MOTIF

Shiv Khori Shrine

Famous cave shrine of "Shiv Khori" situated in district Reasi depicts the natural formation of Shivlingum. It is one of the most venerated cave shrines of Lord Shiva in the region. The Holy cave is more than 150 mts long and houses 4 feet high SvayambhuLingum, which constantly baths in a milky lime fluid dripping from the ceiling. The cave is full of natural impression and images of various Hindu Deities and full of divine feelings.

Legend has it that a demon named Bhasmasur, after a long meditation of Lord Shiva, obtained the boon that he could end the life of anyone by placing his hand on their head. After obtaining it, this devil had the evil intentions to end Lord Shiva. On seeing the evil design of the demon, Lord Shiva ran to save himself from the powers of the demon and entered through the narrow entrance of this cave which is now known as Shiv Khori. Thereafter, Lord Vishnu in the guise of Mohini came and lured the demon to dance to her tune. As the demon started dancing exactly as per the actions of Mohini, the said demon kept his hand on his own head and destroyed himself with his own powers. As per the legend, 33 crores deities exist in this cave in shape of pindis.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.: (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of C.S. Sapru, Joint Director of Census Operation, Jammu and Kashmir. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

Preface

The compilation and Publication of District Handbooks has been a traditional feature of the Indian Census since 1951. However in Jammu and Kashmir State, no census was conducted in 1951 and 1991 due to the unavoidable conditions prevailing then. The 2011 series of District census handbook contain two parts each. Part-A deals with Town and Village directory and Part B consists of Town and Village-wise Primary Census Abstract etc. The village also follows the same pattern as in 2001. It is hoped that with its present content the Handbook would, more than ever, serve as a useful reference publication, particularly for administrators and data users as have to deal with planning, implementation and evaluation of development programmes including the Minimum Needs Programme at the Grass Root level. The compilation of the Handbook would not have been possible but for the cooperation extended by the Revenue, Education, Medical, Public Health and other local authorities of the District in making data available for which I owe them my grateful thanks.

The Census -2011 was successfully conducted in the State under the able stewardship of Sh. Farooq Ahmed Factoo, IAS, Director Census Operations, J&K, who had to work very hard to see the operations of Census through in the State under the disturbed conditions prevailing in the State. The data presented in this volume has been collected and Tabulated under his supervision and control.

I am highly grateful to C. Chandermoulli, IAS, Additional Secretary to Government of India under whose stewardship the District Census Handbook has been finalized. I am also thankful A.K.Singh DRG (C&T) and Smt Pratibha Kumari ARG (SS) who extended valuable suggestions from time to time.

(C.S.Sapru)
Joint Director of Census Operations
Jammu and Kashmir

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses.

In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

Reasi is one of the oldest towns of the Jammu and Kashmir State. It was the seat of the erstwhile Bhimgarh State, said to have been established by Raja Bhim Dev somewhere in the 8th century. It remained an independent principality till 1822, when Raja Gulab Singh the then Governor(Raja) of Jammu hill region, under the Sikh empire, consolidated the small states. Till 1948 Reasi was a district of Jammu Province, but in the first administrative reorganization of the State undertaken in 1948 the major part of the then district Reasi was merged with district Udhampur, while some areas became part of District Poonch (now Rajouri). In April 2007 district Reasi was carved out from erstwhile Udhampur district. 18 villages of Gool Gulab Garh tehsil were transferred to Ramban tehsil, whereas 18 villages of Udhampur tehsil were added to Reasi tehsil. Further, one village: namely; Purana Daroorh and part of Dhar Vish Devi was treated as Purana Daroorh(M.C.) and one village namely; Marhi of Reasi tehsil treated as Census Town. The district is comprised of two tehsils namely Gool Gulab Garh and Reasi. Tehsil Gool Gulab Garh is having no urban area so far and Tehsil Reasi comprise of three urban areas namely Katra(MC), Reasi (MC) and Purana Daroorh(M.C).

