MOTIF

RAJA'S SEAT, MADIKERI

Raja's Seat (Seat of the King) is a seasonal garden of flowers and artificial fountains. It is one of the most important tourist spots in Madikeri town of Kodagu district. Madikeri also known as Mercara was founded by a prince Muddu Raja of the Haleri dynasty in 1681 A.D. Raja's seat is an elevated spot overlooking a vast greenery. This spot was frequented by the royalty with a view to enjoy the scenic beauty of the valleys. It commands a thrilling view of the surrounding area. Standing in the open, the seat is provided with heavy masonry arched pavilion from where the visitor can see one of the finest and most enchanting views.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)-Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sri T. K. Anil Kumar, Director of Census Operations, Karnataka. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division**.** I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.
Dated:- 16-06-2014

PREFACE

Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India has traced the history of the district Census Handbooks in the foreword to the 2011 series of the District Census Handbooks (DCHBs). He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2011 Census. It also contains a wealth of information regarding villages and towns which throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A - contains information regarding each village and town (Village Directory and Town Directory – non census data collected from various sources) and Part B – containing the population data collected during 2011 Census - the Primary Census Abstract (PCA). The data published in Part B was collected during February-March 2011 in the Population Enumeration.

The process of data collection for the Village Directory and Town Directory (Part A) commenced in 2009 and the reference date is 31.12.2009. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the District Census Handbooks 2001. The Household Schedules, which were canvassed to collect the population data during 2011 Census, were scanned and data captured was processed electronically through ICR (Intelligent Character Recognition) Technology. The Primary Census Abstract (PCA) was generated centrally on the computers by the Office of the Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledges their co-operation.

I take this opportunity to offer my thanks to Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India for his valuable guidance and support. I appreciate the supervision and support given by Sri N. Manjini, Joint Director and also thankful to all the officers and officials of this Directorate who have been relentlessly involved in the compilation of this volume.

I am highly grateful to Dr. Pratibha Kumari, Assistant Registrar General (SS), Dr. R.C.Sethi, Ex-Addl. RGI, Shri Deepak Rastogi Addl. RGI. for their guidance and Shri A.P. Singh, Deputy Registrar General (Map), who provided the technical guidance in the preparation of maps. My thanks are also due to Shri A.K. Arora, Joint Director of Data Processing Division for generating the final formats of this publication under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP), ORGI.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

Kodagu the district, known, as Coorg during the British regime is a tiny mountainous province in south India bounded on the north and east by Hassan and Mysore district and on the west and south by Dakshina Kannada; Cannanore and Kasaragod district of Kerala State. The total area of the district is 4,102 sq.km. The name 'Kodagu' is derived from the word 'Kodimalenad' which means dense forestland on steep hills.

The historical period of Kodagu begin from about 2nd century A.D. with a legendary period before its history begins. Kaveri Mahatmya mentions this area by three names viz, Brahma Kshetra, Matsya Desha and Kroda Desha. Lopamudra the daughter of Brahma was adopted by Kaveri Muni and thereby came to be known as Kaveri. She was married to Agastya and was later transformed into river Kaveri. Kaveri River originates at Talakaveri in Kodagu and is regarded as the presiding Goddess of Kodagu. During the legendary period, some wild and primitive tribes apparently lived in Kodagu. For it is said that the goddess Parvati, pleased with the meditation of Chandravarma gave him a sword and a horse and asked him to conquer the land from the wild tribes who were then ruling Kodagu.

Numerous sculptural remains, which have been discovered in the district, have amply demonstrated that man inhabited this district during the pre-historic times. These cairns are similar to such remains found all over south India and indicate that before the dawn of modern civilisation, the same set of people who were dwelling in various parts of south India had their settlements in Kodagu district as well.

