known as Kalyan Khani and are situated on the right side of the Asifabad Mancherial road.
9	Nirmal	Nirmal	Nirmal town is situated at a distance of 58 kms. from the Dichpally railway station and 64 kms. from the Nizamabad railway station. This town is connected by road with Hyderabad, Adilabad, Khanapur and many other important places. A large fort stands in the centre of the town and it includes the ruins of an old palace. The main fortifications, built by French Engineers in the Nizam's service are still in a State of good preservation and some of the guns are still in tact. Three towers on these fortifications appear to have been made for boring ordnance. Bateesghar and Sarad Mahal are the places of local interest. Nirmal is famous for its toy industry. The availability of light but strong

Sl.No	Name of the Mandal	Name of the Town/Village	Description
9	Nirmal (Concl..)	Nirmal	wood suitable for toys in the nearby forests is a contributing factor for this flourishing industry. On large scale Nirmal plates which contain painting of Lord Buddha, Natraja, Moghal miniature paintings, floral designs and illustrations from the famous Ajanta frescoes. All these paintings and furniture articles arouse the interest of any beholder for the exquisite creative craftsmanship. They command good market both at home and abroad. The shrine of Venkateswara is an important place of Hindu worship. The Lakshmi venkateswaraswami Brahmotsavam celebrated for seven days is attended by a very large gathering. Apart from this, Shaik Saheb Vali Urs, Haq Raiaz Saheb Urs, Kammal Pasha Urs, Masum Shah Urs, Inamuddin Urs are the Muslim festivals at Nirmal.

---

### (xiii) Scope of Village directory and Town directory - column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

#### Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical

list of villages with their permanent location code numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

- |               |                                                                                           |
|---------------|-------------------------------------------------------------------------------------------|
| Appendix I :  | Abstract of Educational, Medical and other amenities in villages – Mandal Parishad level. |
| Appendix 1A:  | Villages by number of primary schools                                                     |
| Appendix 1B:  | Villages by primary, middle and secondary schools                                         |
| Appendix 1C:  | Villages with different sources of drinking water facilities available                    |
| Appendix II:  | Villages with 5,000 and above population which do not have one or more amenities          |
| Appendix IIA: | Census Towns which do not have one or more amenities                                      |

- Appendix III: Land utilization data in respect of census towns /non-municipal towns
- Appendix IV: Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
- Appendix V: Summary showing number of villages not having Scheduled castes population
- Appendix VI: Summary showing number of villages not having Scheduled tribes population
- Appendix VIIA: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
- Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
- Appendix VIII : Statement showing number of Girls schools in the village
- Appendix IX : List of Degree Colleges village/ town in the district
- Appendix X : List of Hospitals village/ town in the district
- Appendix XI : List of Banks village / town in the district
- Appendix XII : List of Cinema Halls village/ town in the district

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Handbooks of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as

per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

#### **1. Forests (Col.19) :**

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

#### **2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):**

This includes the land under the following three categories.

**I) Net area sown :**

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

**II) Other fallow lands :**

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

**III) Current fallows :**

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

**3. Culturable Waste (Col. 22):**

This item includes the land under the following three categories.

i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be

either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

**4. Area not available for cultivation (Col.23) :**

This includes the land under the following two categories.

i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

**Scope of Town Directory:**

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted

in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	: Status and growth history
Statement II	: Physical Aspects and location of town, 1999
Statement III	: Municipal Finance, 1998-99
Statement IV	: Civic and other Amenities, 1999
Statement V	: Medical, Educational, Recreational and Cultural Facilities, 1999
Statement VI	: Trade, Commerce, Industry and Banking, 1999
Statement VII	: Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns shows their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from

the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

### Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under column 3 for the Towns was framed to follow the method of allocation of Location code to mandals in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following fifteen places are treated as urban areas in Adilabad district at the 2001 census.

1. Adilabad, 2. Asifabad, 3. Bellampalle,
4. Bhainsa, 5. Kagaznagar, 6. Kyathampalle,
7. Mancherial, 8. Madaram, 9. Mandamarri,
10. Nirmal, 11. Dasnapur, 12. Naspur,
13. Teegalpahad, 14. Thallapalle, 15. Singapur

Adilabad, Bellampalle, Bhainsa, Kagaznagar, Mancherial, Mandamarri and Nirmal are statutory towns. Adilabad, Bhainsa and Nirmal are continuing as towns since 1901.

