## INTRODUCTORY NOTE

This volume entitled Part II-C (i) and Part V-A includes the social and cultural tables C-V Mother-tongues, C-VII Religion, C-VIII Scheduled Castes and Scheduled Tribes and special tables on Scheduled Castes. All these tables have been prepared on full count basis. No tribe has been scheduled in the Presidential Order in relation to union territory of Delhi. The remaining social and cultural tables and the tables on fertility will be presented in Part II-C (ii) volume.

Prior to 1961 Census, there were no special tables for Scheduled Castes/Scheduled Tribes except table D-III of 1951 giving the total number of persons belonging to Scheduled Castes and Scheduled Tribes and their distribution amongst the eight livelihood classes adopted at 1951 Census for certain rural and urban tracts. At 1961 Census, special tables were prepared to present the data for each Scheduled Castes/Scheduled Tribe and their classification by Industrial Category, religion, age, marital status and education. There was also a table on household cultivation for the total Scheduled Castes.

The following tables are presented in this volume :

C-V Part A (i)	Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India for Union Territory.	C-VIII Part A	Classification by literacy and industrial category of workers and non-workers according to main activity among Scheduled Castes.
Part A (ii)	Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India for Union Territory, tehsils and towns.	Appendix I to table C-VIII Part A	Scheduled Castes classified by literates and illiterates for Union Territory.

SC-I Part A	Industrial Classification of persons at work and non-workers by sex for Scheduled Castes (Rural).
C-VII	Religion.	SC-I Part B	Industrial Classification of persons at work and non-workers by sex for Scheduled Castes (Urban).
Appendix to table C-VII	Details of combined entries in columns 18 & 19 under 'Other religion and persuasions' of table C-VII.	SC-II	Age and Marital Status for Scheduled Castes.

		SC-III Part B	Education in rural areas only for Scheduled Castes.
		SC-IV	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes.
			In 1961, there was one table on religion for Scheduled Castes and another table showing sample households engaged in cultivation classified by interest in land and size of land cultivated in rural areas only for Scheduled Castes. At the time of 1971 Census, these tables have not been attempted.
			Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the Constitution according to which the President may with respect to any State or Union Territory and where it is a State after consultation with the Governor thereof, by public notification, specify the Castes, Races or Tribes or parts of or groups within Castes, Races or Tribes which shall for the purpose of constitution be deemed to be Scheduled Castes in relation to that State or Union Territory, as the case may be.
			For the purpose of 1971 Census also, the Scheduled Castes and Scheduled Tribes lists (Modification) Order, 1956 adopted at the time of 1961 Census, was adopted. According to this order, the following 36 castes are recognised as Scheduled Castes throughout the Union Territory of Delhi.

Delhi union territory being one district territory, the union territory figures represent districts figures also and as such district-figures have not been presented separately in the tables. The data have also been presented upto town level in all these tables.

The statistics presented in the social and cultural tables and the special tables on Scheduled Castes give a variety of information which may prove very useful to research scholars and other data users.

**SOCIAL & CULTURAL TABLES**

**TABLE C-V MOTHER-TONGUES OF 1971 CENSUS**

## TABLE C-V MOTHER-TONGUES OF 1971 CENSUS

**Part A** : Distribution of languages (inclusive of mother-tongues grouped under each) specified in schedule VIII to the Constitution of India.

**Part B** : Speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those specified in schedule VIII to the constitution of India.

### FLY-LEAF

These tables correspond to the all-India language tables of the census of India 1951 published in Census of India Paper I of 1954 and the language tables C-V of the census of India 1961 published in volume I Part II-C (ii)—Language tables and volume XIX—Delhi Part II-C Cultural and Migration tables.

The question on mother-tongues at the 1971 census and instructions to enumerators were as follows.

#### Question 14 : Mother-tongue

**Definition :** Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned. If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

*Tabel C-V Part-A* is in two sections : (i) showing the distribution of speakers of languages (inclusive of mother-tongues grouped under each) specified in Sche-

dule VIII to the Constitution of India for the Union Territory separately for total, rural and urban areas cross-classified by sex and (ii) showing the distribution of speakers of these languages for Delhi Union Territory, two tehsils and three towns in the Union Territory for total areas only cross-classified by sex. The data for the rural areas of tehsil have been presented.

*Table C-V Part-B* presents speakers of langauges/mother-tongues (inclusive of mother-tongues where grouped) other than those shown under Part A for the Union Territory, tehsils and towns. This table is also being presented in two sections (i) showing the speakers of these languages/mother-tongues for the Union Territory for total, rural and urban areas cross-classified by sex and (ii) showing the distribution of these languages/mother-tongues for total areas of Delhi Union Territory, tehsils (rural only) and towns cross-classified by sex.

Delhi Union Territory is a one district territory and, therefore, the Union Territory figures represent district figures also.

In both parts A & B, mother-tongues have been grouped in some cases under the relevant language(s). This has been done on the basis of information readily available or in the light of studies already made. Those 'identifiable' mother-tongues which returned 10,000 or more speakers each at the all-India level have been grouped in parts A and B as shown below.