The earliest mention of Kodagu is in Tamil literature of the Sangam period. The Tamil poets have described Kudakam, i.e., Kodagu as the western limit of the Pandyan Kingdom. Kodagu from the earliest times known to history up to about the beginning of the 17th century was not ruled by any one dynasty completely. Petty princes and chieftains who owed allegiance to bigger powers outside the district were ruling different parts of Kodagu.

Various inscriptions give the details of history of Kodagu from about 2nd century A.D., to 16th Century A.D. The Gangas ruled from Talkad from 3rd Century A.D., over the southern and central parts of Kodagu through their governors and local chieftains, the Kadambas of Banavasi, ruled over the northern parts of the district. The Gangas were Jains. Towards the end of 10th Century the Cholas overthrew the Ganga Sovereignty. Then they became the dominant power for a little more than a hundred years.

The Changalvas, the feudatories of the Gangas who were ruling in Hunsur taluk of Mysore district and in Kodagu, opposed the Cholas. The Changalvas are a line of kings who ruled in the western part of Mysore and in Kodagu from the 10th Century to the 17th Century. Though Jains at first, they embarrassed the lingayat faith in the beginning of the 13th Century. The

Changalvas were defeated in a decisive battle at Hanasoge on the cauvery basin and came under the domination of the Cholas. The Chola suzerainty ended when the Hoysalas of Dwarasamudra overpowered them in 1116 A.D. The Hoysalas exercised over lordship over the Changalva king Mahadeva. Mahadeva shifted his capital from the plains of Hunsur to Palpare in the Kiggatnad of Kodagu. The Hoysala Ballala general, Bettarasa, defeated and killed Mahadeva of the Changalvas in 1174 A.D., in a battle fought at Palpare. Pemma Virappa Changalva attacked Bettarasa in 1174 A.D. Badaganada Nanideva Udayadityadeva of Kuruchi in South Kodagu and the Kodagas of all the Nads fought on the side of Pemmavirappa. This is the first specific mention of the Kodavas found in inscriptions. Mudayya Naika, the Kodava general and his two sons died in the battle. But the Kodavas gained a decisive victory for Pemmavirappa who granted lands to the sons of these great fighters. Pemmavirappa submitted to Hoysala Ballala II in 1175 A.D. By about 1245 A.D. The Changalvas had changed their capital from Palpare in South Kodagu to Kodagu Srirangapatna, south of the Kaveri near Siddapur, after defeating the Kongalvas, who governed North Kodagu.

The Hoysalas conquered the Cholas and brought both the Changalvas and Kongalvas under their rule. However, depending upon the strength and weakness of the ruling monarch i.e., the prevailing suzerain, the Changalvas were either loyal or submissive or were rebellions and independent. Muslims from Delhi invaded the south and put an end to the Hoysala rule and to their domination over Kodagu. In the 14th century certain petty chieftains called Nayaka who were under the influence of the Vijayanagar kings ruled over north Kodagu and Dannayakas (chieftains) ruled over Srimangal and in south Kodagu. These Nayaks were at constant fend with one another which opened the way for the establishment of a new dynasty of rulers, viz, the dynasty of Haleri Rajas.

The Haleri dynasty (1600-1834 A.D.) started ruling over the whole of Kodagu for the first time in the history of Kodagu for 234 years. Vira Raja, a prince of Ikkeri family is the founder of this dynasty. He and his successors subdued the Nayaks and consolidated their power over the present district of Kodagu. Mudduraja I (1633-1687 A.D.) waged wars against Mysore and the Raja of Chirakkal. He extended his kingdom to Sullia also. During the rule of Chikkavirappa Wodeyar (1736-1766 A.D.) Kodagu attracted the attention of Haidar Ali of Mysore. On the death of Chikkavirappa, there was a dispute about the succession, which gave Haidar Ali an opportunity to intervence in the affairs of Kodagu. Lingaraja (1775-1780 A.D.) tried to consolidate his position and occupied parts of Wynad also. But when he died in early 1780 A.D., Haidar Ali occupied Kodagu under the pretense of being the guardian of the young prince. Then began a long struggle which lasted for nine years during which period Tippu Sultan is said to have taken away 70,000 Kodava prisoners and in turn tried to populate Kodagu with Mohammadens brought from outside. Virarajendra, the rightful king was imprisoned in Piriyapatna. In 1788 A.D., Virarajendra escaped from the prison and established friendship