Asifabad attained urban status in 1931, declassified during 1941 and again declared as town during 1951, Bellampalle declared as town in 1941, Mancherial and Kagaznagar in 1951, Mandamarri in 1971 and Kyathampalle in 1991. The remaining six towns have been declared as Census town during 2001 Census.

Adilabad only the town falling under class I town category. Mancherial, Nirmal, Kagaznagar, Bellampalle and Mandamarri are in class II towns category. Under class III category Naspur, Singapur, Bhainsa and Kyathampalle towns are listed. Teegalpahad, Dasnapur, Asifabad and Thallapalle are in class IV and Madaram in class V category.

### **Statement II : Physical aspects and location of town, 1999**

This statement contain 13 columns and depicts physical aspects and location of towns in the district. Column numbers 1 and 2 relate to serial number class and name of the town. The physical aspects such as rainfall in millimetres, maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Among Municipalities The highest rainfall is 1461 mm was recorded in Bhainsa followed by Asifabad (1119 mm), Nirmal (1040 mm), Mancherial (1030 mm). The lowest rain fall was in Bellampalle (66 mm) in the district. Mancherial and Dasnapur have recorded highest maximum temperature 47<sup>o</sup> C. The maximum temperature among towns were between 40<sup>o</sup> C to 47<sup>o</sup> C and minimum temperature was 9<sup>o</sup> C to 32<sup>o</sup> C. The columns 6 to 12 gives the details of name and road distance in kms. from the referent town to state, district and mandal headquarters, nearest city with

population of one lakh and more, and five lakhs and more, railway station and bus service. Nirmal town only nearer to the state headquarters Hyderabad with 228 kms. and Asifabad is at longest distance with 320 kms. Nirmal town is nearer to the district headquarters with 80 kms. followed by Bhainsa and Asifabad at 125 kms each and Singapur at longest distance 227 kms. All towns are mandal headquarters except for Dasnapur town mandal headquarters is Adilabad at 2 kms. For Madaram and Kyathampalle mandal headquarters is Tandur (5kms.) and Mandamarri (7 kms.) respectively. Mancherial is the mandal headquarters for Teegalpahad (9 kms.), Naspur (6 kms.), Thallapalle (8 Kms.) and Singapur (14 Kms.). Column 13 is meant for showing name of navigable river/canal within the distance of 10 kms. from the referent town. Godavari is the nearest navigable river to Singapur, Mancherial, Teegalpahad and Thallapalle.

### **Statement III: Municipal Finance, 1998-99**

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, class and name of town with civic status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. Mancherial municipality has highest income of Rs. 2.37 crores, followed by Adilabad municipality with 1.72 crores among the towns of Adilabad district during 1998-99. The expenditure of these two towns was 1.9 crores and 1.30 crores respectively.

The total income of urban areas of the district is 9.16 crores and total expenditure is 8.46 crores for the year 1998-99. Of the income 39.08% was realized through taxes and 48.47% was Government Grant. Lion's share of expenditure i.e., 35.22% was incurred on public works, followed by 34.75% on Administration. Expenditure on public health was 16.31%.

### **Statement IV : Civic and other Amenities, 1999**

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contain 20 columns. Column 1 & 2 relate to serial number, class and name of town and civic status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The lengths of pucca and kutch roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of safe drinking water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. All statutory towns (except Kagaznagar and Mandamarri municipalities) and Asifabad Census Town have fire fighting services.

Adilabad town has 87 kms. pucca road and 15 kms. kutch road, while Kagaznagar has 92 kms. length of road. The remaining towns also posses paved roads according to size in terms of area. Mostly water borne latrines are prevailing in all towns except Dasnapur where 455 other types of latrines are available. Night soil is disposed of by the method of sewerage lines and septic tank and pit system. In Asifabad town head load system is prevailed. Safe drinking water is supplied through taps in all towns, except in Singapur where wells are source of drinking water. Water is being stored in service reservoirs or over head tanks in all most all towns.