#### Part A :

BENGALI—Chakma

HINDI—Awadhi, Bhojpuri, Braj Bhasha, Bundelkhandi, Chhattisgarhi, Garhwali, Haryanvi, Hindustani, Jaipuri, Jaunsari, Kangri, Kulvi, Kumauni, Madhesi, Magadhi/Maghi, Mai-thili, Mandeali, Marwari, Mewari, \*Pahari, Rajasthani, Sadan/Sadri.

PUNJABI—Bagri

SINDHI—Kachchhi

#### Part B :

LAHNDA—Multani

TRIPURI—Reang

All other mother-tongues falling under Part B and which returned less than 10,000 speakers each at the all-India level or were not 'identifiable' on the basis of information available as of date are included in the category 'Others' occurring as the last entry in Part B.

\*PAHARI is a combination of various speeches spoken over long stretches of areas where the speakers preferred to give a general name as Pahari. Similar is the case with KUKI appearing in table C-V Part-B and marked by asterisk therein.

**TABLE C-VII RELIGION**

**TABLE C-VII RELIGION**

**FLY-LEAF**

This table corresponds to table C-VII of 1961 and D-II of 1951 Censuses. The table gives sexwise distribution of population for each of the six numerically important religious communities of India viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs for the union territory, tehsils, urban agglomeration and towns. Figures have been presented for total, rural and urban areas separately.

The 1971 instructions to the enumerators for filling-up the question on religion was :

**"Question 10 : Religion**

In answering this question use the following abbreviations :

H : Hinduism  
I : Islam  
C : Christianity  
S : Sikhism  
B : Budhism  
J : Jainism

for other record the actual religion as returned fully.

If a person says that he has no religion, it may be recorded accordingly. Do not mistake religion for cast which will not be recorded here."

Figures of other religions have been grouped together in the column 'other religions and persuasion' whereas those who did not report their religion are shown under 'Religion not stated'. The details of

'Other religions and persuasions' are given in an appendix to this table for the union territory, tehsils, urban agglomeration and towns.

In some cases, instead of the six main religions, their sects/sub-sects were returned. Such returns were clubbed with main religion while tabulating the data. The annexure to this table gives the details of the sects/sub-sects with the main religions for the union territory, tehsils, urban agglomeration and towns.

The six main religious communities arranged in order of their numerical strength are given below along-with sex ratio and decadal growth rate during (1961-71) for Delhi Union Territory.

Religious Community	Persons	Males	Females	Sex ratio	Decadal growth rate (%)
					1961-71

#### FLY-LEAF

This table corresponds to table C-VIII (Part A and B) of 1961 census and D-III of 1951. The table gives the total population of scheduled castes and scheduled tribes and illiterates, literate and educated persons, workers and non-workers among scheduled castes and scheduled tribes. The workers are further classified into nine industrial categories. Part A relates to scheduled castes and Part B is not applicable in case of Delhi as no tribe has been scheduled in the territory. Data are presented for total, rural and urban areas separately by sex for the Union Territory, Tehsils, Urban Agglomeration and Towns.

This table is followed by two appendices which give castewise population cross-classified by literacy. Appendix I gives the information for the Union Territory and the appendix II for Tehsils, Urban Agglomeration and Towns. The figures have been compiled for total rural and urban areas by sex.

The question adopted in the 1971 census to elicit information about members of scheduled castes and scheduled tribes was :

Question 11 : Scheduled Caste or Scheduled Tribe  
Instructions to enumerators to record answer to this question were as follows :

"You have been furnished with a list of scheduled castes and scheduled tribes notified for your state. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or schedule tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by a synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan', or 'Achhut'. You should ascertain the name of the caste and when it is returned write it in the rectangle provided for recording the same. Similarly, do not write the names of scheduled tribes in general terms as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the name. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is

not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the areas, he will not be entered as a scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion."

In the 1961 Census, the enumerators had been provided with a set of synonyms and generic names of the scheduled castes and scheduled tribes so that a person who returned his caste or tribe by any synonym or generic name was enumerated as scheduled caste or scheduled tribe, irrespective of whether such synonym or generic name found a place in the notified list. In the 1971 census, however, in view of a Supreme Court Judgement on the subject, the notified list of Scheduled Castes and scheduled tribes, applicable to each state and union territory had to be strictly followed and the synonyms or generic names of such communities could not be recognised for purpose of enumeration as scheduled caste or scheduled tribe. There is, therefore, a possibility that despite specific instructions to enumerators to make all efforts to elicit the correct name of the caste or tribe, some persons might have returned themselves by some synonym, local name or generic name and suffered omission from enumeration as a member of scheduled caste or a scheduled tribe.

In spite of specific instructions on the subject, it was found that in some individual slips of scheduled castes and scheduled tribes, the name of caste or tribe was not entered and returns in general terms as 'Harijan', 'Adivasi', 'Achhut', etc., were found. There was, however, no doubt that the person so returned did belong, in fact, to a scheduled caste/scheduled tribe. Such returns were treated as 'Unspecified' scheduled castes or scheduled tribes, as the case might be.

