TOWN & VILLAGE DIRECTORY

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

JUNAGADH DISTRICT

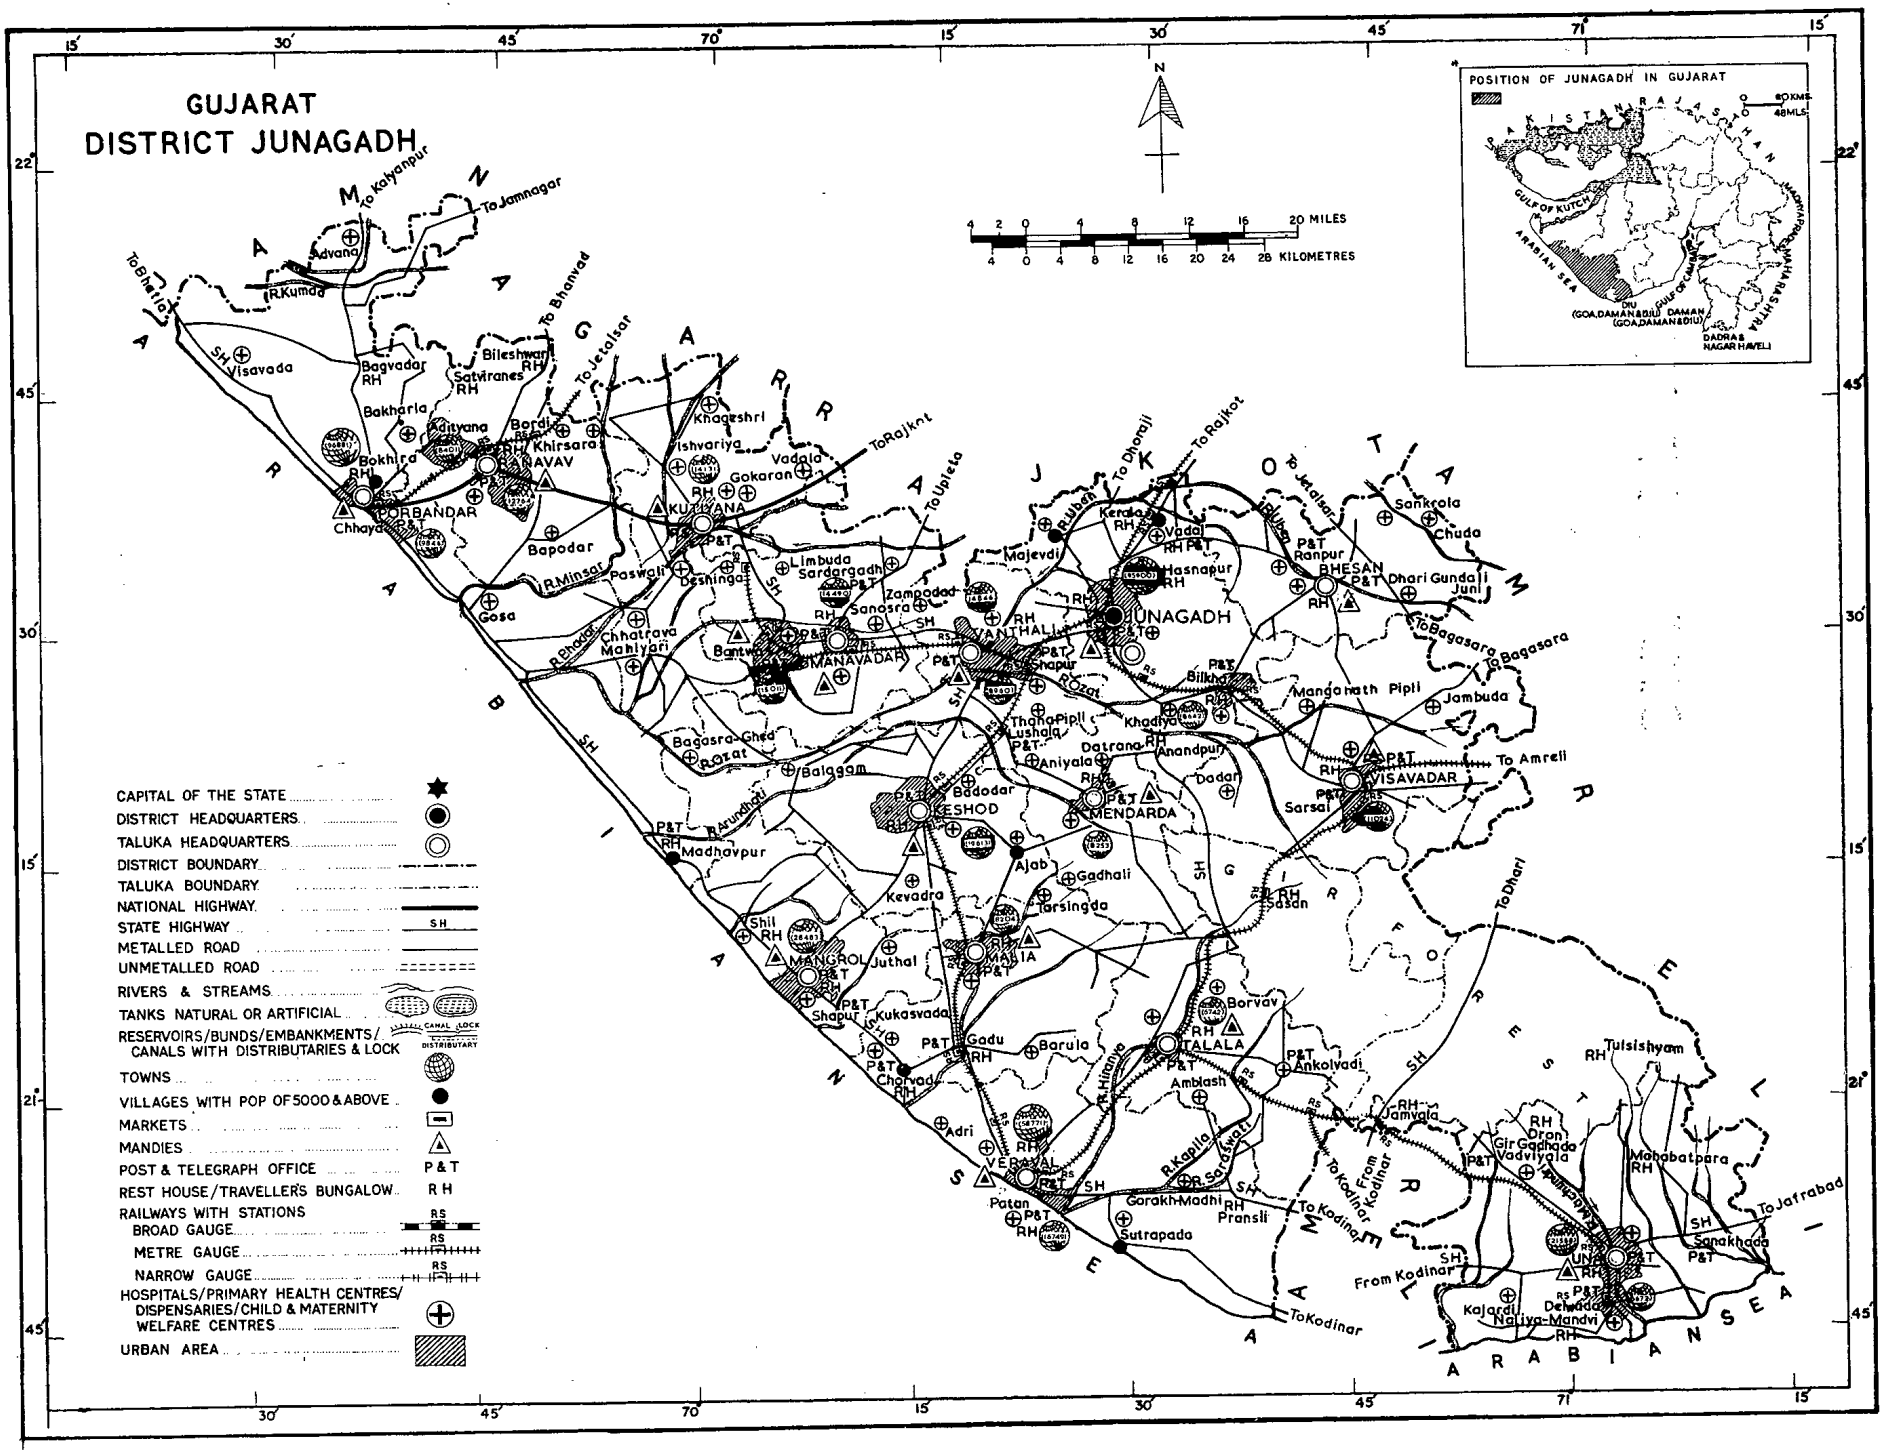

The Saurashtra region of Gujarat and particularly Junagadh is famous for its woollen blankets. They come usually in two colours, the black being more commonly known as Kambal *and the white or other pastel shaded type being known as* Dhabala. *The* Dhabala *is particularly associated with the Rabaris whose creative genius it is that produces among the most exquisite of these products. The most common* Dhabalas *are plain ones with borders in numerous colours and with a white or black base and multicoloured woollen* fumtas (*fringes*).

A race of cattle breeders tracing their ancestory to Marwar, the Rabaris are found chiefly in the forest areas of Alech, Gir and Barda hills of the Jamnagar and Junagadh Districts. They make their living chiefly from the sale of ghee (clarified butter) milk and milk products. The endless hours and long marches spent in following their cattle from grazing ground to grazing ground are fruitfully utilised in handspinning the yarn which is ultimately woven into a Dhabala.

Illustrated on this volume is the border of a Rabari-made Dhabala.

(Block from an ink tracing by K. D. Vaishnav,
Geographer, from a photograph).

PREFACE

The District Census Handbooks are being published regularly since 1951. Earlier they were brought out under the name of "Village Handbooks" and contained only the population totals. They are prepared by the Census Organisation on behalf of the State Government and published by the latter. They are the first to be published in the series of 1971 Census publications, which are now to follow. The need for making available to the State Government, the Census data as early as possible after the taking of the count, has been recognised since long. It is a matter of deep satisfaction that the present volume is being published within a year of the taking of the Census.

The data collected during 1971 Census was tabulated initially at three Regional Tabulation Offices at Surat, Rajkot and Bhavnagar for rural areas and one more Tabulation Office at Ahmedabad which dealt with the slips of urban areas only. The data abstracted at the Regional offices was brought to Ahmedabad where it was compiled for the State as a whole and is now being published.