The columns 16 to 20 relate to different types of electrical connection in number. All types of electrical connections are being utilized in urban areas of the district. The number of electric connections existing in some of important towns viz., in Adilabad 13,731 Domestic, 487 Industrial, 3,160 commercial, 2,450 Road lightings. Similarly in Kagaznagar they are 10,500 Domestic, 150 Industrial, 1,200 commercial and 1,850 road lightings. As regards Nirmal is concerned, 8,984 Domestic, 124 Industrial, 2,132 commercial and 1,638 road lightings are existing.

### **Statement V : Medical, Educational, Recreational and Cultural facilities, 1999**

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns. Column 1, 2 and 3 relate to serial number, class and name of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

All statutory towns possesses good medical facilities. Census towns, which are within the proximity of statutory town, people of these towns depends on respective statutory towns closer to them. Hospital facilities are available in all towns except in Dasnapur(CT); Madaram )CT); Singapur(CT) and Teegalpahad(CT) and in the Census towns of T.B. centre is available in Adilabad. Degree college level education is available in Adilabad, Bellamapalle, Bhainsa, Mancherial, Nirmal, Kagaznagar, Mandamarri and Kyathampalle. Two polytechnic Institutions one at Adilabad and other is at Bellampalle. Engineering colleges are available in Adilabad., Mancherial, Nirmal and Asifabad. As regard remaining secondary and primary education, sufficient number of Institutions are available in all towns of the district. Working women hostel is not existing in the district. Five stadiums, two at Adilabad and one each at Nirmal, Kyathampalle and Singapur are existing. Auditorium/Drama/Community halls are available in all towns except Dasnapur, Madaram, Teegalpahad and Singapur. No cinema theatre is available in Dasnapur, Madaram, Kyathampalle, Thallapalle and Singapur.

### **Statement VI : Trade, Commerce, Industry and Banking, 1999**

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class and name of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The important items manufactured are Coal, Paper, Cement and Cotton thread in towns of Adilabad district. Coal, Cotton and Paper are most important commodities exported from urban areas of the district. Bank facilities are available in all towns, except Dasnapur and Thallapalle. Altogether there are 14 Agriculture and 208 non-agriculture Societies are existing.

### **Statement VII : Civic and other amenities in Slums, 1999**

The statement give details of civic amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 Census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 Census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum has been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil.

The column 14 is meant for showing number of tap points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

Adilabad town has 28 slums with approximately 6,325 households and 54,255 population. These slums are having 37 kms. lengthy road, open surface drain system and 4,340 latrines. Night soil of these slums are disposed of by way of sewerage line and septic-tank and pit system. For drinking water facility 138 taps are existing. Electric connections in the slums are 5,980 domestic and 1,347 road lightings.

Bhainsa town has 14 slums with 4,103 households and 25,907 population. These slums have 8 kms. length roads. Open surface drains are system of sewerage. There are 4,000 latrines and night soil is disposed of by way of sewerage line and septic tank system. 503 taps are provided for drinking water supply. Electric connections existing in the slums are 2,503 domestic and 525 road lightings.

Kagaznagar town has 24 slums with 5,120 households and 32,716 population. These slums have 15 kms. length roads. Open surface and box surface drains are the system of sewerage. There are 5,160 latrines and night soil is disposed of by way of sewerage line and septic tank and pit system. 50 taps are provided for drinking water supply. Electric connections existing in the slums are 4,620 domestic and 755 road lightings.

The slum area of Mancherial town is having 4,553 households with 22,768 population. This slum area is having road length of 12kms. Open surface drains are system of sewerage. There are 3,587 latrines and night soil is disposed of by way of sewerage line and septic tank system. 236 public taps are provided for drinking water supply. The number of electric connections existing in the slums are 2,389 domestic and 724 road lightings.

Mandamarri town has 20 slums with 3,795 households and 18,972 population. These slums have 10 kms. length roads. Open surface drains are system of sewerage. There are 1,722 latrines and night soil is disposed of by way of sewerage line and pit system. 73 taps are provided for drinking water supply. Electric

connections existing in the slums are 1,945 domestic and 120 road lightings.