Administrative set up

Reasi district has two tehsils: namely, Reasi and Gool Gulab Garh. For efficient administration these tehsils have been divided into **4** Community Development Blocks viz : Arnas, Mahore, Reasi and Pouni. The rural part of the district is comprised of 255 villages including 2 uninhabited villages. Its urban sector is made up of **3** Municipal Committees viz, **Katra, Reasi & Purana Daroorh** and two Census towns, namely **Talwara** and **Marhi**.

The number of Police Stations and Police Post in the district are 6 and 5 respectively. There are six educational zones in the district.

The judicial set up of the district is of the following order:

- i. No. of District Session Court 1
- ii. No. of Sub Judge Courts 2
- iii. No. of Munsiff Courts 3

Each Tehsil, Community Development Block, Police Station and Educational Zone is headed by an Officer of the rank of Tehsildar, Block Development Officer, Station House Officer and Zonal Education Officer. The Revenue Department, Community Development Department, Police Department and Education Department are discharging their duties under close supervision of their next District level Supervisory Officer with District Development Commissioner at the apex to oversee the functioning of entire District Administrative Machinery. The administration of Police force is vested with Superintendent of Police in the district but under the general directions of the District Magistrate as provisions of law i.e. Indian Police Act, 1861.

The district has recorded a population of 3,14,667 which is 2.51 per cent of the total population of the State. The area of the district is 1719 sq.km. While the rural part of the district is spread over an area of 1679.99 sq. km, the urban sector has an area of 39.01 sq. km. thus population per sq.km. of the district i.e. density works out to 183. Amazingly, among all the districts of the State. Reasi ranks 16th in terms of population. Sex ratio viz, number of females per 1,000 males is 890 which is slightly higher as compared to the State's ratio of 889.

The data reveals that the net addition to district's population between 1901 and 1911 was 4,312 registering thereby decadal growth rate of 7.54 per cent. The said rate declined to 4.45 per cent during 1911-21. It increased to 6.37 per cent in 1921-31 and then further rose to 8.62 per cent and 10.28 per cent during the decades 1931-41 and 1941-51 respectively. However, during 1951-61, the growth rate dipped to 9.32 per cent and again shot to as high as 30.07 per cent during the decade 1961-71 and further accelerated to 37.55 per cent during 1971-81. The growth rates relating to decades 1981-91 and 1991-2001 were 24.97 per cent and 23.81 per cent respectively. The growth rate recorded during 2001-2011 is 27.04 which is higher as compared with the corresponding rate of the State, standing at 23.64 per cent.

No Census was conducted in the State during 1951 and 1991 due to disturbed conditions prevailing then. 1951 population figures are the arithmetic mean of 1941 and 1961 population, whereas 1991 population figures have been worked out by '*interpolation*'.

Child population in the age group 0-6 is 55,799 comprising 29,079 males and 26,720 females. This population constitutes 17.73 per cent of the total population of the district. Number of females per 1,000 males in this age group is 919 which is higher when compared with the corresponding ratio of the State, standing at 862.

So far as literate population of the district is concerned 1,50,542 persons have been recorded as literate, constituting 58.15 per cent of the total population of the district (excluding population in the age group 0-6) as against 67.16 per cent recorded for State as a whole. Male and female literates in the district account for 68.38 per cent and 46.59 per cent respectively. The corresponding proportion of male and female literates in the State is higher standing at 76.80 per cent and 56.40 per cent respectively.

Total workers in the district constitute 46.01 per cent, out of which 28.11 per cent are main workers and 17.90 per cent are marginal workers; non workers comprise 53.99 per cent. The corresponding proportions for total, main and marginal workers in case of State as a whole are 34.47 per cent, 21.08 per cent and 13.39 per cent respectively.

DISTRICT HIGHLIGHTS - 2011 CENSUS

District Reasi is situated in the Shivalik hills and is located at 1528 mtr above mean sea level.. District Reasi has been commanding worldwide fame due to bless and presence of world famous shrine of Shri Mata Vaishno Devi and Shiv Khori Shrine. The River Chenab which is one of the major rivers of India happens to pass through the district. Salal Power Project has been constructed on this river. This project has capacity to generate 690 MW of power.