The District Census Handbook contains primary data upto the village level for rural areas and enumerator's block level for urban areas. It is for the first time that in 1971 Census we are giving information about urban areas of the State in a separate part called the 'Town Directory". We are also giving comprehensive information about rural areas in the "Village Directory". This is further supplemented by the Alphabetical List of Villages for facility of reference.

It has been decided to bring out the District Census Handbooks of 1971 in three parts as under :—

Part A

(1) Town Directory

(2) Village Directory

Part B

(1) Urban Block and Villagewise Primary Census Abstract

Part C

(1) Analytical Report

(2) Administrative Statistics

(3) Census Tables

It was originally decided that each part would be brought out separately. But since the data for parts A and B has been prepared almost at the same time, it is decided to combine these parts into one volume. Part C which has to await the collection of official statistics from various Departments of the State Government and preparation of Census Tables, would be published separately.

The Town Directory consists of information about the status, growth history and functional category of towns and their physical aspects, location, Municipal finances, civic and other amenities like sewerage, protected water supply, fire fighting service, electrification etc. It also contains information about medical, educational, recreational and cultural facilities available at the towns. Detailed information about trade, commerce, industry and banking is also provided here. The population of the towns according to 1971 Census by religion and Scheduled Caste and Scheduled Tribe is furnished here. The Town Directory is a new feature of 1971 Census and the above information has been compiled in it for the first time.

The Village Directory contains comprehensive information about the amenities available at the village such as educational and medical, supply of electric power, drinking water facility, communication through road, rail, kutcha road, pucca road and bus route, existence of post, telegraph and telephone facilities, etc. Further information about staple food, area under various

uses like forest, cultivable land, source and extent of irrigation, cultivable waste and name of the nearest town and its distance, day on which 'bazar' is being held, if any, and its importance from religious, historical and archaeological point of view is recorded here.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Caste and Scheduled Tribe population and the distribution of working population into nine industrial categories of workers and non-workers.

The Analytical Report in Part C takes note of the social, economic and demographic changes which have occurred in the District during the last ten years. The administrative statistics are obtained from various Departments of the State Government and presented in this part which also incorporates a few of the tables generated from the data derived during 1971 Census.

There are 217 towns in Gujarat and 18,709 villages. Compilation of data for such a large number of units within such a short time was indeed a formidable task. The terms and definitions used in the schedules of the Directories were carefully studied and detailed instructions with explanatory notes, about the manner in which they were to be filled, and the source from which data was to be collected were issued by this Directorate to the Taluka Development Officers. The collection of land use data and tallying of area figures for each administrative unit presented an uphill task. The Settlement Commissioner and Director of Land Records was requested in August 1969 to confirm some of the presumptions and furnish necessary guidelines to this Organisation as to how the various figures required could be culled out from the revenue forms maintained at village level.

The printed forms of Village Directories were sent to the Taluka Development Officers with a request that they should be filled by the village officials and scrutinised at taluka level by the Statistical Assistant before returning to this office. The Development Commissioner and the Director, Bureau of Economics and Statistics, issued firm instructions to the field staff to ensure that the information was filled and scrutinised with the utmost care. After this information was received in the Census Directorate, it was subjected to a very close and rigorous checking by a cell which was specially created for the purpose. There were a number of points on which further probe became necessary, where the information was found to be incomplete or inconsistent. Our greatest hurdle was the reconciliation of area figures as reported by the village officials and those reported by the District Inspector of Land Records. A series of meetings had to be held at each District Headquarter, where the Deputy Director in charge of the District Census Handbook Unit had to remain present and point out the glaring inconsistencies reported to the Taluka Development Officers and District Inspectors of Land Records. Thanks to the dedicated efforts of all concerned, we were ultimately able to reconcile completely the area figures for each Village, Taluka and District.

It was noticed that there were minor differences in the spellings of village names reported by the Mamlatdar, Taluka Development Officer and District Inspector of Land Records. Similar differences were also noticed in the total number of villages reported by each agency. These discrepancies were reconciled on the basis of the list of villages published by Revenue Department, information obtained from taluka offices and other published sources. Location code number was given to each administrative unit at the time of taking of the Census in order to avoid repetition of their names.

The Census Directorate had obtained village-wise data relating to drinking water facility, primary and secondary school, post, telegraph and telephone, electrification etc, from the concerned Departments. The data reported in the Village Directory was cross-checked with the

official data to make it accurate and upto date. The data so processed was ultimately posted in the Village and Town Directory statements and typed in four copies. The typed data was again compared with the original manuscripts by a special cell handpicked for the purpose. The taluka totals for the area and amenities have been struck for each column. A number of inset tables have been prepared and included in the note to the District Census Handbook, as desired by the Registrar General, India.

The Town Directory statements were likewise scrutinised by a special cell in the Directorate, and the local authorities were asked to reconcile incomplete or inconsistent information wherever necessary. On account of the instructions issued by the Director of Municipalities, these references received immediate attention. The figures reported by the Municipalities have been cross checked with available statistical data.

Maps

No District Census Handbook can be complete unless it is accompanied by District and Taluka maps. We have, therefore, included at the beginning of each volume a District map showing the taluka boundaries, location of towns and large villages with population size 5000 +, communications, water features etc., and an inset map showing the position of the District in the State in hatching. A Taluka map is inserted before the Primary Census Abstract of each taluka, indicating the boundaries of each village and town within the taluka and the location code number of each village. The villages have been shown by dots of various sizes. One key map showing the location of the taluka within the District in hatching, and another key map showing the position of the District in the State have been inserted here. The urban area is hatched in both the District and Taluka maps, and is further represented by a sphere of varying size according to population.

The District and Taluka maps show several particulars by use of an appropriate symbol.

The preparation of District and Taluka maps, containing such varied information was a task of no small magnitude. The District Inspectors of Land Records had considerable difficulty even in preparing the basic maps and authenticating them. The problem was solved by requesting the Settlement Commissioner and Director of Land Records to call the District Inspectors of Land Records personally to the Office of Director of Census Operations and reconcile all the discrepancies pointed out to them and asking them to authenticate the same on the spot as far as possible, after due verification.

ACKNOWLEDGEMENTS

Compilation of such a large mass of data is impossible without the active help and co-operation of State Government. I am deeply indebted to Shri L. R. Dalal, ICS, Chief Secretary to Government of Gujarat, for agreeing to extend whatever help was sought for. I would like to make a special mention of the warm and wholehearted co-operation which was throughout extended by Shri K. V. Bhatt, Deputy Secretary in the General Administration Department, who was looking after the subject of Census. Whether it was a matter of sanction of staff or for supply of typewriters, or for additional funds for printing of the District Census Handbook volumes, it always received his most immediate attention and sanction was never denied or delayed. He showed a deep understanding of the problems of an organisation like ours, which could function in the State effectively only with the full backing of the State Government.

Shri P. B. Buch, Director of the Bureau of Economics and Statistics, Government of Gujarat, placed at my disposal the entire resources at his command for any work connected with Census. Not only he spared me a few of his best officers and men but his valuable guidance in the matter of presentation of data at several places has served us in good stead. He issued instructions to the District Statistical Officers to attend to

the collection and scrutiny of any Census data and its timely submission, as if it wa Bureau's own work. We were always assured that we could fall back upon the resources of the Bureau unreservedly in time of need. But for the wholehearted and most willing cooperation of the Bureau at all levels, the District Census Handbook volumes would not have been what they are today.

I also owe a deep debt of gratitude to Shri U. M. Bhatt, IAS, the then Settlement Commissioner and Director of Land Records for his help in finalising the meanings of terms and definitions used in the Village Directory. It is a matter of deep regret that he is no more with us today. His successor, Shri B. R. Mane Patil, IAS, was equally enthusiastic and helpful and but for the keen interest he took in the finalisation of District and Taluka maps, we would have been placed in serious difficulty.

My sincere and heartfelt thanks are due to the Collectors of the Districts for the wholehearted response I have received from them towards the efficient conduct of Census Operations. The interest and energy evinced by them in organising this vast operation is indeed praiseworthy. Their active participation and involvement in the programme had a far reaching effect on the countless enumerators and supervisors working under them. Their direct interest in the training programme has vastly improved the quality of our returns. The Assistant / Deputy Collectors working under them were made responsible for the urban areas of their jurisdiction. The Mamlatdars and Chief Officers of Municipalities who were appointed as Charge Officers of rural and urban areas respectively bore the real brunt of the work, and displayed great zeal and enthusiasm in shouldering these additional responsibilities. To the Commissioners of Ahmedabad and Surat Corporations I am particularly indebted for providing excellent accommodation for housing the Regional Tabulation Offices. To the Special Charge Officers of Railways, Police, S.R.P., Irrigation Colonies and Forest Department and others I express my gratitude for the readiness with which they stood by us. Last but not the least, my grateful thanks are due to a large number of young boys and girls, coming from schools and colleges, to work as Sorters, Compiler Checkers and Supervisors, for the hard work they put in under difficult conditions of work. They displayed a very high sense of discipline and duty and enabled us to complete our work, at every stage, according to the deadlines set. I have no doubt the traditions of hard and systematic work they have imbibed will serve them in good stead and they will advance in life. They carry our best wishes with them wherever they go.

The District Development Officers who helped us so much in collection of data at the village level through the Taluka Development Officers and the District Statistical Officers working under them, who arranged for the scrutiny of the Town and Village Directory schedules at the taluka level through the Statistical Assistants, deserve a special mention. Had the basic work not been done by them accurately we would have been faced with a serious problem at the time of compilation. To the Heads of various other Departments, who always responded readily to any request made to them for help, I am also indebted. Limitation of space prevents me from making a separate mention of each one of them.

Shri G. J. Gonsalves, Director of Government Printing and Stationery, Government of Gujarat, who very kindly undertook to arrange the printing of some of the District Census Handbooks at Government presses and others through private presses had always been helpful in solving our difficult problems of printing. I hereby acknowledge the valuable help, guidance and assistance rendered by him in the matter of printing. Thanks are also due to the Manager, Government Photo Litho Press, Ahmedabad, at which all the District and Taluka maps as also the cover page have been printed. The care and patience with which they have attended to this work, has beautified our volumes to no small extent and increased their utility to the reader greatly.

Shri Hashim Ali Sayed, Printing Inspector, whose services were obtained on deputation from the Director, Government Printing and Stationery, rendered exemplary service by looking after the entire printing arrangement. His initiative, drive, and readiness to assume responsibility were a source of great strength to us. Everything he handled, he did perfectly well, and knew his job inside out.