Nirmal town has 4,768 households with 29,253 population in slum areas. These slums have 9 kms. length roads. Open surface drains are system of sewerage. There are 1,733 latrines and night soil is disposed of by way of sewerage line and septic tank system. Sufficient water supply points were provided for drinking purpose. Electric connections existing in

the slums are 4,329 domestic and 759 road lightings. Bellampalle town has 18 slums with 4,949 households and 34,735 population. These slums have 33 kms. length roads. Open surface drains are system of sewerage. There are 2,760 latrines and night soil is disposed of by way of sewerage line and septic tank system. 353 taps are provided for drinking water supply. Electric connections existing in the slums are 3,099 domestic and 652 road lightings.

## Section I - Village Directory

### (a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages ( villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

#### Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

#### Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

#### Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

#### Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

#### Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

#### Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

#### Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i) Primary School	P
(ii) Middle School	M
(iii) Secondary School	S
(iv) Senior Secondary School	PUC/JC
(v) College	C
(vi) Industrial School	I
(vii) Training School	Tr
(viii) Adult literacy class/centre	AC
(ix) Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

#### Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i) Allopathic Hospital	H
Ayurvedic Hospital	HA
Unani Hospital	HU
Homeopathic Hospital	H Hom
(ii) Allopathic Dispensary	D
Ayurvedic Dispensary	DA
Unani Dispensary	DU
Homeopathic Dispensary	D Hom
(iii) Maternity & Child Welfare	MCW
(iv) Maternity Home	MH
(v) Child Welfare Centre	CWC
(vi) Health Centre	HC
(vii) Primary Health Centre	PHC
(viii) Primary Health Sub-Centre	PHS
(ix) Family Welfare Centre	FWC
(x) T.B. Clinic	TB

(xi) Nursing Home	NH
(xii) Registered Private Medical Practitioner	RMP
(xiii) Subsidised Medical Practitioner	SMP
(xiv) Community Health Worker	CHW
(xv) Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

#### Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i) Tap Water	T
(ii) Well Water	W
(iii) Tank Water	TK
(iv) Tubewell Water	TW
(v) Handpump	HP
(vi) River Water	R
(vii) Canal	C
(viii) Lake	L
(ix) Spring	S
(x) Others	O
(xi) Summer Source	SS-

#### Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i) Post Office	PO
(ii) Telegraph Office	TO
(iii) Post & Telegraph Office	PTO
(iv) Telephone Connection	PH

#### Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i) Commercial Bank	CM
(ii) Co-operative Bank	CP

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

- |       |                                  |     |
|-------|----------------------------------|-----|
| (i)   | Agricultural Credit Society      | ACS |
| (ii)  | Non- Agricultural Credit Society | NCS |
| (iii) | Other Credit Society             | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

- |       |                      |    |
|-------|----------------------|----|
| (i)   | Cinema / Video Hall  | CV |
| (ii)  | Sports Club          | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

- |       |                    |    |
|-------|--------------------|----|
| (i)   | Bus Service        | BS |
| (ii)  | Railway Station    | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

- |       |                                             |    |
|-------|---------------------------------------------|----|
| (i)   | Paved Road                                  | PR |
| (ii)  | Mud road                                    | MR |
| (iii) | Foot path                                   | FP |
| (iv)  | Navigable River                             | NR |
| (v)   | Navigable Canal                             | NC |
| (vi)  | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometers in brackets

against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

- |       |                                  |     |
|-------|----------------------------------|-----|
| (i)   | Electricity for domestic use     | ED  |
| (ii)  | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes   | EO  |
| (iv)  | Electricity for all purposes     | EA  |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes

- |      |            |   |
|------|------------|---|
| (i)  | News Paper | N |
| (ii) | Magazine   | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

- |        |                               |     |
|--------|-------------------------------|-----|
| (i)    | Government Canal              | GC  |
| (ii)   | Private Canal                 | PC  |
| (iii)  | Well (without electricity)    | W   |
| (iv)   | Well (with electricity)       | WE  |
| (v)    | Tubewell(without electricity) | TW  |
| (vi)   | Tubewell(with electricity)    | TWE |
| (vii)  | Tank                          | TK  |
| (viii) | River                         | R   |
| (ix)   | Lake                          | L   |
| (x)    | Waterfall                     | WF  |
| (xi)   | Others                        | O   |
| (xii)  | Total                         | T   |

