TABLE C-IV

SINGLE YEAR AGE RETURNS

TABLE C-IV—SINGLE YEAR AGE RETURNS

Fly-Leaf

This Table has been prepared separately for total, rural and urban population by sex. This is a very important demographic Table for computing mortality rates from age data of the earlier Censuses and for the preparation of *Life Tables*. This Table will afford useful study on the digital preferences in age returns at the Census. A similar Table was prepared at the 1951 Census on a 10 per cent sample. At this Census the Table has been prepared on full count.

The Indian *Life Tables* are prepared from the Census age distribution and not from directly observed rates of mortality on account of the unsatisfactory state of vital statistics. Till 1951, data on population in the prescribed quinquennial age-groups were available. They will now be available by groupings which are considered as more suitable. Age is the most important characteristic for demographic and socio-economic studies.

Table C-IV will depict single year age returns from 0 to 100 years. All ages above 100 have been lumped together in 'over 100'. The figures of single year ages beyond the age of 100 years are shown in the Table given overleaf. Ages with nil entries have been omitted. In the State there are 4 males and 4 females who are 150 years old. They have been returned from districts Moradabad (M—1, F—1), Kheri (F—2), Sitapur (M—1), Lucknow (F—1) and Bara Banki (M—2). All of them have been reported from rural areas except one male from the urban area of district Sitapur.

TABLE C-V

MOTHER-TONGUE

C-V MOTHER-TONGUE

Fly-Leaf

This Table presents the number of speakers of each language by sex. The data for the State have been presented separately for rural and urban areas, but for the districts only for total. The languages returned are shown in alphabetical order. The corresponding Table at the 1951 Census was D-I(i). At this Census, the information regarding language was collected through Q. 7(*a*) *Mother-tongue* in the Individual Slip. Mother-tongue was defined as the language spoken by the mother to a person in his childhood. In the case of mother's death in infancy, the language mostly spoken at home in childhood was recorded. For infants and deaf mutes, the language usually spoken by the mother was recorded. A question on mother-tongue has been asked since 1881, though its form has varied from Census to Census. At the Census of 1881 and from 1931 onwards the question was *Mother-tongue.* In 1891 it was *Parent-tongue* and 1901 and 1921, *language ordinarily used.* In 1911 the question was *language ordinarily spoken in the household.* In 1881 and 1891 mother-tongue or parent-tongue was defined as the language spoken by the person's parents. From 1901 to 1931, the language ordinarily used in one's own home was recorded. In 1941 and 1951, mother-tongue was defined as the language first spoken from the cradle.

2. In 1951, 85 mother-tongues were returned. At this Census 142 spoken languages or dialects have been returned as mother-tongues. The existence of so many tongues might lead to the inference that there is great linguistic diversity in the State. But the case is otherwise, as the languages Hindi, Urdu and Hindustani when taken together are spoken by 96 per cent of the population of the State. Out of the 142 mother-tongues 8 have been returned after the names of certain castes and communities. They are Cherwani, Majhwari, Kanjari, Dhangari, Tharu, Bhotia, Jaunsari and Jangali (including Rawati and Banbhasá). 80 speeches returned at this Census are numerically small and lesser known.

3. The Linguist has classified the mother-tongues of this State after the pattern of *Linguistic Survey of India* by Sir George A. Grierson. His notes are reproduced below:—

Note 1

(*i*) The following mother-tongues arranged in alphabetical order in Col. 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification No. is mentioned against each mother-tongue in Col. 3.

(*ii*) If in Col. 3 no Classification No. is given against any mother-tongue of Col. 1 then it would mean that the name refers to either old or middle Indo Aryan language or a language group or branch or family name from the Linguistic Survey of India.

(*iii*) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mother-tongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.

(*iv*) If in Col. 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in Col. 2 the name of the classified language or group will be given of which the mother-tongue of Col. 1 is either a dialect or another name or form. In such a case the number of Classified language of Col. 2 has been given in Col. 3.

(*v*) In Col. 2 standardized spellings according to Linguistic Survey of India has been given against each mother-tongue of Col. 1.