I wish to place on record the valuable contribution made by my colleagues in bringing out this volume. Shri K. F. Patel, Deputy Director of Census Operations (HQ) was looking after this section before a separate staff was sanctioned by the State Government, headed by Shri S. C. Merh, Deputy Director from the Bureau of Economics and Statistics. Even after the creation of this separate cell, there were many occasions on which I had to look to him for help on account of the experience gained by him during 1961 Census. He never objected to the encroachments made on his time and energy, in spite of the fact that they were sometimes substantial. Shri S. C. Merh, Deputy Director of Census Operations (DCHB) put in hard and gruelling hours of work in spite of indifferent health to catch up with the time schedule which was once upset. Shri S. M. Shelke, Research Assistant, from the Bureau working under him, undertook almost the entire burden of Town Directories in addition to other work. Shri S. M. Nayak, Assistant Director of Census Operations, put in an indefatigable effort to ensure accuracy of the data at every stage and successfully coordinated the work throughout. The enthusiasm and energy displayed by Shri C. P. Vyas, Assistant Director of Census Operations, in the matter of preparation of inset tables for District Census Handbook volumes and several other matters connected with it deserve a special mention. The interpretation of the data of the Town and Village Directory is his personal contribution. Shri R.M. Pancholi, Statistical Assistant, prepared the inset tables to be included in the Town and Village Directory. Shri K. M. Patel, Tabulation Officer put in a very strenuous effort for the reconciliation of area figures and final checking of maps. Kr. Fateh Singh Jasol, IAS, Deputy Director of Census Operations, Urban Tabulation Unit, took upon himself, as a labour of love, the scrutiny of work with regard to the preparation of District and Taluka maps and the selection of different motifs which now decorate different volumes of the District Census Handbook. He involved himself in this work with the ardency and fervour so characteristic of him and greatly relieved me of the anxiety on this account. Shri K. D. Vaishnav, Geographer, and his team of draftsmen have produced excellent District and Taluka maps by working on them again and again to incorporate details which were pointed out or received after the maps were once prepared. Shri N. S. Bhatt, Statistical Assistant, has checked them thoroughly. Shri B. I. Patel, Tabulation Officer, in charge of the Central Tabulation Unit took upon himself the entire responsibility for the scrutiny of Primary Census Abstracts and their typing in record time. He discharged his duties with diligence and a high sense of duty. I had in him a pillar of strength on which I could lean for work demanding precision and exactitude. His capacity to turn out work at optimum efficiency in the face of time schedules rigidly set merits avowal. Shri V. A. Dhagia, Tabulation Officer, proved himself a stalwart by shouldering the burden not only of work entrusted to him, but part of the burden of every section, including the Map Section, and rendere yeoman's service. Both the Central Tabulation Units benefited greatly by the care and attention bestowed on them by Shri K. F. Patel, Deputy Director of Census Operations (HQ), whose trained eye could detect the slightest inaccuracy or inconsistency in compilation or presentation. It was due to this team work that we were able to compile such faultless data with admirable speed, and were the first to send the Primary Census Abstracts of all the Districts of the State in one bunch to the Registrar General's Office at New Delhi. Shri Patel's patience and thorough handling of work has yielded rich dividends to us. I have relied heavily on the expertise, acumen and experience of my colleagues and they have undoubtedly

given their best to the Organisation, for which I am deeply indebted to them.

Limitations of space prevent me from making an individual mention of all those who have contributed to the making of this volume so complete and faultless to all of whom I wish to express my sincere thanks.

Finally, I would like to express my very deep gratitude to Shri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) for the valuable guidance received from them from time to time. The amount of advance thinking and planning done by them on the subject has now resulted in the production of volumes which will be of lasting value and interest to the general reader, research worker, scholar, administrator and academician.

C. C. DOCTOR,
Director of Census Operations,
Gujarat.

AHMEDABAD
1st March, 1972.

PART X-A

TOWN AND VILLAGE DIRECTORY

TOWN AND VILLAGE DIRECTORY

The Town and Village Directory of the District Census Handbook 1971 differs widely in content and presentation from the corresponding volume of 1961. The earlier volumes mainly contained the Primary Census Abstract for each village for rural area and town/ward/enumerator's block for urban area and was supplemented by some additional information which was collected from (a) village notes specially devised for the purpose and (b) information supplied by Heads of Departments on certain amenities. It was presented in Col. 2 in run on fashion for each village and town followed by the Primary Census Abstract in the remaining columns.

The Town and Village Directory of 1971 Census is presented in Part A of the District Census Handbook. An attempt has been made to interpret the data thrown up in the Town and Village Directories at the beginning under the heading "Introductory Note on Town and Village Directory".

Part B of the District Census Handbook contains purely the Primary Census Abstract.

A number of abbreviations have been used in both the Directories to facilitate presentation. The abbreviations used in each statement of the Town Directory are given below in Statement A. Statement B gives a list of abbreviations used in Village Directory.

INTRODUCTORY NOTE ON TOWN AND VILLAGE DIRECTORY

1. History of District Census Handbook

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the erstwhile Government of Bombay. In 1951, the basis of classification of the Census was changed from a social to an economic one and the figures were given in the Primary Census Abstract according to eight Livelihood Classes. The Primary Census Abstract contained the basic information in respect of every village and town. A decision to bring out the District Census Handbooks giving the Primary Census Abstract and important Census tables for every district of the State was taken for the first time in 1951. Census statistics given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates and agricultural and non-agricultural classes distributed under eight main Livelihood Classes. These census statistics were further supplemented by the addition of useful administrative information on the availability of amenities in villages and towns on items like post offices, railway stations, the distance of a bazar from the village, primary schools, village panchayats, co-operative societies, etc. This was a unique achievement of the Indian Census. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Governments. It was, therefore, decided during the Census of 1961 that the District Census Handbooks of 1961 Census should contain a certain minimum of statistical data, maps and other useful information to be adopted uniformly throughout the country. Thus the District Census Handbook of 1961 Census differed widely in the matter of content and coverage from that published in the 1951 Census. The District Census Handbooks of 1961 were sub-divided into the following three parts :-

PART I - THE DISTRICT

(i) Introductory Essay
(ii) Brief Gazetteer of Place Names

PART II - STATISTICS

(i) Census Tables
(ii) Villagewise List of Industrial Establishments
(iii) Handicraft Tables
(iv) Departmental or Official Statistics

PART III - VILLAGE DIRECTORY

(i) Explanatory Note
(ii) Village Directory
(iii) Taluka Maps

Besides Census data, the 1961 District Census Handbooks covered villagewise and townwise information on the availability of different types of amenities such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses etc., shown by means of abbreviations placed against the name of each village. Thus, in the 1961 Census an attempt was made to make the District Census Handbooks more informative.

During the 1971 Census, efforts have been made to compile both census and non-census statistics in a uniform manner under an enlarged perspective. The District Census Handbook of 1971 Census has been divided into three sub-parts with a view to making the census and non-census information available to the data users as quickly as possible. Part A of the District Census Handbook contains the Town Directory and Village Directory. Part B contains the Primary Census Abstracts and Part C contains the Introductory Essay, Official Statistics, Census tables, etc. The details of the contents in each of the parts are described in the following paragraphs.

2. Scope of District Census Handbook 1971

The District Census Handbooks are the only publications which incorporate the data down to the village and block level of a town, which are urgently and frequently required by the data users. They are constantly referred to for several purposes by the administrator, planner, policy-maker and academician. The delay in the publication of the District Census Handbooks would reduce

the value of these very useful publications. In order to avoid delay in the publication the District Census Handbooks of 1971 are sub-divided into three parts, two of which are combined in one volume, and the third published separately. The details of the contents of each of the parts are as follows.

Part A : Town and Village Directory

Part A contains the non-census statistics of each village and town. The Town Directory portion furnishes the data for each town in the district in seven statements covering (1) the status of the civic administration and the functional category of towns and the growth of population since 1901; (2) physical aspects and location; (3) civic finances; (4) civic and other amenities; (5) medical, educational, recreational and cultural facilities; (6) trade, industry, commerce and banking facilities and (7) population by religion.

The Village Directory section of Part A gives particulars of amenities available for each village in the matter of educational and medical institutions, power supply, drinking water facilities, post and telegraph facilities, communications, particulars of land use, weekly markets and places of religious, historical and archaeological interest in the village.

Part B : Primary Census Abstract

Part B gives for each village and for each block and ward of a town the primary census data incorporating area of the town in square kilometres, and of village in acres and gunthas, the number of occupied residential houses, the number of households, total population and its break up by sex, scheduled caste and scheduled tribe population, literate population, and working population by nine broad industrial categories namely (1) cultivators, (2) agricultural labourers, (3) those working in livestock, forestry, fishing, plantations, etc., (4) mining and quarrying, (5) manufacturing, processing, servicing and repairing, (6) in constructions, (7) in trade and commerce, (8) transport, storage, and communications, and (9) in other services and the non-working population.

Part C : Administrative Statistics and Report

Part C would incorporate the administrative statistics, pertaining to the district in various fields of development. The census tables pertaining to the district regarding mother tongue, religion, migration, etc., will also be reproduced here. A write up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade would also be given.

The non-census data of the village directory and town directory were collected from the local bodies. The villagewise details regarding different types of amenities available at the village, land use data and other information were collected in the village directory form through the Taluka Panchayat offices. These forms were filled by the village officials and were scrutinised by the Statistical Assistants at the Taluka level. The District Statistical Officers supervised the work and carried out percentage scrutiny. The details regarding the number of villages having post and telegraph facilities in the State, those connected with electric power supply, those having all weather and fair weather bus facilities and those without drinking water facilities etc., were obtained from the concerned departments by the Office of the Director of Census Operations. The information recorded in the village directory forms was cross checked with the data obtained from concerned departments, confirmed and made up-to-date.

The non-census data for each of the towns were obtained from the municipal authorities in the case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. The information received from the concerned municipalities and panchayats was scrutinised and cross checked with other published official statistics for a few items wherever it was possible.

3. Note on Town Directory

A. The list of urban areas, for the purpose of 1971 Census, was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(1) All places where there is a Municipal Corporation, or a Municipality or a Town Committee or a Notified area or a Cantonment Board have been treated as urban areas.

(2) The remaining places were recognised as enjoying urban characteristics and declared urban areas only if the following conditions were fulfilled.

(a) The estimated population at 1971 Census should be at least 5,000.
(b) The density of population per sq. kilometre should not be below 400.
(c) 75 per cent of the male working population should follow non-agricultural pursuits, and,
(d) In the opinion of the Director of Census Operations any other place where predominant urban characteristics are noticed.