## Section II - Town Directory

### Note explaining the abbreviations used in the town directory

#### Town Directory statements (I to VII)

#### Statement I : Status and Growth History

#### Column (2) : Class, name and civic status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand ( 1,00,000 )and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA

(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

#### Statement II - Physical Aspects and Location of towns, 1999

#### Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

#### Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

#### Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

#### Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

### Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

### Statement IV : Civic and Other amenities, 1999

#### Column (1 to 5) : Self explanatory.

#### Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

#### Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

#### Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

#### Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B

Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

#### Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

#### Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

#### Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

#### Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

#### Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

#### Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

#### Column 1 to 3 : Self explanatory.

#### Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

#### Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

#### Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, com-

merce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

#### Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy classes/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 : Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes

as follows :

- |                    |    |
|--------------------|----|
| (i) Public Library | PL |
| (ii) Reading room  | RR |

**Statement VI : Trade, Commerce, Industry and Banking, 1999****Column 3 to 8 :**

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11 :**

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

## Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14<sup>th</sup> continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

### Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential prerequisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about

1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

### Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for

individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

### **Primary Census Abstract**

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of

data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

#### **Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

<b>Name of the Primary Census Abstract</b>	<b>Level of presentation</b>
1. District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3. Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4. Village Primary Census Abstract	Mandal Parishad/Village wise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures

presented at various level in the Primary Census Abstracts are as follows:

#### **Area Figures**

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Mandal Revenue Officer in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Mandals and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## Annexure - I

### Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected.

Definition of fertility measures is given in the chapter on Census concepts.

#### Fertility Levels :

This is dependent on fertility pattern by age, which is indicated by the age specific fertility rates. General fertility rate, total fertility rate and gross reproduction rate are other indicators of fertility. Fertility measures

were worked out on F-series tables of 1991 Census of Andhra Pradesh. An analysis of these measures is given in the subsequent paragraphs.

The following statement shows the age specific fertility rates for Total, Rural and Urban areas along with the corresponding fertility rates of State during 1991 Census.

#### Age Specific Fertility Rate :

The age specific Fertility rate is higher in the age group of 20-24 in State as a whole and rural areas when compared with the district figures. But urban areas of the district reported higher than the State urban in the same age group. In case of the age group of 25-29 district figures are higher in all the areas than State of same age group.

**Annexure-I(a)**  
**Age Specific Fertility Rates/Levels, 1991**

Age Group	Adilabad District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.074	0.075	0.070	0.085	0.092	0.066
20-24	0.165	0.165	0.163	0.179	0.185	0.162
25-29	0.157	0.161	0.141	0.150	0.155	0.137
30-34	0.118	0.126	0.082	0.103	0.108	0.087

45-49	0.024	0.026	0.017	0.020	0.021	0.017

#### Age Specific Marital Fertility Rate :

It can be seen from the below table, that the level of fertility in rural areas of the district is higher than urban areas in all age groups except 15-19 and 20-24 age groups. When total figure of the district

are compared with the total of State, they are higher in all age groups except 15-19 and 20-24 age groups.

The following statement shows age specific marital fertility rates of Adilabad district as well as State recorded during 1991 Census.

**Annexure –I (b)**  
**Age Specific Marital Fertility Rates/Levels, 1991**

Age Group	Adilabad District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.114	0.110	0.132	0.150	0.149	0.158
20-24	0.179	0.179	0.180	0.198	0.199	0.196
25-29	0.165	0.170	0.146	0.158	0.162	0.147
30-34	0.125	0.134	0.086	0.111	0.116	0.093
35-39	0.084	0.088	0.064	0.074	0.078	0.060
40-44	0.051	0.056	0.026	0.044	0.046	0.035
45-49	0.031	0.032	0.021	0.026	0.026	0.023

**Child Mortality :**

The estimates of child mortality (number of deaths by ages 1,2,3 and 5 given below as Q1,Q2,Q3 and Q5). The below table shows that child mortality is

higher in the district than State except in age group Q1. The male child mortality is higher in the age group Q1 and Q2, while it is low in the age group of Q3 and Q5 than female child mortality in the district.

