

Census of India, 1951

DISTRICT POPULATION STATISTICS

UTTAR PRADESH

49—SULTANPUR DISTRICT

ALLEN LAD :
PRINTED AND BOUND AT THE GOVERNMENT PRESS, LUCKNOW, UTTAR PRADESH, INDIA

FOREWORD

THE Uttar Pradesh Government asked me in March, 1952, to supply them for the purposes of elections to local bodies population statistics with separation for scheduled castes (i) mohalla/ward-wise for urban areas, and (ii) village-wise for rural areas. The Census Tabulation Plan did not provide for sorting of scheduled castes population for areas smaller than a tehsil or urban tract and the request from the Uttar Pradesh Government came when the slip sorting had been finished and the Tabulation Offices closed. As the census slips are mixed up for the purposes of sorting in one lot for a tehsil or urban tract, collection of data regarding scheduled castes population by mohallas/wards and villages would have involved enormous labour and expense if sorting of the slips had been taken up afresh. Fortunately, however, a secondary census record, viz. the National Citizens' Register, in which each slip has been copied, was available. By singular foresight it had been prepared mohalla/ward-wise for urban areas and village-wise for rural areas. The required information has, therefore, been extracted from this record.

2. In the above circumstances there is a slight difference in the figures of population as arrived at by an earlier sorting of the slips and as now determined by counting from the National Citizens' Register. This difference has been accentuated by an order passed by me during the later count from the National Register of Citizens as follows:—

(i) Count Ahirwars of Farrukhabad District, Raidas and Bhagat as 'Chamars'.

(ii) Count Bhangi, Khakrob, Sweepers, Harijan, Mehtar, Jamadar and Achhut as 'Balmikis'.

The fact, that some members of the scheduled castes had returned their caste by names which did not find place in the schedule as notified under section 341 of the Constitution of India, came to my notice during the course of the earlier sorting, but at too late a stage to enable me to pass definite and uniform orders. I have tried to rectify it by passing this order for the purpose of counting from the National Citizens' Register.

The differences in the figures of the two counts have been clearly set out in the tables that follow.

3. The figures of total population of mohallas/wards have been arrived at by actual counting from the National Citizens' Register, while the figures of total population of villages are those determined by actual sorting of the slips and recorded in the *Primary Census Abstract*.

4. In the *Summary of Urban Population* the code number of each town has been given. The first element of the code gives the code number of the district, the second the code number of the tehsil (or towns of over one lakh population) and the third the code number of the town (other than a town of one lakh population). The key to the code numbers of tehsils will be found in the *Summary of Rural Population*.

RAJESHWARI PRASAD, I.A.S.,

Superintendent, Census Operations,

Uttar Pradesh.

RAMPUR :

July 23, 1952.