B. The town directory has been compiled in the following seven statements for all the urban areas of a district. For presentation of the data all the towns of a district are arranged in alphabetical order. In Appendix I to the Town Directory all the towns of a district are arranged according to their location code numbers. The details of the data covered in these statements are given below:—

Statement I

Statement I gives the details relating to the status of the towns, growth history of towns since 1901 and their functional categories of towns in 1961 Census and 1971 Census.

Statement II

This statement gives details of physical aspects and location of the towns. Under physical aspects are given details relating to altitude of the towns (in metres) annual rainfall (in m.ms) and minimum and maximum temperature (in centigrade). The statement also gives the details of distance of the towns from the nearest city with population of 1 lakh and above, from State Headquarters, District Headquarters, Subdivisional and Taluka Headquarters, from the nearest railway station and bus route. It also gives details as to whether or not the town has a navigable river or canal within 10 km. and the name of sea port within 50 km.

Statement III

This statement gives details of Civic finance for the year 1968–69. It covers the receipts under different heads like receipt through taxes, receipt derived from Municipal property and powers, Government grant, loans, advances and other sources. It also covers the items of expenditure on different heads like general administration, public safety, public health and convenience, public works, public institutions and others.

Statement IV

This statement gives details about civic and other amenities. It covers information on the type of road with length, system of sewerage/drainage, number of latrines by types, method of disposal of night soil, source and capacity of protected water supply and availability of fire fighting services. The statement also gives details of the number of electric connections by types.

Statement V

This statement gives details relating to medical, educational, recreational and cultural facilities in the town. Details relating to medical institutions by types and the number of beds in each type of institutions are also covered. Details regarding different types of educational institutions are given. It also covers details relating to facilities of stadia, cinemas, auditoria or drama halls and libraries.

Statement VI

This statement covers the details relating to trade, commerce, industry and banking. The statement gives details of the three most important commodities imported in the towns, three important commodities exported from the towns and three important commodities manufactured in the towns. It also gives details of the number of banks and cooperative credit societies.

Statement VII

This statement gives the population of the town by religion. Data for this table is extracted from 1971 Census data.

C. The 1971 Census shows four areas acquiring urban status in addition to the seventeen urban areas already existing since the 1961 Census. The areas acquiring urban status during the 1971 Census were (1) Adityana, (2) Delvada, (3) Chhaya and (4) Shapur. Thus raising the tally of urban areas in the district to 21. None of the areas declared as towns in the 1961 Census were declassified during the 1971 Census.

D. There are also two town agglomerations in the District, Chhaya figuring as an agglomeration of Porbandar and Veraval and Patan have agglomerated with each other. Junagadh and Mangrol towns have outgrowths in their respective non-municipal areas. Details of these outgrowths may be found in Appendix II to the Town Directory Statements.

Details of standard Urban Areas in the district are as under :—

District	Standard Area and Component Units	Civic status	Area in km².
1	2	3	4
Junagadh	Total Junagadh (S.U.A).		N.A.
	Urban Components		
	Junagadh Town		N. A.
	Junagadh	M.	13.47
	Junagadh	O. G.	N. A.
	Total Urban group		N. A.
	Rural Components		
	Timbavadi		4.67
	Joshipara		3.62
	Khamdhrol		4.67
	Dolatpara		2.14
	Total Rural group		15.10
	Total Patan Veraval (S.U.A.)		42.80
	Urban Components		
	Veraval	M.	5.82
	Patan	M.	31.86
	Total Urban group		37.68
	Rural Components		
	Bholpara		5.12
	Total Rural group		5.12
	Total Porbandar (S.U.A)		97.08
	Urban Components		
	Porbandar	M.	9.91
	Chhaya	V.P.	17.76
	Total Urban group		27.67
	Rural Components		
	Kolikhada		7.96
	Ratanpur		17.33
	Bokhira		18.78
	Khapat		6.94
	Dharampur		18.40
	Total Rural group		69.41

Note on Statement I

Townwise details relating to status, growth history and functional categories are given by arranging the towns in alphabetical order. The civic administration status of each town has been recorded in column 5 of the statement by using the following abbreviations.

Status	Abbreviation
1. Corporation	C
2. Municipality	M
3. Town Committee/Town Area Committee/Board	TC
4. Notified area Committee/Council	NAC
5. Cantonment Board	CB
6. Nagar Panchayat/Panchayat	P
7. Non-municipal/Non-Town Committee/ Non-Panchayat Committee	NM

Five towns in the district have municipalities of these Patan and Veraval have a joint municipality and 16 towns have panchayats. (6 have nagar panchayats and 10 have garm panchayats). With the implementation of the Panchayat Act in Gujarat from 1-4-1963 places having a population of more than 10,000 but less than 20,000 have been given the status of Nagar Panchayats and those having a population of less than 10,000 persons have been notified as Gram Panchayats. It can be seen from the Statement that there is no town in the district having a population of more than one lakh. Those having a population of more than 50,000 but less than one lakh number 3 as against 2 in 1961, those having a population of more than 20,000 but less than 50,000 number 2 as against 2 in 1961, those having a population of more than 10,000 but less than 20,000 number 8 as against 7 in 1961 and those having a population of more than 5,000 but less than 10,000 are 8 as against 6 in 1961.

Columns 14 and 15 of the Statement give the functional category of the towns according to 1961 Census and 1971 Census. The method adopted for determining the functional category is uniform for 1961 (Atlas Volume) and 1971 Census. The functional categories are worked out on the basis of the following formula.

The nine Industrial Categories of workers adopted in 1971 Census are grouped into five sectors as follows.

		Categories
(1)	Agricultural and its allied activities	I, II, III & IV
(2)	Industrial including construction	V, VI
(3)	Trade and Commerce	VII
(4)	Transport, Storage and Communications	VIII
(5)	Other Services	IX

The percentage of workers under each of the above five groups to total working population is worked out for each town. These towns are then classified according to their percentage values which will determine the characteristic of the towns as Primary activity, industrial, commercial, transport and service, etc., on the following basis.

(i) If one sector of the economy absorbs more than two-fifths of the total working population (i. e. more than 40 per cent) then the town would be designated by that particular industrial category which is found predominant, e. g. industrial, commercial, transport, service or primary.

(ii) If the percentage falling under any one industrial category is less than 40, then the next predominant industrial category is taken into account, so that their total reaches three fifths of the working population i. e. 60 per cent. Such a town would then be designated as industry-*cum*-service town or commerce-*cum*-transport town etc., as the figures may indicate.

(iii) If the total of any two categories does not come upto 60 per cent, then the third predominant industrial category in order of merit is taken into account and after 60 per cent of the working population is accounted for the town is designated as industry-*cum*-service-*cum*-transport town and so on.

On the above basis each of the towns has been assigned functional categories. Table No. 1 below gives the distribution of towns by different functional categories. It can be seen that 10 towns have one functional characteristic, three towns have two and 8 towns have three characteristics.

TABLE No. 1

Distribution of towns by functional categories

Functional Category–1971		Number of Towns
1		2
1. One Characteristic :		
(a)	Primary activities	8
(b)	Industry	1
(c)	Services	1
		10
2. Two Characteristics :		
(a)	Primary activities-*cum*-Industry	1
(b)	Primary activities-*cum*-commerce	1
(c)	Industry-*cum*-Services	1
		3
3. Three Characteristics :		
(a)	Primary activities-*cum*-Commerce -*cum*-Industry	1
(b)	Primary activities-*cum*-Commerce -*cum*-Services	2
(c)	Industry-*cum*-Commerce-*cum*-Services	1
(d)	Industry-*cum*-Services-*cum*-Primary activities	1
(e)	Commerce-*cum*-Primary activities -*cum*-Services	1
(f)	Commerce–*cum*–Industry-*cum*-Primary activities	1
(g)	Commerce-*cum*-Services-*cum*-Primary activities	1
		8
	Total	21

Note on Statement II

This statement gives the physical aspects and the location particulars of towns. Particulars regarding data on the altitude of the towns have been obtained from the Director, Survey of India, Western Circle, Abu. Details regarding temperature and rainfall have been obtained from the Director General of Observatories, Meteorological Department, Government of India and the Regional Meteorological Centre, Colaba, Bombay. However, data on rainfall and temperature were not available from the above offices for many towns. In such cases data have been collected from local sources, and remarks to that effect are given at the footnote of the statement.

Except for the Girnar and the Barda ranges the lay of the land in Junagadh is flat sloping westward to the sea. The Girnar and Barda ranges dominate the landscape for miles around in the north–eastern and north-western parts of the District respectively. A number of towns are located in these two hilly ranges. Adityana is located at an altitude of 40 metres in the Barda range and Junagadh, Mendarda, Talala and Visavadar are situated in the Girnar range. Visavadar town, located at 140.0 metres above sea level in the Girnar ranges, enjoys the highest altitude of all the towns in the District. Mendarda, on the other hand, is located at the lowest altitude at 89.0 metres. The altitude of the towns in the planes varies from a minimum of 3.66 metres in the case of Porbandar to the maximum of 40 metres in the case of Keshod and Malia. The rainfall varies considerably from town to town. Malia with a rainfall of 1,228 m.m. recorded the highest rainfall during 1969 while Ranavav the lowest with 414 m.m. While the climate in the coastal areas is temperate it tends towards the extreme as one progresses deepe rinland. The maximum temperature rises over 40°C during the summer while the minimum in the winter is about 10°C. The lowest temperature recorded in 1969 was 10.5°C at Manavadar.

None of the towns in the District has a Population of one lakh or more. The City nearest to 15 of the towns of Junagadh District is Rajkot while four towns are closer to Jamnagar and the remaining two to Bhavnagar. Rajkot lies at a distance of 78 km. from Junagadh whereas Bhavnagar is farthest away at a distance of 196 km. from Delvada. Gandhinagar, the State Headquarters, is at a considerable distance from all the towns of the District. It is nearest to Junagadh (335.4 km.) and farthest away from Delvada (530 km.) The distance of Junagadh itself, the District headquarters from the other towns of the District varies from a minimum of 10 km. (Shapur) to a maximum of 178 km. (Delvada). Eight towns

are within a radius of 50 km. from Junagadh while seven are within a distance range of 50 to 100 km. from the District headquarters. the other towns lie at a distance exceeding 100 km. from the District headquarters. But for the exception of Adityana, Kutiyana, Mangrol, Mendarda and Chhaya, all the towns of the District are connected by rail. However, Chhaya is only 3.3 km. away from Its rail-head at Porbandar. Mangrol, on the other hand, is located 25.6 km. from its rail-head at Keshod. All the towns of the District are, however, linked by road connection. There is no navigable river or canal in the District, however, there are four sea ports of which Porbandar and Veraval rank high in importance. Thirteen of the towns in the District are within a distance of 50 km. of one or the other of the District's four sea ports.