**Annexure –I (c)**

 2. Andhra Pradesh district profile, 1991 Census  
 3. R.G's occasional paper of 1997

NA : Not available

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. Adilabad district recorded higher rates

than that of State except in mean age at marriage. This district has recorded 16.4 mean age at marriage against state figure 16.8.

## Annexure III

### Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

#### Migration :

The migrants by place of birth were returned 194.6 lakhs in Andhra Pradesh State as per the 1991 Census comprising of 62.5 lakhs are male and 132.1 lakhs are females. These migrants constitute 29.3% of the total population, with a break-up of 18.5% of male and 40.3% of female population. In Adilabad district 6,29,749 constituting 30.2% persons are migrants. Male migrants constitute 21.4% and female migrants constitute 39.3% to the respective sex. Males are forming more percentage in inter district migrants to total more migrants than that of female inter district migrants percentage to total female migrants. Similar

is in case of International migrants. Female migration is more among inter State migration than males.

From the distribution of total migrants in Adilabad district by place of birth, it can be seen from the below table that in the Intra-district migration is less than that of State in both the sexes. While migrants from other districts of the State and other States of India are higher percentage in the district than that of State. The number of female internal migrants are more at all level, which is natural due to marriages.

The following statement shows the distribution of migrants by place of birth with sex break-up in the district as well as in the State together with percentages.

Source: Migration Tables (D Series) - 2001

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Adilabad district the migrants are 629,749 persons as per 1991 Census whereas 673,286 persons are in 2001 Census with a growth rate of 6.9% over 1991 census. In both the Censuses the

female migrants are more than male migrants in case of migrants born elsewhere in the district of enumeration due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. In the case of inter-state migrants also the females are more than males in this Census. In case of International Migrants, males are more than females in both the Censuses..

### Rural and Urban Components of Migration :

The above statement shows the Rural and Urban Composition of internal migrants by place of birth at 1991 Census for Andhra Pradesh and Adilabad district.

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural and (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants.

Of the total 184.1 lakhs intra State migrants of Andhra Pradesh 63.9% have moved from rural to

rural, 20.95% from rural to urban. 5.7% people have moved from urban to rural and 9.3% from urban to urban. In case of Adilabad district of the total 5.7 lakhs of Intra-State migrants, 67.1 have been moved from Rural to Rural, 7.3% have moved from urban to urban, 20.2% have moved from rural to urban and 5.4% from urban to rural.

In case of Adilabad district 56,755 are from other States. Of these 2/3(65.1%) people who born in rural areas have settled in rural areas of the district and 18.2% of people from rural areas of other States settled in urban areas. Similarly, 9.8% of people who born in urban areas of other States settled in urban areas and 6.8% in rural areas.

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra Pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Adilabad district the persons born elsewhere in the district of the

enumeration recorded 65.6% and the persons born in other districts of the state returned 24.8%. Among the migrants of the district, the persons born in other states and other countries works out to 9.0% and 0.6% respectively. Out of 1.95 crores of migrants of the state, 6.3 lakh migrants belong to Adilabad district. It is interesting to note that the female migrants are more in number than males in all the districts of the state.

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Adilabad district the difference

between the two Censuses can be observed with the percentage variation of 3.6% persons, 3.3% males and 3.5% females in the persons born elsewhere in the district of the enumeration, but the sex-wise break up differs from the state figure. (i.e. 4.0% males and - 3.0% females). Regarding the migrants from other states in India only a minor variation is recorded with 0.6% more than the previous census.

Among the male migrants that are born in the Abroad a minor change is noticed in the percentage variation between 1991 and 2001 censuses, and among females the same percentage is continued.

## Annexure IV

### Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

**Religion :**

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category "Others".

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, recorded and classified under the category "Others".

During 1991 Census six main religions have been identified in the State. This district has also returned these six main religions viz. 1. Hindus 2. Muslims 3. Christians 4. Jains 5. Buddhists 6. Sikhs. Adilabad district has returned 2,082,479 population in 1991 Census comprising 1,857,354 Hindus, 192,544 Muslims, 11,510 Christians, 137 Jains, 18,794 Buddhists and 1,134 Sikhs. Remaining are others or religion not stated. In terms of percentage, Hindus have recorded with 89.2% to the total population, followed by Muslims with 9.3% and Buddhists with 0.9%. There are 582 persons recorded as no religion in the district comprising 298 males and 284 females.