Alphabetical order of mother-tongues classified by the Linguistic Survey of India	Classified name in the Linguistic Survey of India	Classification No. in the Linguistic Survey of India

Note 3. *Mother-tongues from outside the Indian Sub-continent*

Mother-tongues outside the Indian Sub-continent which have been printed in italics in the Table have been arranged by the Linguist according to (*a*) mother-tongues of other Asian countries and (*b*) mother-tongues of each of the continents in the following manner :

Other Asian Countries other Continents	Mother-Tongue
1	2
Other Asian Countries	Afghani/Kabuli/Pakhto/Pashto/Pathani, Arabic/Arbi, Balochi/Baluchi, Burmese, Ceylonese/Simelu/Singhalese, Chinese/Chini, Indonesian, Japanese, Malai/Malay/Malaya/Malayan, Mangolian/Mongolian, Persian
Africa	African, Nigerian
America	American
Oceania	Australian
Europe	Dutch, English, French, German, Hungarian, Italian, Portuguese, Russian, Spanish, Swedish.

Note 4. *Mother-tongues remaining unclassified*

The following mother-tongues which bear an asterisk mark only in Table C-V could not be classified by the Linguist for want of any dependable information on them so far :—

Alanic	Kanjari
Bavari	Karai
Bengani	Purnea
Darchini	Qustash
Kandi	Tolcha

Note 5.

Column 2 shows variant spellings or forms of mother-tongue returns which are rationalized to the names given against them in Column 1.

Rationalized forms of names of mother-tongues as listed in Table C-V	Variant forms of the names of mother-tongues recorded during enumeration and/or transcription
(1)	(2)
Ahiri-Hindi	Ahir
Bahawalpuri	Bhawalpuri
Balti	Baltistani
Banarasi	Benarsi
Banjari	Benjari
Bashahri	Bisairi, Bishauri, Bisori, Bushari
Bharati	Bhartiya
Bhotia-Unspecified	Bhotiya
Binhari	Binari
Coorgi/Kodagu	Kurgi
Dogri	Dongari
Gorkhali	Gorkali, Gorkhi, Goruli
Gujarati	Gujrati
Gujari	Gujri
Gurmukhi	Gurwali

Note—(i) Mother-tongues printed in *italics* belong to countries outside the Indian Sub-continent.
(ii) Name occuring after hyphen (-) have been introduced by the Linguist to indicate groupings.
(iii) Asterisk (*) means that the mother-tongue is unclassified in Linguistic Survey of India.
(iv) Dagger (†) denotes that the mother-tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.
(v) Asterisk and dagger (*†) denotes that the mother-tongue is unclassified by Grierson but is tentatively classified by the Linguist.

TABLE C-VI

BILINGUALISM

C-VI—BILINGUALISM

Fly-Leaf

This Table presents the subsidiary languages spoken by persons having different mother-tongues. Apart from those who learn different languages from academic interest, there are also many who come to learn subsidiary languages as a consequence of migration to places far from their birth place and due to close contact with persons speaking different mother-tongues. When the country is seized of the problem of building up closer ties amongst its various constituents and to consolidate its basic cultural unity, these statistics assume a unique importance. This Table may be of great use in assessing and reorientating the social aspects of bilingualism.

2. At this Census, the information regarding subsidiary languages was collected through question 7(*b*) *Any other language(s)* provided in the Individual Slip. After recording the mother-tongue, the enumerator enquired whether the person knew any *other* Indian or foreign language(s). If he did, the names of such languages, not exceeding two in number, which he could understand well and use with facility in communication with others were recorded. Such language or languages excluded dialects of the same language. Two subsidiary languages were originally recorded in the Individual Slip, but at the sorting stage only the first language recorded was taken into account and the second language, if any, was ignored. The question on subsidiary language was introduced for the first time in 1931 which was *Other languages in common use* and included Indian and foreign languages which a person used. In 1941 the scope of the question was narrowed and it was framed as *Other Indian languages in common use.* At the 1951 Census the question was *Bilingualism* and the entry was further restricted to only one Indian language. In 1961 the restriction on recording a foreign language as 'any other language' was lifted, and the number of languages to be recorded was raised to two. The mother-tongues the speakers of which have reported any subsidiary language are represented in this Table in alphabetical order. The subsidiary languages shown against each mother-tongue have been arranged in order of number of speakers. The corresponding Table in 1951 was Table D-I Part (ii).