Note on Statement III

This Statement gives details of town finance. Five of the district's towns have municipalities, whereas six have nagar panchayats and ten have gram panchayats. The following table shows the per capita receipt and expenditure by size class of town.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of Town	Number of Towns	Per capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
I 100,000 and over	..	..	..	..	..	..	..	..
II 50,000 to 99,999	3	36.48	18.40	18.08	33.21	14.63	0.51	18.07
III 20,000 to 49,999	2	21.33	12.46	8.87	18.19	6.85	2.15	9.19
IV 10,000 to 19,999	8*	27.90	17.20	10.70	26.33	5.81	1.48	19.04
V 5,000 to 9,999	8	22.43	7.99	14.44	22.06	3.05	3.59	15.42
VI Below 5,000	..	..	..	..	..	..	..	..

* As there is a joint municipality for Patan and Veraval towns no seperate data is available. The values are therefore worked out after clubbing the population of these two towns.

It would be apparent from the above figures that the per capita receipt is highest (Rs. 36.48) in the towns with a population of 50,000 to 99,999 whereas it is lowest (Rs. 21.33) in the towns with a population ranging between 20,000 and 49,999. Contrary to the above trend the per capita receipt in class IV towns is Rs. 27.90 and that in class V towns is Rs. 22.43.

The per capita receipts through taxes is highest (Rs. 18.40) in class II towns followed by those in population size of 10,000 to 19,999 (Rs. 17.20). The per capita receipts through taxes is lowest in Class V towns (Rs. 7.99). On par with the above trend, the per capita receipt from other sources is again highest in Class II towns at Rs. 18.08 followed by towns in the population size of 5,000 to 9,999. The lowest per capita receipt from other sources is noticed in Class III towns (Rs. 8.87).

As regards per capita expenditure, this also is highest in Class II towns (Rs. 33.21) followed by class IV towns (Rs. 26.33). The lowest per capita expenditure is in Class III towns (Rs. 18.19). Expenditure on public health and conve-

nlences diminishes *pari passu* with the decline in population, being highest at Rs. 14.36 in class II towns and lowest at Rs. 3.05 in class V towns. On the other hand the per capita expenditure on public institutions is highest in the case of class V towns and lowest in the case of class II towns. The per capita expenditure on other aspects varies from a maximum Rs. 19.04 in class IV towns to a minimum of Rs. 9.19 in class III towns.

Note on Statement IV

Statement IV shows the civic and other amenities available in the town. The following abbreviations are used in the statement.

Column 3

Road length	**Abbreviation**
1. Pucca Road	PR
2. Kutcha Road	KR

Column 4

System of Sewerage/drainage	
1. Sewer	S
2. Open Surface Drainage	OSD
3. Kutcha Drainage	KD
4. Cess Pool	CS
5. Pit System (or soak pits)	PT

Column 8

Method of disposal of night soil	
1. Head Load	HL
2. Baskets	B
3. Wheel Barrows	WB
4. Septic Tank Latrines	ST
5. Sewerage	S
6. Soak pits or Leaching Pits	PT
7. Tractor, Trailor, Trolleys or Night Soil Tankers	T

Column 9

Source of protected water supply	
1. Tap Water	T
2. Tube Well	TW
3. Well Water	W
4. Tank Water	Tk
5. River	R
6. Fountain	F
7. Canal	C
8. Others	O

Only Junagadh, Keshod and Bilkha boast of underground drainage. Ten towns have open surface drainage while six towns offer only soak pits for the disposal of waste water, Kutiyana and Chhaya are totally devoid of any drainage facilities. As regards sanitation, water borne latrines are a common feature of all towns except Delvada, Keshod and Patan-Veraval. Service latrines however, outnumber water borne latrines and much remains to be done for the conversion of service latrines into water borne ones. Different practices obtain as regards the disposal of night soil. It is transported as head load in nine towns whereas wheel barrows are provided for it, transport in eight other towns. Three towns utilise tractor, trailors or tankers for this purpose. Protected water supply is available in all towns except Mendarda, Chhaya Ranavav, Talala, Una and Visavadar. Only six towns have fire fighting services. All the towns of the District are electrified.

Details regarding domestic, commercial, industrial and other connections are given in the statement. The following definitions have been applied for each of the terms used.

1. Domestic

(i) Heat and Power

Service to a household : supply to cooking ranges, refrigerators, air conditioners, etc., used in the household.

(ii) Lights and Fans

Service to a house which needs only lighting and fan connections.

2. Commercial

(a) Heat and Power

The same as 1 (i) except that the use is for commercial purpose i.e. shops, restaurants, etc.

(b) Lights and Fans

Same as 1 (ii) above except that the use is for commercial purposes i.e. shops, restaurants, etc.

3. Industrial

Power service to any installation at

(i) Low and medium voltage

Upto 100 HP load for use in establishments such as flour mills, oil mills, ice factories, etc.

(ii) High voltage

Connections given for industrial purpose at a voltage of 11 KV and above.

4. Street lighting

Power service given for providing light in the streets of a village or town.

5. Others

(i) Irrigation and Agricultural dewatering

Power given to farmers for pumping water for agricultural purpose.

(ii) Public water supply and sewerage pumping

Power service given for pumping and/or preparation of potable water supply in villages/towns and for pumping sewerage in the villages or towns.

Note on Statement V

The statement gives details relating to medical, educational, recreational and other cultural facilities in the town. In the case of medical institutions only Government, Semi-Government and charitable institutions have been covered. The abbreviations used in the statement to denote the various types of medical and educational institutions are explained below :-

Column 3 :

Type of medical institutions	Abbreviation
1. Hospital	H
2. Dispensary	D
3. T. B. Clinic	TBC
4. Health Centre	HC
5. Nursing Home	NH
6. Maternity Centre	M
7. Child Welfare Centre	CW
8. Family Planning Centre	FC
9. Other Medical Institutions	O

Column 5 :

Type of College	Abbreviation
1. Arts College only	A
2. Science College only	S
3. Commerce College only	C
4. Arts & Science College only	AS
5. Combined Arts Science and Commerce College	ASC
6. Arts & Commerce College only	AC
7. Law College	L
8. Law & Education College	LE

There is one town viz. Chhaya without any type of medical facility. Hospital facilities are available in 10 towns. 3 towns have maternity and child welfare centres. 2 towns have tuberculosis clinics and 19 towns have family planning centres. The following table gives particulars of the number of beds available in each town.

TABLE No. 3

Medical Facilities

Sl. No.	Name of Town	Number of beds in medical institutions	Number of beds per 1,000 population
1	Adityana	..	..
2	Bantwa	4	0.27
3	Bilkha	4	0.46
4	Delwada	6	0.90
5	Junagadh	377	3.93
6	Keshod	6	0.31
7	Kutiyana	10	0.71
8	Maliya Hatina	6	0.73
9	Manavadar	16	1.10
10	Mangrol	26	0.91
11	Mendarda	12	1.45
	Patan Town Agglomeration		
12	Patna	*	*
13	Veraval		
	Sub-Total of Agglomeration	22	0.29
	Porbandar Town Agglomeration		
14	Porbandar	176	1.82
15	Chhaya	..	..
	Sub-Total of Agglomeration	176	1.65
16	Ranavav	7	0.55
17	Shapur	..	..
18	Talala	6	0 89
19	Una	58	2.69
20	Vanthali	6	0.40
21	Visavadar	6	0.54
	Total	748	1.54

* As there is a joint municipality for Patan and Veraval towns, seperate figures for each town are not available. As such values are worked out by clubbing the population of these towns.

There is a total of 748 beds in the various medical institutions of the District. The largest number (377) are at Junagadh followed by 176 in Porbandar and 58 in Una. The other towns have beds varying from a minimum of four in Bantwa and Bilkha to a maximum of 26 in Mangrol. Adityana and Shapur have no indoor medical facilities. Worked out for all the towns of the district as a whole there are 1.54 beds per 1,000 Population. Junagadh, Porbandar and Una enjoy this facility above the district average while the rest of the towns are below the district average. There is an ayurvedic college at Junagadh and a polytechnic at Porbandar. There is no institution in the district imparting higher education in engineering and only three towns have non-technical colleges. All other towns are devoid of institutions of higher equcation. Five towns, however, have other recognised institutions imparting instruction and training in shorthand, typewriting and other such vocational fields.

Primary school education facilities are available in all towns and secondary school facilities are similarly available in all towns except Adityana. The following table gives details of the number of primary and secondary schools per 1,000 population.

TABLE No. 4

Secondary and Primary schools per 1,000 population

Sl. No.	Name of the Town	Number per 1,000 population	
		Secondary school	Primary school
1	Adityana	..	0.238
2	Bantwa	0.133	0.333
3	Bilkha	0.116	0.231
4	Delwada	0.150	0.300
5	Junagadh	0.042	0.177
6	Keshod	0.153	0.102
7	Kutiyana	0.071	0.354
8	Malia	0.244	0.244
9	Manavadar	0.069	0.345
10	Mangrol	0.070	0.176
11	Mendarda	0.242	0.242
	Patan Town Agglomeration		
12	Patan	*	*
13	Veraval		
	Average of Agglomeration	0.040	0.066
	Porbandar town agglomeration		
14	Porbandar	0.041	0.165
15	Chhaya	0.203	0.305
	Average of agglomeration	0.056	0.178
16	Ranavav	0.157	0.235
17	Shapur	0.223	0.446
18	Talala	0.148	0.593
19	Una	0.046	0.196
20	Vanthali	0.134	0.269
21	Visavadar	0.181	0.181
	Average	0.082	0.193

*Note:- As there is a joint municipality for Patan and Veraval towns, seperate figures are not available. As such the values are worked out by clubbing the population of these towns.

The average number of secondary schools per 1,000 population worked out for all the towns of the district is 0.082. While Bantwa, Bilkha, Delwada, Keshod, Malia, Mendarda, Chhaya, Ranvav, Shapur, Talala, Vanthali and Visavadar enjoy this facility above the District average, the rest of the towns of the District do so below the District average.

As regards primary schools the average worked out per 1,000 population for all the towns of the District is 0.193. Fourteen of the towns of the District enjoy this facility above the district average while the rest do so below the District average. The highest number of schools per 1,000 population are to be found in Talala (0.593) and the lowest in Patan-Veraval (0.066).

As regards institutions for public entertainment etc., cinemas are to be found in fourteen towns of the District and auditoria or similar institution in three towns. Public libraries are available in all towns of the District except Chhaya. Only Patan-Veraval and Porbandar, however, have stadia.