Reasi district was carved out from erstwhile Udhampur district owing to re-organization of districts in April,2007. The district is presently constituted of two tehsils namely Reasi and GoolGulabGarh. These tehsils have further been divided into 4 Community Development Blocks viz. Reasi, Pouni, Arnas and Mahore. While rural part of the district is constituted of 255 villages(including 2un-inhabited villages). Its urban sector is comprised of 3 Municipal Committees viz, Katra, Reasi&PuranaDaroorh and two Census towns, namely Talwara and Marhi.

The district has recorded a population of 3,14,667 which is 2.51 per cent of the total population of the State. The area of the district is 1718.51*sq.km while the rural part of the district is spread over an area of 1679.5*sq. km and the urban sector of the district having an areas of 39.01 sq. km; thus population per sq.km. of the district i.e. density works out to 183. Amazingly, among all the districts of the State. Reasi ranks 16th in terms of population . Sex ratio viz, number of females per 1,000 males is 880 which is slightly lower as compared to the State's ratio of 889.

The data reveals that the net addition to district's population between 1901 and 1911 was 4,312 registering thereby decadal growth rate of 7.54 per cent. The said rate declined to 4.45 per cent during 1911-21. It increased to 6.37 per cent in 1921-31 and then further rose to 8.62 per cent and 10.28 per cent during the decades 1931-41 and 1941-51 respectively. However, during 1951-61, the growth rate dipped to 9.32 per cent and again shot to as high as 30.07 per cent during the decade 1961-71 and further accelerated to 37.55 per cent during 1971-81. The growth rates relating to decades 1981-91 and 1991-2001 were 24.97 per cent and 23.81 per cent respectively. The growth rate recorded during 2001-2011 is 27.04 which is higher as compared with the corresponding rate of the State, standing at 23.64 per cent.

The decadal growth rates indicated during 1981-1991 and 1991-2001 are interpolated as no census was conducted in the State during 1991 due to disturbed conditions prevailing then. Child population in the age group 0-6 is 55,799 comprising 29,079 males and 26,720 females. This population constitutes 17.73 per cent of the total population of the district. Number of females per 1,000 males in this age group is 919 which is higher when compared with the corresponding ratio of the State, standing at 862.

So far as literate population of the district is concerned 1,50,542 persons have been recorded as literate, constituting 58.15 per cent of the total population of the district (excluding population in the age group 0-6) as against 67.16 per cent recorded for State as a whole. Male and female literates in the district account for 68.38 per cent and 46.59 per cent respectively. The corresponding proportion of male and female literates in the State is higher standing at 76.80 per cent and 56.40 per cent respectively.

Total workers in the district constitute 46.01 per cent, out of which 28.11 per cent are main workers and 17.90 per cent are marginal workers; non workers comprise 53.99 per cent. The corresponding proportions for total, main and marginal workers in case of State as a whole are 34.47 per cent, 21.08 per cent and 13.39 per cent respectively.

Schedule castes population is 37,757 accounting for 12 per cent of the total population of the district which is higher as compared with the corresponding percentage of the State (7.38). In the district, the respective percentage of male and female schedule castes is 11.81 and 12.21 as against 3.88 per cent for males and 3.49 per cent in respect of females for the State as a whole.

Schedule tribes number 88,365 or 28.08 per cent of the total population of the district as against 11.91 per cent recorded for the State as a whole. In the district, male schedule tribes account for 27.83 per cent while females claim 28.36 per cent. The corresponding proportions of male and female schedule tribes pertaining to State are 6.18 per cent and 5.72 per cent respectively.

Note : * Village level area figures have been provided by the concerned district revenue authority of state Govt.

	Females	433,225	38.42	10,747	19.19

Notes:

- a) Includes 78,114 sq. kms. under illegal occupation of Pakistan and 5,180 sq. kms. illegally handed over by Pakistan to China and 37,555 sq. kms under illegal occupation of China in Leh (Ladakh) district
- b) The population figures exclude population of areas under unlawful occupation of Pakistan and Chinawhere census could not be taken
- c) Population density of the State is calculated on the net area 101,387 Sq. kmexcluding the area under illegal occupation by Pakistan and China.
- d) Density of population is calculated in the base of revenue area of the district

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March,

2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

-4-

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District

Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
