The 1991 Census of Population was conducted in February-March 1991, with the sunrise of 1st March, 1991 as the reference point of time. Extensive tabulation of the data collected in the Census has been undertaken by the Census Organisation and the tabulated data in the form of tables under different Series depicting various characteristics of the population are being made available to data users through a number of publications according to the Tabulation Plan of the 1991 Census.

In this volume, Table C-9 : Religion which gives the distribution of population by sex and by rural and urban residence for the six major religious communities viz., Hindus, Muslims, Christians, Sikhs, Buddhists and Jains, 'Other Religions and Persuasions' and 'Religion not stated' is presented. The returns of religions were initially compiled at the Regional Tabulation Offices established to undertake the manual processing of the census schedules and for attending to few basic compilations on full count basis and further processing of the returns and preparation of the table were undertaken in this Directorate.

The 1991 Census Operations in Karnataka was conducted under the overall supervision of Ms. Sobha Nambisan, IAS, Director of Census Operations, who left this organisation to take up an assignment with Government of Karnataka. The processing of data on religion and preparation of table presented in this volume were completed during her tenure.

## **INTRODUCTORY NOTE**

## INTRODUCTORY NOTE

Religion is one of the basic cultural characteristics of the population. In a secular state like India, several religions have thrived and every decennial census provides an interesting picture of religious persuasions of the people of the country. The data on religion yielded by the census are of great interest to the public as well as to the scholars, anthropologists, sociologists, demographers, administrators, planners etc.,

At the 1991 Census, the returns of the religion of the persons enumerated were collected through question number 8 of the Individual Slip. Census enumerator had instructions to record the religion as actually returned by a respondent. The instructions to enumerators for filling up of question 8 on religion are given below.

"In answering this question, use the following abbreviations:

- H for Hindus
- M for Muslims
- C for Christians
- S for Sikhs
- B for Buddhists
- ] for Jains

For others, record the actual religion as returned fully. If a person says that he has no religion the answer may be recorded accordingly. Do not mistake religion for caste which will not be recorded here. You should also not try to establish any relationship between religion and mother tongue. Do not write anything in the dotted boxes, but write on the line".

Further, the enumerators were also instructed to copy the returns regarding religion of an individual from question 8 of Individual slip to column 9 of Household Schedule. The instructions in this regard were as follows:

"For a person entered in col. 2 of the Household Schedule, check if H, M, C, S, B and J or actual religion returned by the person has been recorded in question 8 of the Individual Slip. If so, copy the same in column 9 of the Household Schedule".

The processing and basic compilations of the religion data were undertaken in the Regional Tabulation Offices established to manually process and compile the 1991 census data. The editing and matching instructions issued to the tabulation staff in the Regional Tabulation Offices for processing religions returns are reproduced below:

### "Question 8 Religion"

Match the entry in col. 9 of the Household Schedule for each member of the household with corresponding entry against Q. 8 of Individual Slip. Please note that this check will be made for all types of households, whether normal, or institutional or houseless. If these are not the same for any member of the household, correct the entry in column 9 of Household Schedule on the basis of the entry in Question 8 of Individual Slip. If the entry in either of the Individual Slip or Household Schedule is missing for any member of the household, copy the entry from the Schedule in which it has been written into the Schedule in which it has been missed. If by chance the entry is blank in both the Individual Slip and Household Schedule for any member of the household, look into the entries of religion in respect of other related members of the household and write the religion indicated therein in both the Schedules."

After a thorough editing of the return against Question 8 of the Individual Slip and editing and matching of the entries in column 9 of the Household Schedule following the instructions reproduced above, the religion data for Table C-9 have been compiled from the Individual returns of the religion available in column 9 of the Household Schedule. Table C-9 Religion is prepared on a Full count basis.

The percentage of population in the total population of state accounted for by each of the six major religious communities viz., Hindus, Muslims, Christians, Jains, Buddhists and Sikhs along with "Other Religions and Persuasions" and "Religion not stated" at 1991 census is given below.

The distribution of population of six major religious communities between rural and urban areas as follows:

Religious communities	Rural population	Percentage to total rural population	Urban population	Percentage to total urban population
1	2	3	4	5
Hindus	28,132,846	90.55	10,299,181	74.05
Muslims	2,329,321	7.50	2,904,702	20.89
Christians	327,512	1.05	531,966	3.82
Jains	188,389	0.61	137,725	0.99
Buddhists	61,007	0.20	12,005	0.09
Sikhs	1,226	N	8,875	0.06

For the benefit of the reader two statements are provided. Statement-1 shows the growth of six major religions, Other Religions and persuasions and Religion not stated during 1981-91 and Statement-2 furnishes the population by sex of each of the six major religions, Other Religions and Persuasions and Religion not stated for India and each of the states and union territories. It may be mentioned here that at the 1981 census, Table C-9 Religion was not brought out. Therefore for comparison and working out growth rates in Statement-1, figures from Table HH-15 Household population by religion of the head of the household of the 1981 census have been taken. Table HH-15 of the 1981 census was based on the religion of the head of the household as given in the Household Schedule of 1981 census, whereas Table C-9 of 1991 Census is based on the religion of the individuals contained in column 9 of Household Schedule.

Further, it may also be borne in mind that the figures of total population and population of the religions of certain districts for the 1981 census have been adjusted to the jurisdiction prevailed at the 1991 census, for facilitating comparison. The total number of districts in the State which was 19 in 1981 increased to 20 in 1991 owing to the

creation of a new district called Bangalore Rural district from areas carved out from the district of Bangalore. In this process, the jurisdictions of Bangalore North, Bangalore South, Devanahalli, Nelamangala, magadi and Hoskote taluks have undergone considerable changes. Besides, two revenue villages Shtawade, Adhall and a portion of Akrali village of Khanapur taluk of Belgaum district were transferred to Supa taluk of Uttar Kannada District during the inter censal period 1981-1991.

In cases, where jurisdictional changes have occurred, for purposes of adjusting the population figures, religion figures etc., to the current jurisdiction, normally, actual figures at the previous census pertaining to the areas transferred are subtracted from the taluk/district from which the areas have been transferred and added to the taluk/district to which the areas in question are transferred. However, owing to the non-availability of the village-wise religion figures of 1981 census, the religionwise population figures of the areas transferred were estimated on the basis of religious composition of the taluks to which the areas belonged to before the transfer and the 1981 census religion data presented in Statement-1 are recast on the basis of the estimated figures.

## NOTE ON RELIGION TABLE

This table corresponds to Table C-VII Religion of 1961, 1971 and Table HH-15 of 1981. The religion figures for 1961, 1971 and 1991 are based on returns of religion of the Individuals, whereas 1981 census figures from Table HH-15 are based on religion of the head of the household.

The C-9 religion table gives the data for persons, males and females separately for each of the six major religious communities Viz., Hindus, Muslims, Christians, Jains, Buddhists, Sikhs and the combined figures for 'Other Religions and Persuasions' and 'Religion not stated' for the state, districts and taluks by total, rural and urban breakup and for Towns, Cities and Urban Agglomerations in each of these administrative units. This table is followed by two appendices and an annexure. The figures of other religion have been grouped together in the column 'Other Religions and persuasions'. Details of other religions and persuasions, the strength of which at the State level is 100 and above each appear in Appendix-A accompanying the table. In case of each of the remaining faiths the strength of which is less than 100, the total population of each is given in Appendix-B. The Annexure which follows this table gives the details of sects, beliefs or religions clubbed with another religion which is shown at the head of the table in the block letters.