Hindus and Muslims were returned both in rural and urban areas in all the 52 mandals of the district and Hindus were dominated. Christians were not found in Bela Mandal, while Buddhists were not found in Neradigonda, Kuntala, Dilawarpur, Laxman

Chanda, Mamda, Khanapur, Kaddam, Kerameri, Jannaram, Luxettipet, Tiryani, Nennal, Bheemini, Vemanpalle and Kothapalle mandals.

The Muslims were recorded more in Adilabad mandal with 30,793 persons constituting 24.0% to the mandal population. Similarly in Nirmal mandal their population was 21,092(21.9%) and in Bhainsa mandal 15,458(26.5%) Muslims were recorded. The least number i.e. 1,181 (0.6%) were found in Tiryani mandal.

Of 11,510 Christians, 1,886 persons were found in Mandamarri mandal followed by 1,879 in Bellampalle. No Christians was found in Narnoor mandal. In many mandals their figure is in single digit.

Of the 137 Jains, 78 were found in Tandur mandal. Similarly of 1,134 Sikhs, 376 were found in Kerameri mandal.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district Hindus have returned 88.7% during 2001 census as against 89.2% in 1991 census. In respect of Muslims they have returned 9.5% in 2001 whereas their

percentage during 1991 was 9.3. The next main religion in the district is Christians who returned 0.6% during 2001 census as against 0.6% in 1991 census. The main reason for no variation in the decadal growth among Christians can be attributed to get enrolled under Scheduled Castes to get benefits from the government. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

**Annexure IV (b)**

**Percentage distribution of population by major religions in India, Andhra Pradesh and Adilabad district and its growth rate during 1981-1991**

**India- State- District differentials :**

The comparative data on religion among India, Andhra Pradesh and Adilabad district reveals that concentration of Hindus was higher followed by Muslims as per 1991 Census findings. Hindus were returned on the higher side in the State with nearly

seven percent more than the national average, while in Adilabad district they were more over seven percent than national and almost equal to the State. They constituted 82.4%, 89.1% and 89.2% in India, Andhra Pradesh and Adilabad district respectively. Muslims recorded as 11.7% in India, 8.9% in Andhra

Pradesh and 9.3% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e., 2.3% in India 1.8% in the State and 0.6% in the district. Buddhists, Sikhs and Jains formed less than 1% both in the State and district, whereas Sikhs recorded 2% in the Country and their population in the state as 0.03% in the district.

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.7% as against 22.3% in India. The growth rate of Hindus in the district is more than State and Country i.e. 25.7%. The growth rate among the Muslims is more than that of State and Country i.e. 37.6%. The Christians population has decreased in the State while it is increased in the district during the decade.

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Adilabad district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 it was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Adilabad district though the percentage of population of Hindus recorded 88.7 as against 89.2 in 1991 their growth rate in 1991-2001 has fallen to 18.9% as against the growth rate of 25.7 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against

11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Adilabad district, Muslims constituted 9.5% of total population during 2001, whereas the corresponding figure recorded in 1991 was 9.3. However in this district the growth rate in the decade 1991-2001 has declined to 23.0% as against the growth rate of 37.6% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001 census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Adilabad district during 2001 Christians constituted 0.6 % to total population as against 0.5 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 28.2% as against 6.3% in 1981-1991. In respect of other main communities their growth rate is negligible.

**Annexure IV (c)**  
**Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Adilabad district, 1991**

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Adilabad District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	80.22	19.78
2	Muslims	41.83	58.17	45.87	54.13
3	Christians	60.48	39.52	42.34	57.66
4	Jains	4.11	95.89	65.69	34.31
5	Buddhists	80.41	19.59	85.04	14.96
6	Sikhs	10.85	89.15	56.08	43.92

**Rural – Urban differentials :**

In Andhra Pradesh and Adilabad district, it is seen that Hindus form considerably higher in rural areas i.e., 76.6% and 80.2% respectively. Similarly Jains and Buddhists form higher percentage in rural

areas than urban in the district. But Muslims form higher percentage in the urban areas of the State and in the district. The Christians are more in urban areas than rural areas in the district. While it is vice-versa in case of the State.