Note on Statement VI

Statement VI incorporates details relevant to trade, industries and banking in the towns. All the towns of the district except Adityana and Delwada have banking facilities. Agricultural

Cooperative Credit Societies may similarly be found in all the towns of the District except Junagadh, Porbandar and Chhaya. Non-agricultural Cooperative Credit Society exists in all towns except Adityana, Delwada and Chhaya. Important commodities manufactured in the towns of the District are cement, soda ash, lime-stone, groundnut oil, sugar and rayon and cotton textile. Cement is manufactured in Adityana, Porbandar and Chhaya. Porbandar and Chhaya also manufacture soda ash. Groundnut oil is widely manufactured in thirteen towns of the District. The lime-stone quarries at Adityana enjoy a particular eminance and are said to be the best and largest in depth in all asia. The lime-stone is supplied to three cement factories in the area. Una is the centre for the production of sugar and Veraval for that of Rayon. Porbandar is famous for its cotton textile and its suburb Chhaya is well known for its woollen and staple blankets. Some of the other important commodities manufactured in the towns of the District are colour chemicals and mosaic tiles (Junagadh), oil engines (Bantwa, Keshod and Visavadar), cement pipes (Keshod, Ranavav and Visavadar) and custard powder (Delwada).

Cement; soda ash, groundnut oil, lime-stone, cotton, building stone and ghee figure among the important commoditites exported from the towns of the District. Groundnut oil is exported from eight towns while ghee is exported from Porbandar. Lime-stone is exported from Adityana and Malia and soda ash and cement from Porbandar and Chhaya. Talala sends out substantial quantities of good quality mangoes while Mangrol exports bananas, onions and green coconuts.

Foodgrains, cloth, sugar, kerosene, groundnut oil and industrial raw materials such as gypsum, lime stone, caustic soda, sulphar, engine spare parts and wood are among the more prominent goods imported into the towns from outside. Import of industrial raw materials has been particularly marked in towns like Adityana, Porbandar, Chhaya and Patan-Veraval whereas the import of raw materials for agro based industries and articles of daily consumption has been found to be a more commonly shared characteristics.

Notes and explanations on village directory

A brief outline on each of the statement of the Town Directory has been given in the earlier pages. The handbook also incorporates, besides the town directory, villagewise particulars regarding different types of amenities and land use data for 1969 for each of the villages in the district in the village Directory section of the Handbook.

In Junagadh district there are 1,110 villages distributed in 15 talukas. The number of villages in each of the taluka are as under :-

Sl. No.	Name of Taluka/Mahal	Number of villages
1	Junagadh	80
2	Mendarda	46
3	Talala	96
4	Patan Veraval	100
5	Malia	63
6	Mangrol	62
7	Keshod	53
8	Porbandar	78
9	Ranavav	54
10	Kutiyana	47
11	Manavadar	55
12	Vanthali	45
13	Bhesan	46
14	Visavadar	98
15	Una	187
	Total	1,110

Only one taluka has more than 100 villages and one taluka has exactly 100 villages, whereas 13 talukas have less than 100 villages each. Una taluka has the largest number of villages (187) whereas Vanthali taluka has the least number (45).

The following abbreviations have been used in the Village Directory section of the Handbook for the terms listed in Col. 2 of the statement below :-

Column Number	Item	Abbreviation
4	Primary School	Pr.S
	Secondary School	Sec.S
	College	C
	Industrial School	IS
	Training School	Tr.S
	Other Educational Institutions	OS
5	Hospital	H
	Maternity Home/Centre	M
	Child Welfare Centre	CW
	Health Centre	HC
	Dispensary	D
	Family Planning Centre	FC
6	Electricity for any purpose	E
	Electricity for Agricultural purpose only	E(Ag)
7	Tap Water	T
	Well	W
	Tank	Tk
	Tube Well	TW
	River	R
	Fountain	F
	Canal	C
	Other	O
	Not Available	N.A.

	Tube Well	TW
	Other Wells	W
	Tank	Tk
	River	R
	Waterfall	WF
	Other Sources	O

(a) Taluka Abstract of Amenities

A talukawise abstract of the educational, medical and other amenities available at the villages is given in an Appendix to the Village Directory. It can be seen from the abstract that 904 villages have primary school facilities. There are thus only 206 villages without primary schools of which 20 are deserted villages. The details of villages without a primary school are as follows:—

Sl. No.	Name of Taluka/ Mahal	Number of villages without primary school	Number of deserted villages
(1)	Junagadh	17	3
(2)	Mendarda	9	...
(3)	Talala	48	4
(4)	Patan-Veraval	1	...
(5)	Malia	...	..
(6)	Mangrol	3	...
(7)	Keshod	...	...
(8)	Porbandar	4	1
(9)	Ranavav	25	1
(10)	Kutiyana	1	1
(11)	Manavadar	...	...
(12)	Vanthali	...	...
(13)	Bhesan	10	1
(14)	Visavadar	25	3
(15)	Una	63	6
	Total	206	20

Una taluka has the largest number of villages without primary school (63) followed by Talala taluka (48) Ranavav (25) and Visavadar (25). In contrast, all the villages of Malia, Keshod, Manavadar and Vanthali talukas have primary school facilities in the village.

Only 48 villages or 4.40 per cent of the total villages of the district have secondary schools and 36 or 3.30 per cent of the total have other educational institutions.

It can be seen that only 123 villages or 11.28 per cent have dispensaries. Only one village viz.

Jamwala of Una taluka has the facility of hospital and 14 villages have maternity centres. Only 8 villages have child welfare centres. 43 villages have primary health centres (including sub-centres) and 59 villages have family planning centres. Thus only a limited number of villages in the district have medical facilities. Only 253 or 23.21 per cent of the total villages of the district are electrified.

Ordinary surface wells are the main source of drinking water facility. Only 95 villages or 8.72 per cent of the total have tap water supply. Other sources of water supply include tanks (82 villages) and rivers (350 villages).

Only 267 villages or 24.50 per cent of the total are connected with Pucca road. 421 villages or 38.62 per cent have post offices, and only 15 villages have both post and telegraph offices. 32 villages in the district have telephones.

(b) Bus Facilities

The details of villages connected by bus services have been incorporated in the village directory. Bus facility is considered to be available at the village if a bus stop is within one mile from the village.

It would be seen from the following figures that only 279 or one fourth (i.e. 25. 60 per cent) of the villages are connected by bus services throughout the year. There are 510 villages or 46.79 per cent of the total which enjoy this facility only during the fair season. A large number of villages (301 or 27.61 per cent) are yet devoid of this amenity even during the fair season. A talukawise breakup of villages enjoying this amenity is given hereunder.

Villages connected by Bus services

	Name of Taluka/ Mahal	Total number of inhabited villages	Number of villages having bus facilities for the whole year	Number of villages having bus facilities during fair season only	Number of villages without bus facilities
	1	2	3	4	5
1	Junagadh	77	31(40.26)	23(29.87)	23(29.87)
2	Mendarda	46	13(28.26)	23(50.00)	10(21.74)
3	Talala	92	11(11.96)	37(40.21)	44(47.83)
4	Patan-Veraval	100	28(28.00)	39(39.00)	33(33.00)
5	Malia	63	14(22.22)	41(65.08)	8(12.70)
6	Mangrol	62	27(43.55)	23(37.10)	12(19.35)
7	Keshod	53	12(22.64)	38(71.70)	3(5.66)
8	Porbandar	77	42(54.55)	19(24.68)	16(20.77)
9	Ranavav	53	13(24.53)	9(16.98)	31(58.49)
10	Kutiyana	46	13(28.26)	29(63.04)	4(8.70)
11	Manavadar	55	10(18.18)	40(72.73)	5(9.09)
12	Vanthali	45	11(24.44)	29(64.45)	5(11.11)
13	Bhesan	45	11(24.44)	19(42.23)	15(33.33)
14	Visavadar	95	.. (..)	59(62.11)	36(37 89)
15	Una	181	43(23.76)	82(45.30)	56(30.94)
	Total @	1,090	279(25.60)	510(46.79)	301(27.61)

@(20 Uninhabited villages are not included.)
(figures in brackets indicate percentage of total villages in each Taluka).

No village in Visavadar taluka is enjoying bus facilities throughout the year. In the rest of the talukas the percentage of villages enjoying this amenity varies from a minimum of 11.96 per cent in Talala taluka to a maximum of 54.55 per cent in Porbandar taluka.

It would be seen that nearly three fourths of villages (72.73 per cent) in Manavadar taluka have this amenity only during the fair season. It is followed by Keshod (71.70 per cent). Malia (65.08 per cent), Vanthali (64.45 per cent), Kutiyana (63.04 per cent) and Visavadar (62.11 per cent). In the rest of talukas it varies from a minimum of 16.98 per cent in Ranavav tuluka to a Maximum of 50.00 per cent in Mendarda taluka.

Maximum number of villages devoid of this amenity even during the fair season are noticed in Una taluka which has 56 such villages. It is followed by Talala (44 villages). Visavadar (36 villages). Patan-Veraval (33 villages). Ranavav (31 villages), and Junagadh (23 villages), In the rest of talukas it varies from a minimum of 3 in Keshod taluka to 16 in Porbandar taluka.

(c) Distribution of villages by area

The distribution of villages by their areas is given in the following table in 8 size groups.

TABLE No. 5

Distribution of the villages by their areas in acres

Sl. No.	Area in Acres	Number of villages
1	2	3
1	50 acres or less	..
2	51 - 100	..
3	101 - 200	1 (0.11)
4	201 - 500	18 (1.93)
5	501 - 1,000	144 (15.42)
6	1,001 - 2,000	365 (39.08)
7	2,001 - 5,000	350 (37.47)
8	5,001 acres and above	56 (6.00)
	Total @	934

@ Total number of villages in the district are 1 110 five villages whose area is amalgamated with other villages and 171 forest villages for which separate area is not available, are not included.
(Figures in brackets indicate percentage).

It would be seen that the highest number of villages is found in the area group of 1,001 to 2 000 acres (365 or 39.08 per cent) followed by the area group of 2.001 to 5,000 acres with 37.47. per cent. These two groups together account for 76.55 per cent of the total villages. 15.42 per cent villages fall within the area group of 501 to 1,000 acres whereas only 6 per cent villages have area more than 5,000 acres each. Only 2.04 per cent villages have area below 500 acres.