3. Out of 142 mother-tongues reported in Table C-V, the speakers of 114 mother-tongues also speak another language as subsidiary language. The total number of subsidiary languages reported is, however, 73 only. Out of them 62 have been reported as mother-tongues also, and are included in the 142 mother-tongues. Only 11 are different from them. They are Goruli, Hundiwali, Kaithi, Kannhuti (perhaps incorrectly written for Kanphati), Kothiwali, Malvi, Mora, Mundi-Hindi, Sarafi, Senthi and Shami. The foreign (out side Indian Sub-continent) languages returned as subsidiary at this Census are, Afghani/Kabuli/Pakhto/Pashto/Pathani, Arabic/Arbi, Burmese, Chinese/Chini, English, French, German, Italian, Japanese, Malai / Malay / Malaya / Malayan and Persian

TABLE C-VII

RELIGION

C-VII—RELIGION

Fly-Leaf

A question on religion has always been asked at every Census. The actual questions asked are reproduced below for all Censuses since 1872 :

1872—Religion

1881—Religion

Caste if Hindu, Sect, if of other religion

1891—Religion

Sect of Religion

1901—Religion

1911—Religion (and Sect of Christians)

1921—Religion

1931—Religion and Sect

1941—Religion

1951—Religion

1961—Religion

The question on religion appeared at number 5(*b*) in the Individual Slip in 1961. It was asked of every person and the answer noted in the slip. The instructions to enumerators were to use abbreviations in recording the names of six major religious communities namely, Hindus, Muslims, Christians, Jains, Sikhs and Buddhists and to record other religion in full. This Table gives for the State, Divisions and Districts the number of followers of each religion by sex for total, rural and urban areas separately. The corresponding Table of 1951 was D-II, also on the same pattern. The population of Hindus, Muslims, Christians, Sikhs, Jains and Buddhists have been given separately. Zoraostrians, Jews and persons of indefinite beliefs have been shown under 'Other religions and persuasions.' The details of combined figures for 'Other religions and persuasions' are, however, shown in the Supplement to the Table. Provision for 'Religion not stated' has also been made. The earlier Censuses were rather too pre-occupied with the compilation of information regarding various castes and sub-castes, sects and racial divisions. Even economic data used to be tabulated separately by religion. A complete departure was made in the 1951 Census. India having adopted a secular policy the study has been restricted to number of persons professing six main religions, which is essential from demographic point of view.

TABLE C-VIII PART A

CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

C-VIII PART A—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

Fly-Leaf

This is the last Table of C-Series—Social and Cultural Tables. Table C-VIII has two parts—Part A dealing with Scheduled Castes and Part B dealing with Scheduled Tribes. Since there are no Scheduled Tribes in this State, Part B of the Table has not been prepared, and only Part A is being printed. This Table presents the primary statistics of total Scheduled Castes in the State, Divisions and Districts by sex and for rural/urban areas separately. Detailed information relating to illiterates, literate and educated persons, workers among nine Industrial Categories and non-workers has also been given. Special Tables on Scheduled Castes, showing therein data for each caste separately will be presented in Census Publication No. V A of this State.

2. This Table is important from sociological angle as it depicts the achievement of Scheduled Castes towards literacy and education and their distribution by the economic activities in which they are engaged.

3. In 1951 there was only one Table for Scheduled Castes, namely, Table D-III, which only depicts their distribution by eight livelihood classes. At the 1951 Census, the castes laid down in Notification No. 6726/III-15(15)—1949 dated September 12, 1950 had been treated as Scheduled Castes. Similarly, at this Census castes in accordance with the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956 and the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956 have been treated as Scheduled Castes.