**Inset table to Annexure IV (c)**  
**Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Adilabad district - 2001**

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Adilabad District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	76.9	23.1
2	Muslims	41.9	58.1	43.7	56.3
3	Christians	55.0	45.0	41.0	59.0
4	Jains	5.0	95.0	37.0	63.0
5	Buddhists	66.0	34.0	74.0	26.0
6	Sikhs	17.0	83.0	28.0	72.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Adilabad district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of Hindus and Muslims between rural and urban at state level as well as at district level is almost same. In 2001 census

55.0% Christians lived in rural areas as against 60.5% in 1991 at state level. The concentration of Jains and Sikhs is more in urban areas than rural areas both at state level and district during 1991 and as well as 2001. It is interesting to note that Buddhists lived more in rural areas than in urban areas both at state and district level during 91 and 2001 censuses.

## Annexure V

### Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

- (i) A person who has never married at any time before, treated him/her as never married
- (ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married
- (iii) A person whose husband/wife is dead and

who has not been married again, treated her/him as widowed

- (iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not remarried, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Adilabad district.

**Annexure -V**

The district has returned 20,82,479 persons during 1991 Census, of which never married, married, widowed and divorced or separated constituted 48.4%, 46.4%, 4.5%, and 0.7% respectively. There were 8,930(0.4%) persons, whose age was above 44 years, recorded as never married. In the age group of 10-14 years there were 9,240 currently married persons,

which shows existence of child marriages, 70 persons recorded as widowed and 180 females as divorced or separated.

In the age group of 15-44, of 17,051 widowed persons, 13,601 were females. Similarly of 11,160 Divorced/Separated persons in the same age group, 8,140 were females.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 2,488,003 persons, 666,387 (26.8%) males and 537,762 (21.6%) females were recorded as never married. In the total district population, 564,559 (22.7%) males and 589,450 (23.7%) females were found married during 2001

census. It is pity to note that as against 98,346 widows 16,663 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,042,804 persons in the age group less than 18 years, 51.3% males and 47.3% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.2% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

## Annexure VI

### Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

#### Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

It is seen from the below table that literates percentage among school going age group 7-14 years children is 53.9 in the district, while total literates in the district has been worked out to 33.0 only. Female literacy rate is 20.6% as against 45.1% of males. In all the age groups males literacy is dominating with that of female literacy. Highest educated are found among the persons age 10 years. Literacy among the persons who born after Independence i.e. age between 15-49 is more than the persons whose age is above 50 years.

The following table gives age, sex and education in the district at 1991 Census:

**Annexure - VI**

not stated

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 52.7% literates in 2001 as against 33.0% literates in 1991. In the district the literacy rate for males has recorded 65.0% as against 40.3% in females during

2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 69.3% and 80.6%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 89.0% and their sex-wise breakup recorded 92.3% in males and 85.5% in females. It is a good trend that the essentiality of the education is felt much by the general public.

## Annexure VII

### Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

#### Mother Tongue :

Adilabad district is dominated by Telugu speaking people with 1,325,409 persons forming 63.7% of total population followed by Marathi 12.8%, Urdu with 8.8% and Gondi with 6.8% during 1991 Census. Besides these languages many other languages were noticed in the district and

their contribution is very less.

The district has 52 mandals, of which Marathi occupied 1<sup>st</sup> rank in some mandals which are adjacent to Maharashtra state, while Telugu stood 1<sup>st</sup> rank in most of the remaining mandals. Urdu stood first rank in Bhainsa mandal. Lamani stood 2<sup>nd</sup> rank in Narnoor, Inderavelly and Neradigonda mandals.

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been

presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 61.8% to total population in the district with a slight decline in the percentage

recorded in 1991 (63.6%). The next highest language being spoken is Marathi with 13.1% to total population of the district whereas in 1991 the percentage of Marathi speaking people recorded 12.7. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the

district all the scheduled languages returned. In the district the other languages constituted 9.8% of the total population. Gondi language which is classified under other languages has returned 171,304 persons (6.8%) during 2001 as against 6.7% persons recorded in 1991.