(d) Distribution of villages by educational amenities

Table No. 6 below shows the distribution of villages having educational amenities by distance from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Sl-No.	Distance from the nearest town	Number of villages	Number of villages having				
			Primary school	Middle school	Higher secondary school	College	Others
1	5 km. or less	140	123(87.9)	..	8(5.71)	1(0.71)	4(2.86)
2	6 - 10 km.	269	241(89.59)	..	12(4.46)	..	14(5.20)
3	11 - 15 km.	297	258(86.9)	..	13(4.04)	..	10(3.37)
4	16 - 25 km.	267	219(82.02)	..	8(3.00)	..	7(2 62)
5	26 - 50 km.	116	62(53.45)	..	7(6.03)	..	1(0 86)
6	51 - 100 km.	1	1(100.00)	..	..	..	..
7	101 - 200 km.	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..
	Total	@1,090	904(82.94)	..	48(4.40)	1(0.09)	36(3.30)

@ 20 Uninhabited villages are not included.
(Figures in brackets indicate percentage to total number of villages in each distance group.)

It will appear from the above that the proportion of villages having primary schools is only 87.9 per cent for those situated within 5 km. from the nearest town and increases to 89.59 per cent in the distance group of 6 to 10 km. Thereafter it declines *pari passu* with the increase in the distance of the village from the nearest town. The percentage is highest (89.59) in the distance group of 6 to 10 km. (ignoring the figures in the distance group of 51 to 100 km. where only one village is found) and the lowest (53.45) being in the distance group of 26 to 50 km. It would also be seen that the percentage of secondary schools to total number of villages in each group diminishes *pari passu* with the increase in the distance of the village from the nearest town in the distance groups upto 16 to 25 km. The highest proportion is however observed in the distance group of 26 to 50 km. being 6.03 per cent. The proportion of other schools in each distance group shows that it increases in the distance group of 6 to 10 km. Thereafter it decreases with the increase in the distance of the village from the nearest town.

(e) Medical Facilities

Distribution of medical institutions per 100 sq. km. is given in the following table.

TABLE No. 7

Medical facility per 100 sq. km.

Sl. No.	Name of Taluka/ Mahal	Total area (in sq. km.)	Number of medical institutions of any kind per 100 sq. km.
1	Junagadh	677	2.5
2	Mendarda	364	2.7
3	Talala	954	1.3
4	Patan-Veraval	687	2.5
5	Malia	540	2.6
6	Mangrol	566	3.2
7	Keshod	563	3.4
8	Porbandar	1,141	1.9
9	Ranavav	588	1.2
10	Kutiyana	566	3.9
11	Manavadar	592	3.5
12	Vanthali	393	3.6
13	Bhesan	439	4.8
14	Visavadar	902	1.8
15	Una	1,568	1.1

Table 7 shows that the highest number of medical institutions per 100 sq. km. is highest (4.8) in Bhesan mahal followed by Kutiyana with 3.9, Vanthali with 3.6, Manavadar with 3.5, Keshod with 3.4 and Mangrol with 3.2. The lowest figure is noticed in Una taluka with 1.1, closely followed by Ranavav taluka with 1.2 and Talala taluka with 1.3. In the rest of the talukas the proportion varies from a minimum of 1.8 in Visavadar taluka to a maximum of 2.7 in Mendarda mahal.

(f) Electricity

Only 253 villages have electricity. The distribution of these villages by their distance from the nearest town is as under.

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Sl. No.	Distance from the nearest town	Total Number of villages	Number of villages with electric power supply
1	2	3	4
1	5 km. or less	140	67(47.86)
2	6-10 km.	269	75(27.88)
3	11-15 km.	297	61(20.54)
4	16-25 km.	267	42(15.73)
5	26-50 km.	116	8(6.90)
6	51-100 km.	1	..
7	101-200 km.	..	..
8	201 km. and above	..	..
	Total	@1,090	253(23.21)

@20 Uninhabited villages are not included.

(Figures in brackets indicate percentage to total number of villages in each distance group.)

Data presented in table 8 highlights the fact that the proportion of villages electrified diminishes *pari passu* with the increase in the distance of the villages from the nearest town, the highest percentage being in the villages situated within a distance of 5 km. from the nearest town (47.86), followed by the next distance group of 6 to 10 km. with 27.88. The lowest percentage is observed in the distance group of 26 to 50 km. where it is 6.90 only. The only village beyond 50 km. from the nearest town is not electrified.

(g) Communications

The following table gives the distribution of villages having different type of communication facilities by distance from the nearest town.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages connected by					
			Pucca Road	Kutcha Road	Pucca road and river	Pucca road and rail	Kutcha road and rail	Others
1	2	3	4	5	6	7	8	9
1	5 km. or less	140	46(32.86)	76(54.29)	..	9(6.43)	7(5.00)	..
2	6 - 10 km.	269	54(20.07)	184(68.40)	..	13(4.83)	17(6.32)	..
3	11 - 15 km.	297	57(19.19)	226(76.09)	..	4(1.35)	6(2.02)	1(0.34)
4	16 - 25 km.	267	53(19.85)	203(76 03)	..	3(1.12)	6(2.25)	..
5	26 - 50 km.	116	27(23.28)	85(73.28)	..	1(0.86)	..	1(0.86)
6	51 - 100 km.	1	..	1(100.00)	..	..	..	..
7	101 - 200 km.	..	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..	..
	Total	@1,090	237(21.74)	775(71.10)	..	30(2.75)	36(3.30)	2(0.18)

@20 Uninhabited villages are not included.

(Figures in brackets indicate percentage of the total number of villages in each distance group.)

As in the case of other aminities and services table 9 Shows that the proportion of villages with pucca road facilities also diminishes *pari passu* with the increase in the distance of the villages from the nearest town in the distance groups upto 11 to 15 km. Thereafter it increases *pari-passu* with the increase in the distance of the villages from the nearest town. The highest percentage is noticed in the villages situated within 5 km. from the nearest town (32.86). The lowest is noticed in the distance group of 11 to 15 km. (19.19). One village beyond 50 km. from the nearest town has no Pucca road. Per contra the percentage of villages with Kutcha road facility increases *pari passu* with the increase in the distance of the villages from the nearest town in the first three distance groups. Thereafter it diminishes in two subsequent distance groups. The only village beyond 50 km. has a kutcha road.

As regards the combined amenity of pucca road and rail the percentage diminishes *pari passu* with the increase in the distance of the village from the nearest town, the highest being in the villages situated within 5 km. (6.43) and the lowest being in the distance group of 26 to 50 km. (0.86). No trend is noticed in case of the combined kutcha road and rail facility. The highest percentage is in the distance group of 6 to 10 km. (6.32) whereas the lowest percentage is observed in the next distance group i.e. 11 to 15 km. (2.02).

(h) Number of Post Offices

The following table gives the distribution of post offices per 100 sq. km.

TABLE No. 10

Number of post offices per 100 sq. km.

Sl. No.	Name of taluka/ Mahal	Total area in sq. km.	Number of post offices per 100 sq. km.
1	Junagadh	677	4.7
2	Mendarda	364	4.1
3	Talala	954	4.8
4	Patan-Veraval	687	3.9
5	Malia	540	4.1
6	Mangrol	566	4.6
7	Keshod	563	5.5
8	Porbandar	1,141	3.4
9	Ranavav	588	2.2
10	Kutiyana	566	4.4
11	Manavadar	592	5.2
12	Vanthali	393	5.6
13	Bhesan	439	3.2
14	Visavadar	902	3.1
15	Una	1,568	3.2

The highest number of post offices per 100 sq. km is noticed in Vanthali taluka with 5.6, closely followed by Keshod taluka with 5.5 and Manavadar taluka with 5.2. Ranavav taluka has the lowest number of post offices per 100 sq. km. (2.2). In the remaining talukas of the District the number varies from a minimum of 3.1 in Visavadar taluka to a maximum of 4.8 in Talala taluka.

(i) Staple Food

Bajri, Jowar and wheat constitute the staple food of the District.

Distribution of villages by staple food

Sl. No.	Name of taluka/mahal	No. of villages reporting staple food				
		Bajri	Jowar	Wheat	Rice	Maize
1	Junagadh	77	36	73	47	8
2	Mendarda	44	11	44	28	..
3	Talala	47	47	47	47	..
4	Patan-Veraval	100	86	82	70	..
5	Malia	63	58	57	41	..
6	Mangrol	58	62	44	13	..
7	Keshod	53	44	52	17	..
8	Porbandar	77	69	69	31	..
9	Ranavav	51	39	20	9	..
10	Kutiyana	46	36	39	25	..
11	Manavadar	55	28	51	27	..
12	Vanthali	45	15	45	28	..
13	Bhesan	45	32	43	27	4
14	Visavadar	94	45	81	63	5
15	Una	175	90	128	59	4

(j) Land Use

The following table gives the percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town.

The cultivable waste land includes pastures and grazing land and area under miscellaneous trees and groves but does not include orchards.

TABLE No. 11

Percentage of average cultivable waste per village to average cultivated land per village by distance group from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7	8
1	5 km. or less	140	168,088	1,200.6	33,109	236.5	19.70
2	6 - 10 km.	269	394,141	1,465.2	80,811	300.4	20.50
3	11 - 15 km.	297	425,290	1,432.0	86,645	291.7	20.37
4	16 - 25 km.	267	342,167	1,281.5	91,975	344.5	26.88
5	26 - 50 km.	116	142,842	1,231.4	31,295	269.8	21.91
6	51 - 100 km.	1	1,201	1,201.0	335	335.0	27.89
7	101 - 200 km.	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..
	Total	1,090	1,473,729	1,352.0	324,170	297.4	22.00
	Uninhabited Villages	20	6,073	..	854	..	..
	Grand Total	1,110	1,479,802	..	325,024	..	..

It would be seen from col. 5 of the table that the average cultivated land per village is higher in the distance groups of 6 to 10 km. and 11 to 15 km. as compared to rest of the distance groups.

Average cultivable waste per village is highest (344.5 acres) in the villages in distance group of 16 to 25 km. the lowest being (236.5) in the villages situated within 5 km. from the nearest town.

Percentage of average cultivable waste land per village to average cultivated land per village is only 19.70 per cent for those situated within 5 km. from the nearest town and increases to 20.50 per cent in the distance group of 6 to 10 km. It is almost the same (20.37) per cent for the villages situated within 11 to 15 km. In the subsequent group of 16 to 25 km. it increases to 26.88 per cent and falls to 21.91 per cent in the distance group of 26 to 50 km.

TOWN DIRECTORY

Note ;- @ There is a joint municipality for Patan and Veraval towns. As such separate data for each town are not available except altitude of each town.