The figures presented in this table have been obtained by a cross tabulation of the above question with the following questions which related to social and economic data :

Question 3 :	Sex
Question 12 :	Literacy
Question 16 :	Main Activity

The nine broad industrial categories or workers adopted at the 1971 census were :

- I—Cultivators
- II—Agricultural Labourers
- III—Livestock, forestry, fishing, hunting & plantations, orchards & allied activities
- IV—Mining & quarrying
- V—Manufacturing, processing, servicing and repairs (a) at household industry and (b) other than household industry.
- VI—Construction
- VII—Trade and Commerce
- VIII—Transport, storage and communications
- IX—Other services

#### *Workers defined*

The definition of a 'Worker' in the 1971 census is different from that of 1961. In the 1961 census, a person was considered as a 'worker' according to his participation in any economically productive work. In the case of regular employment in any trade, profession, service, business or commerce, a person was taken as a worker if he was employed during any of the 15 days preceding the day on which he was enumerated. An exception to the 15 days' period to reckon one as worker had been made in 1961 in the case of seasonal work like cultivation, livestock, dairying, household Industry, etc. In such cases if a person had put in an hour's regular work a day throughout the greater part of the working season, he was considered a worker. "Work" included not only actual work but also effective supervision and direction of work. A person might be working as a cultivator or as an agricultural labourer or at a household Industry or might be doing any other work. He might be engaged either in one or more than one of the above. A full-time student who spent some time in his father's shop for even a day during the reference period of a fortnight was considered as a "worker". Similarly, if a woman who was basically engaged in household duties also engaged herself in work such as pounding rice for sale or wages, or in domestic services for wages for others, or minding cattle or selling firewood, or making and selling dung cakes, grass, or any such work, she was also treated as a "worker". Thus in the 1961 census a

person was categorised basically as a "worker" even if such a person's contribution to work was extremely marginal.

In the 1971 census every individual was asked to declare what according to him was his "main activity", i.e., how he engaged himself mostly. Accordingly, all persons were divided into two broad streams of main activity as 'workers' and 'non-workers'. A "worker" was defined clearly as a person whose "main activity" was participation in any economically productive work by his physical or mental activity. "Work" involved not only actual work but effective supervision or direction of work. The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during the week preceding the day of enumeration and this had been returned as his "main activity", the person was classified as a worker and categorised accordingly. A person who normally worked out but had been absent from work during the reference period on account of illness or travel, holiday, temporary breakdown, strike, etc., was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as working. A person who was offered work but did not actually join it, was not treated as engaged in work. In respect of seasonal work like cultivation, livestock keeping, plantation, some types of household industry, etc., which are not carried on throughout the year, a person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration.

#### *Secondary work*

In 1971, a person was treated basically as a "Non-worker" if he or she did not come under any of the categories of "worker" mentioned above. Thus a person engaged primarily in household duties such as cooking or one's own household, or performing one's own household duties, or student attending an institution, or a rent receiver, was classified as such for his main activity and was treated as "non-worker". If he was also engaged as a full-time worker that activity was mentioned under the head of "secondary work". The secondary work, if any, of those who were basically classified as "workers" was also ascertained.

**FLY-LEAF**

This table gives the distribution of Scheduled Caste population by sex and economic activity for all the Scheduled Castes as a group as well as for each Scheduled Caste separately. The presentation of Scheduled Castes is in alphabetical order and the names of the Scheduled Castes as they appear in the Presidential order are shown in this table.

The question adopted in the 1971 census to elicit information about members of scheduled castes and scheduled tribes was :

Question 11 : Scheduled Caste or Scheduled Tribe

Instructions to enumerators to record answer to this question has been given in fly-leaf to table C-VIII.

The distribution of Scheduled Caste population by economic activity has been presented for workers and non-workers. The workers are further classified into nine broad industrial categories—the details of which are given in the fly-leaf to table C-VIII.

This table is prepared in two parts—Part-A for rural areas and Part B for urban areas. The data have been presented for rural and urban areas of the Union territory and its three towns namely N.D.M.C., Delhi Cantt. and D.M.C.(Urban).

This table corresponds to table SCT—I Part-A of 1961 in which additional information for the number of persons belonging to each Scheduled Caste engaged in the special occupations like (i) Tanning and currying of hides and skins and (ii) scavenging was also given.

Question 4 : Age

Question 5 : Marital Status

The marital status adopted at the 1971 Census were:

This table corresponds to table SCT-II Part A of 1961 and presents the data for three broad age-groups 0-14, 15-44 and 45+, and 'Age not stated' further cross-classified by marital status.

This table was required to be prepared for 'Total' only but data have been presented for Total/Rural/Urban areas of Delhi Union Territory and its three towns namely New Delhi Municipal Committee, Delhi Cantt. and Delhi Municipal Corporation (Urban).
