1951 DISTRICT CENSUS HANDBOOK

DISTRICT AMRELI

Amreli district consisted at the time of the 1951 census of the area of Amreli and Okhamandal districts of the former Baroda State with the addition of Ghogho mahal from Ahmedabad district. The enclave villages of Saurashtra were added to Amreli and the enclave villages of Amreli were transferred to Saurashtra. Amreli district had a 1951 population of 317,203 and an area of 1634.2 sq. miles according to the area figure furnished by the Surveyor General of India.

This Handbook contains tables for Amreli district, compiled after the 1951 Census of India. The main results of the 1951 Census are embodied in the State Tables published for the States of Bombay, Saurashtra and Kutch. In this Handbook, the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this Handbook. :—

A—II Variation in population during fifty years.

A—IV Towns classified by population with variations since 190

D—IV Migrants.

In the E. Summary table, some columns have been omitted.

In the case of the C - series of tables, except C-I, the data were extracted on the basis of a sample count of approximately 10% of the census slips instead of a full count of all the slips. The C-I table was prepared from a four percent sample of the households recorded in the National Register of Citizens relating to each town or village.

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the Government of Bombay. In 1951, the basis of classification at the Census was changed from a social to an economic one, and the figures for villages given in the Primary Census Abstracts and in tables A-V, B-I, B-II, C-II and E, are according to the following eight Livelihood Classes:—

Agricultural Classes

- I Cultivators of land, wholly or mainly owned; and their dependants.
- II Cultivators of land, wholly or mainly unowned; and their dependants.
- III Cultivating labourers; and their dependants.
- IV Non-cultivating owners of land; agricultural rent receivers; and their dependants.

Non-Agricultural Classes

Persons (including dependants) who derive their principal means of livelihood from :—

- V Production other than cultivation,
- VI Commerce
- VII Transport,
- VIII Other services and miscellaneous sources.

Dependants, whether earning or non-earning, were classified at the census according to the principal means of livelihood of the persons on whom they were dependent.

The Primary Census Abstracts, which contain basic information in respect of every village and town, have been arranged according to talukas and petas, units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main census tables. Therefore, in the B, C and D series of tables, figures have been given for tracts and not for talukas and petas. Before sorting the census slips and tabulating the results, tracts were formed by combining the rural and urban areas of two or more talukas or petas. As Amreli was a small district, there were only two tracts, one consisting of all the rural areas and the other consisting of all the urban areas of the district.

Urban areas comprise the towns shown in table A-V.

Shortly before the 1951 population census, a census of Small Industries was taken, and the results of this census are given in the table called "Small Scale Industries Census-Employment in Establishments", included in this Handbook

The intention was to find out something about Cottage and Home Industries and small workshops. The larger establishments, that is, power-using establishments with 10 or more workers and non-power using establishments with 20 or more workers, were excluded from the scope of the enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. If even one loom was used a return was required. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

- Notes:—**
1. The area of the district of Amreli as communicated by the Surveyor General of India is 1,634.2 sq. miles. The area figures shown in column two were obtained from the District Inspector of Land Records or from Local records.
 2. The number of villages shown in column 3 is the number of revenue villages excluding uninhabited villages and villages which form part of municipal areas.
 3. The number of towns given in column 4 is the number of towns shown in table A-V. In general, a town means a municipal area, cantonment area or a place which has a population of 5,000 or more persons and exhibits urban characteristics.

and Population.

42,424	16,457	25,967	21,817	8,362	13,455	20,607	8,095	12,512

4. The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.
 A house for census purposes meant "a dwelling with a separate main entrance".
 Thus more than one household might be found in the same census house.

DISTRICT AMRELI

Note:—Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he, (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Any one who was not a self-supporting person in this sense was a dependant. A dependant might be either an earning dependant or a non-earning dependant. The test was whether he secured a regular income even though it might be small. Where the income which he secured was not sufficient to support him that person was an earning dependant. A person who did not earn any income either in cash or in kind was a non-earning dependant.

**ECONOMIC TABLE—B-III—EMPLOYERS, EMPLOYEES AND
BY DIVISIONS AND**

DISTRICT

NOTES :—1. In this table, the self-supporting persons in the non-agricultural classes have been classified according to the productive industries and services in which they were engaged. In addition to the 36,169 self-supporting persons shown in the table 1,614 self supporting persons derived a livelihood from unproductive activities as shown below :—

Non-productive means of livelihood:	Persons.	Males.	Females
(1) Persons living on income from non-agricultural property ...	176	26	150
(2) Persons living principally on pensions remittances, scholarships and funds ...	187	187	...
(3) Inmates of jails, almshouses & recipients of doles ...	56	56	...
(4) Beggars & vagrants ...	887	660	227
(5) All other persons living principally on incomes from non-productive activities ...	308	287	21

INDEPENDENT WORKERS IN INDUSTRIES AND SERVICES
SUB-DIVISIONS

21

AMRELI

2. The census definitions of the terms employer, employee and independent worker were as follows :—

Employer : A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason.)

Employee : A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livelihood.

Independent worker : A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

DISTRICT INDEX OF NON-AGRICULTURAL OCCUPATIONS

DISTRICT AMRELI

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index

The index should be read with Economic table B—III. 1,614 self-supporting persons derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column '2' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme

Occupation 1	Group Code No. 2	Population		
		Persons 3	Males 4	Females 5

Primary Census Abstracts

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. They are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the District Inspector of Land Records of Amreli or from local records. The area of Amreli district as calculated by the Surveyor General of India is 1,634.2 sq. miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in table D-VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. In addition, mistakes seem to have occurred while extracting literacy figures for villages in the Tabulation Office. The percentage of literacy in the district was 29.71% according to table D-VII. It was 29.26% according to sample table C-IV, and 28.49% according to the Primary Census Abstracts.

Information contained in columns 29 to 33 has been extracted from the data collected for each village by the Bombay District Gazetteer's (Revision) Editorial Board.

The following abbreviations have been used in the abstract :—

M. for Municipality.
P. S. for Primary School.
V. P. for Village Panchayat.
C. C. S. for a Co-operative Credit Society.
C. S. for a Co-operative Society of any other kind.

Sun. for Sunday.
Mon. for Monday.
Tues. for Tuesday.
Wed. for Wednesday.
Thurs. for Thursday.
Fri. for Friday.
Sat. for Saturday.

Note.—The Census of Small Scale Industries was done by revenue officials in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the Small Scale Industries carried on in the District.