Note :- Rainfall and temperature data for Patan-Veraval town have been obtained from the Directo· General of Observatories, Meteorological Department, Government of India. Corresponding figures for Keshod town have been obtained from the Director, Regional Meteorological Centre, Bombay. For the rest of the towns the data have been obtained locally.

* As the temperature figures for Adityana town are not available the temperature figures of Ranavav which is the nearest town have been adopted. Similarly, the temperature figures for Bilkha, Shapur and Vanthali not being available, those of Junagadh have been adopted.

*Uninhabited.

†Forest villages and hence no separate area figures are available.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and Other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

	Total	**85,164**	**Pr.S(37), Sec.S(2), OS(1)**	**HC(3), D(6), FC(1)**	**E(11)**	**T(5), W(40), R(14), O(23)**	**WY(13), FS(23), PR(17), KR(31)**	**PO(15)**

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

† Uninhabited

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note:—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Col. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and Other Schools. The figures in brackets under Col. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Forest area and hence no separate area is available.
† Uninhabited.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Forest village and hence separate area figures are not available.

† Uninhabited.

Note:—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

PART X-B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1971 Census provides information in respect of each village in rural area and town/ward/enumerator's block in urban area. It gives information about the area of the village in acres and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literate and educated persons. The entire population of each village/urban enumerator's block is divided into nine industrial categories of workers and non-workers as under :—

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs
(a) Household Industry
(b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

X Non-workers

The sexwise break-up of total workers (industrial category I to IX) have been presented, in addition to similar break-up for each industrial category of Worker and Non-worker.

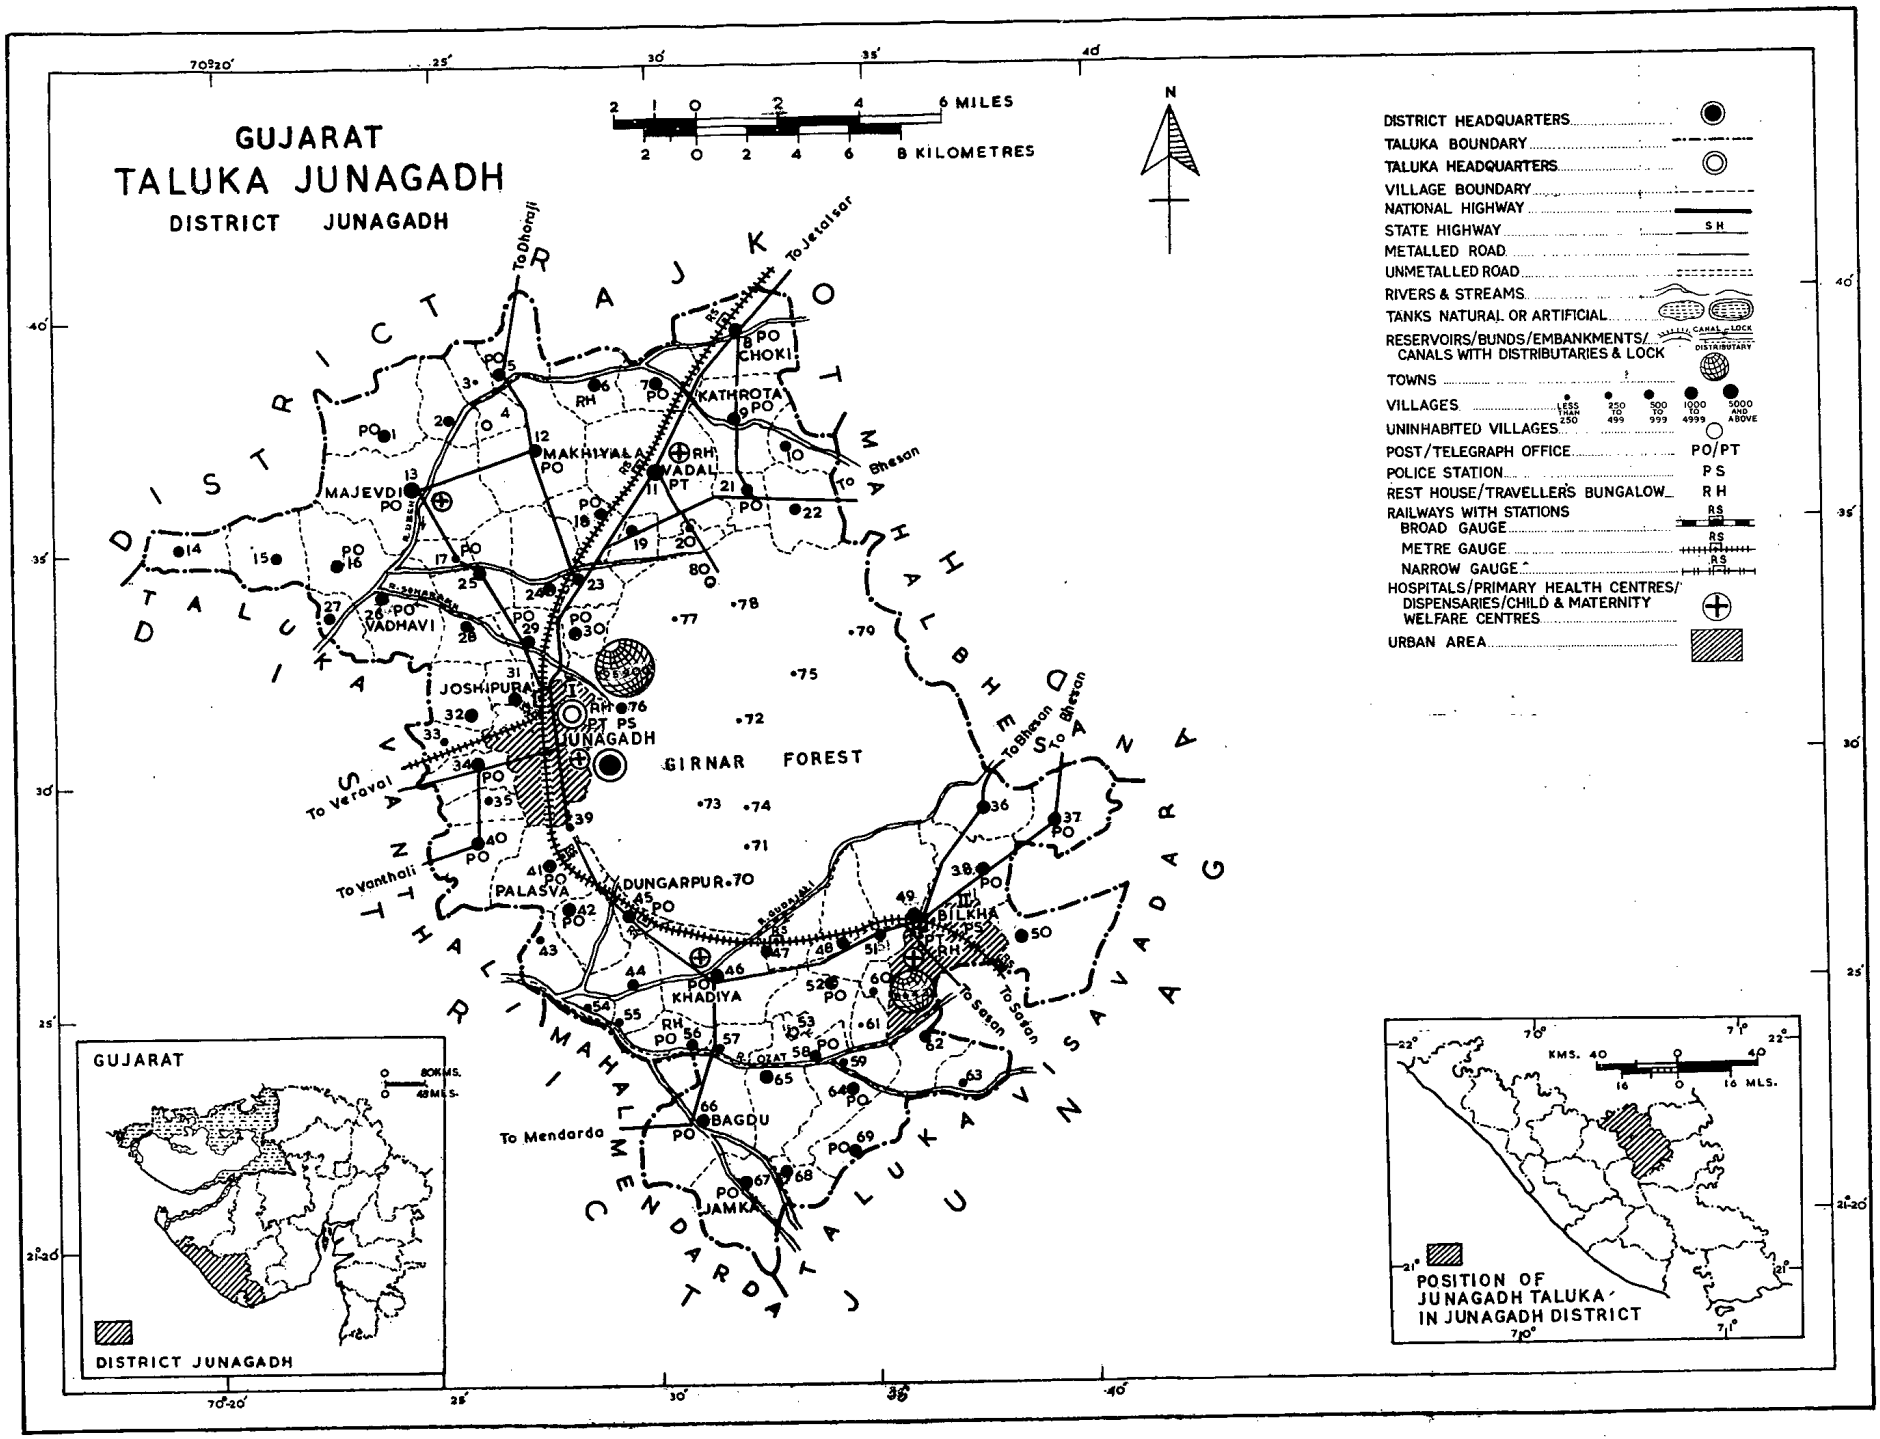

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1 Municipal Corporation	MC
2 Municipality	M
3 Non-Municipal Area	NM
4 Nagar Panchayat	NP
5 Village Panchayat	VP
6 Cantonment	Cantt.
7 Not Available	N A
8 Outgrowth	O G

The following conversion factor has been used for converting acres into $Km.^2$

Acres x 0.004047 = $Km.^2$

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land and Records.

† Includes 44,519-01 Acres of the Forest.