with British East India Company. At the conclusion of III Mysore war, Tippu Sultan was forced to hand over Kodagu to the British who restored king Virarajendra to the throne. From then on till 1834 A.D., the Haleri Rajas under the suzerainty of the British ruled Kodagu.

During the rule of Chikkavirarajendra Wodeyar (1820-1834 A.D.) serious differences arose between the Raja and the British, and this led to the British taking over the administration directly. The British ruled over Kodagu for 113 years from 1834 to 1947. Kodagu was brought under the administration of the Foreign and Political Department of the Government of India, with the Commissioner of Mysore state as Commissioner of Coorg (Kodagu) also. The Commissioner had his headquarters at Bangalore while under him the Superintendent was the chief local authority in Coorg. The superintendent was assisted in his work by two Assistant Superintendents, one a European officer and the other a local man. Captain C.F.Wettardy was the first Superintendent of Coorg. Lt. Col.Fraser, the Political Agent and also the Officer in over-all command of the British forces were the first Commissioner. He issued a proclamation that the inhabitants of the state would not again be subjected to native rule and that their civil and religious usages would be respected and that the greatest desire would invariably be shown by the British Government to augment their security and happiness.

The general condition of the people was improved. From the second half of the nineteenth century, the prospect of the country began to change by the large-scale cultivation of coffee in Coorg state. With the advent of Independence in 1947, Kodagu (Coorg) was constituted into a Part-C state in the Union of India. As a consequence of the re-organisation of states in November 1956, Kodagu was merged with the erstwhile state of Mysore (now Karnataka) and was constituted into a separate district with no change in its territorial limits. As the original name of the district has now been restored, the name given to it by the British, namely Coorg is no longer in official use.

Administrative setup and jurisdictional changes during the decade 2001-2011

DISTRICT HIGHLIGHTS 2011 CENSUS

- The total area of Kodagu district is 4102 sq. km.
- Kodagu district has the lowest population of 5, 54,519 in the State with lowest rural and urban population.
- The district has the lowest density of 135 in the State.
- Kodagu district accounts for only 0.9 percent of the total population of the State and stands at the last place in the State.
- With the decadal growth rate of 1.1 percent, it ranks penultimate in the State in terms of decadal growth rate.
- The district with a Sex ratio of 1019 holds 3rd rank in the State.
- The district has the highest Sex ratio of 978 among the child population in the age-group 0-6, in the State.
- The proportion of child population (0-6 age-group) is 9.9 percent in the district and holds the rank of 25th in the State.
- The district holds the 5th position in the state in terms of literacy, with the literacy rate of 82.6 percent.
- The male and female literacy rates in the district are 87.2 percent and 78.1 percent respectively.
- The Scheduled Caste population contributes 13.3 percent and the Scheduled Tribe population contributes 10.5 percent to the total population of the district.
- The district has registered a work participation of 50.3 percent and stands at 5th place in the State.
- The work participation rates for Male and Female population are 62.7 and 38.2 respectively in the district.
- Among the total workers in the district 92.8 percent are Main workers and 7.2 percent are Marginal workers.
- Major work force of 86.4 percent is Other Workers and Agricultural sector have only 13.0 percent of total workers, i.e., Cultivators (7.6 percent) and Agricultural Labourers (5.4 percent).
- Kodagu has the least no. of Household Industry workers (0.6 percent) in the State.
- About 49.7 percent of the total population in the district is non-workers.
- Kodagu district has the second lowest number of villages (296), 4 Statutory Towns and 1 Census Towns.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in

place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The

term ‘Total Population’ includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
